Summary of Farm Practices Outlined For 1950 Program

Practices of Major Importance To Local Farmers Outlined.

Listed below is a brief summary of the practices for which credit will be given under the 1950 Agricultural Conservation Program. The 1950 program year is from January 1, 1950 to December 31, 1950. The following practices are expected to be the main ones of interest to Boone County farmers:

1. **Liming Materials**—Applying standard ground limestone, or equivalent material, to farm land.
2. **Phosphate and potash**—Applying phosphate and potash materials other than rock of colloidal phosphate, to eligible crops. Application must be made at a time so that the eligible crop will receive the principal benefit of the material.
3. **Phosphate and potash materials** (except rock or colloidal phosphate) may be applied only to: (a) permanent pasture; (b) new seedlings of grasses and legumes, excluding vegetable or truck crops for sale, soybeans for seed or oil, Sudan grass, and sorghums; (c) winter cover crops (other than small grains alone); (d) hay crops, excluding small grain, Sudan grass, and sorghums; (e) cover crops in orchards.
4. **Applying rock or colloidal phosphate** to noncrop pasture and eligible cropland.
5. **Winter cover crops**—Establishing a winter cover of crimson clover, hairy vetch, annual ryegrass, or a mixture consisting solely of these crops from seedlings made in the fall of 1949.
6. **Pasture development**—Establishing or improving a permanent pasture by seeding adapted grasses and legumes.
7. **Mowing permanent pastures**—Mowing permanent pastures to control weeds and to aid and maintain desirable pasture plants.
8. **Terracing**—Constructing standard terraces. Prior approval of the county committee must be obtained.
9. **Contouring crops**—Contour farming of row crops followed by cover crop seeded on the contour on land having 2 percent and not more than 15 percent slope.
10. **Stockwater development**—Excavating ponds or constructing water-impounding dams for providing adequate supplies of water to livestock. Prior approval of the county committee must be obtained. Payment may not exceed \$300 for each development.

President Calls Attention To Home Demonstration Week

During National Home Demonstration Week, April 30 to May 6, attention in Kentucky will be called to work accomplished through homemakers clubs by window displays, tours, meetings, demonstrations, exhibits, radio broadcasts and by feature newspaper stories.

President Truman notes the importance of the week with this proclamation:

"To the Three Million Rural Women in Home Demonstration Week: 'Your emphasis on Today's Home Builds Tomorrow's World' is most fitting for National Home Demonstration Week, April 30-May 6. 'Our homes are as important to the country as they are dear to each of us. Our homes are the basis of our democratic freedom. Most of our work is done with home in mind. Home is where we turn the modern wonders of science into better, healthier, happier living. Home is where we develop future citizens, and where we lay the foundation for community and world-wide understanding. 'You who keep and improve those homes have a sacred trust. The improved homemaking practices you are adopting and demonstrating to others, as well as your organized discussion of what makes better homes, better family life, better communities, and better understanding of national and world-wide problems, are all part of the high objectives for which we in America are striving.'"

Service Station Near Union Looted Late Friday Night

Entrance Gained By Forcing Door; Amount of Loot Undetermined.

A filling station owned and operated by Clinton Jones near Union was robbed late Friday night, according to Sheriff Wendell Easton, who was called to investigate the robbery.

The robbers made their entrance by forcing the front door of the building, taking the money boxes and contents from the juke box and pinball machines. The amount of the loot was undetermined, Sheriff Easton reported.

The theft was discovered near midnight Friday, when a motorist visited the station in search of help. Finding the station with lights on and the door open, but with no attendant, he called out. He was answered by Mr. Jones who lives nearby, who discovered the station had been robbed.

Sheriff Easton reported nothing missing from the station other than money from the two boxes.

Illegal Use of Purple Gasoline Causes Fair To Lose Permits, Is Word

Illegal use of purple gasoline caused 25 farmers to lose their permits for use of agricultural gasoline in the ten months ending March 29, David K. Waller, Director of Division of Excises for the Kentucky Department of Revenue reported. The permits entitle holders to tax refunds on gasoline used for agricultural purposes.

Waller said that during the ten month period the Department had completed 971 investigations covering every county in the Commonwealth. Fifty hearings were held which resulted in the 25 revocation of permits. 23 were suspended and two were acquitted.

The 1946 legislature passed the Kentucky Agricultural Refund Act which allow farmers to be re-imposed for gas tax paid on motor fuel used exclusively in actual farm operations.

Since July 1, 1949, all gasoline subject to refund has been colored purple with a special "identifier dye" which is furnished to gasoline distributors by the Department of Revenue. Refund gasoline cannot be legally used in vehicles that operate on the highways.

Over 16,000 active refund permits are on record with the Department. Field Agents of the Department continuously spot check over the State to guard against purple gasoline being used illegally in passenger cars, trucks, or other vehicles operating on the highways.

Permit holders are required to apply for gasoline tax refunds within 120 days of purchase and submit invoices.

Farm Bureau Directors Hear Walter Chapman

At Monthly Meeting Held Tuesday April 11 In County Office.

Walter Chapman, rural youth director of the Kentucky Farm Bureau Federation, addressed the directors, officers and visitors of the Boone County Farm Bureau at their monthly meeting on April 11 at the Boone County Farm Bureau office in Burlington, according to John E. Crigger, secretary.

He told them of the program that the Kentucky Farm Bureau Federation had adopted and how it was progressing in other counties. The square dance which was played on horseback at the Kentucky State Fair last fall by the Union County Farm Bureau, was a part of the work of this organization. Several who saw this special feature stated that it was very outstanding and unique in its nature.

It was decided that each of the directors would discuss the youth program in their own community and if there was sufficient interest, plans would be made at the next meeting for such an organization.

Seventeen directors were present to hear Mr. Chapman's address. They were H. E. White and Wilfred Scott, of Burlington district; Grant Maddox and L. H. Congleton, of Florence district; J. Lassing Huey and Stanley W. Eichholz, of New Haven district; W. W. King and Joseph C. Rouse, of Verona district; Beckham Shields, and Lawrence Turner of Walton district; Vaughn Hempling of Constance district; W. W. Crigger and J. C. Aylor of Hebron district; J. T. Stevens and Wm. B. Rogers, Jr., of Gars district; D. E. Ogden and James B. Jones of Hamilton district.

Also present was Mrs. Grant Maddox, president of the Associated Women of the Boone County Farm Bureau. Directors not present were R. Z. Asbury, Constance district; M. K. Todd, Walton district; Charles Allen White of Petersburg district.

Leaflets Distributed In Fight Against Infantile Paralysis

Kentucky schools are distributing 750,000 leaflets on precautions to take to guard against infantile paralysis. The first shipments went out this week to rural schools from the National Foundation for Infantile Paralysis.

The four-page leaflet is called "A Message About Polio" and was compiled to help allay fear and panic during a possible polio epidemic and to give a comprehensive list of suggestions of what to do if polio strikes in a community.

Declaring that the threat of infantile paralysis is of particular concern as summer approaches, Earl James McGrath, U. S. Commissioner of Education, said of the suggestions:

"The reliable data in the leaflet, the common-sense precautions, the assurance of medical care will bolster morale should epidemics occur. Fear can be as infectious as polio itself and as harmful, unless people are given the guidance and reassurance they need. If the National Foundation's leaflet is given every pupil to take home, I believe there will be far less anxiety and confusion about this disease."

Kentucky Superintendent of Public Instruction, Boswell Hodgkin, asked the state's school superintendents to cooperate in distribution of the leaflet saying: "I hope you can see fit for each child in your school system to receive one of these pamphlets, with instructions to carry it home to his parents."

Howard C. Orr, executive director of the Kentucky Chapter said additional copies of the leaflets would be distributed through various clubs and organizations throughout the state.

Jesse Delahunty who has been quite ill for some time does not improve.

Mrs. Arthur Tanner had as her guest over the week-end her niece, Miss Marie Rouse, of Chicago.

We are sorry to report Harry Dinn as being one the sick list. However, we all wish him a hasty recovery.

Emery Smith, of Cincinnati was a recent guest of Mr. and Mrs. Wm. Markesbery.

Friends here of Cam Kennedy, of Walton were very sorry to learn of his illness at Booth Hospital. However, we all wish him the best and hope he will be out again soon.

Mr. and Mrs. Jesse Delahunty. We are very grateful to those who contribute items to this column. However, we would like to have more of them. Deposit in the news box at the Aetna service station.

Children Under 16 Forbidden To Operate Motor Bike

Or Motor Scooter In State After July 31, 1950, According To Report.

After July 31, 1950 it will be illegal for any one under 16 years of age to operate a motor bike or motor scooter in Kentucky. This was pointed out by Paul Boyd, supervisor of Operator License Section, Department of Revenue in calling attention to changes in Kentucky's motor vehicle operators license laws made by the 1950 session of the Legislature.

The former provision for a special license to operate motor bikes and scooters by those under 16 years of age has been repealed. Those over 16 may obtain a regular operators license, good for operating any motor vehicle.

Another major change in the operators license law was the elimination of the free extension privilege for licenses of military personnel. This was also repealed by the 1950 Legislature when the war emergency was declared ended as far as the Commonwealth of Kentucky is concerned.

Therefore it will be necessary for Kentuckians who are former members of the armed forces to secure the regular operators license if they wish to drive in the state after August 1, 1950.

Feather-bedding scheme of Firemen's Union to put an additional fireman on diesel locomotives has been

CONSIDERED TWICE!

Fact Finding Boards appointed by Presidents Roosevelt and Truman have said these demands were "devoid of merit" and they were

REJECTED TWICE!

Now the Firemen's leaders seek to paralyze railroad transportation to compel the railroads to employ a wholly unnecessary additional fireman to ride on diesel locomotives. This scheme is plain

FEATHER-BEDDING!

LEADERS of the Firemen's union have called a nationwide strike starting with four great railroads on April 26. These railroads are the New York Central, Pennsylvania, Santa Fe, and Southern.

The union claim that a second fireman is needed on grounds of safety is sheer hypocrisy. Safety has been dragged into this dispute only in an unsuccessful effort to give a cloak of respectability to vicious feather-bedding demands.

After a careful study of the first demands of this union, a Presidential Fact Finding Board on May 21, 1943, reported to President Roosevelt that there was no need for an extra fireman on diesel locomotives.

Again, on September 19, 1949, after a second hearing on the union leaders' demands, a second Board reported to President Truman that: "There presently exists no need for an additional fireman... upon either the ground of safety or that of efficiency and economy of operation."

Safety Record of Diesels is Outstandingly Good

Although the railroads accepted the Board findings, the union leaders have brazenly rejected them. They represent that an

extra fireman is needed for "safety" reasons. Here's what the Board had to say on that point:

"The safety and on-time performance of diesel electric locomotives operated under current rules have been notably good..."

"Upon careful analysis of the data submitted on safety, we have concluded that no valid reasons have been shown as a support for the Brotherhood proposal under which a fireman would be required to be at all times continuously in the cab of road diesels. The proposal must be rejected."

The real reason behind these demands is that the union leaders are trying to make jobs where there is no work. In other words, a plain case of "feather-bedding." The railroads have no intention of yielding to these wasteful make-work demands.

"The Safety Record of Diesels is Outstandingly Good..."

PRESIDENTIAL FACT FINDING BOARD REPORT

Read these excerpts from official reports of Presidential Fact Finding Boards:

"The safety record of Diesels is outstandingly good, and it follows that the safety rules now applicable have produced good results."

"The safety and on-time performance of Diesel-electric locomotives operated under current rules indicate that Diesel-electric operation has been safer than steam locomotive operation..."

Remember! These are not statements of the railroads. They are just a few of the many similar conclusions reached by President Truman's Fact Finding Board which spent months investigating the claims of the union leaders.

HOMEMAKERS STUDY BETTER MANAGEMENT

Hundreds of Kentucky homemakers have made their daily work easier the past year because of improved kitchens, planned storage space, better laundry equipment or agreement, use of electricity and better housekeeping methods generally. About 25,372 farm families adopted one or more suggestions as given in leaders training schools in 68 counties by Miss Ida Hagman and Miss Frances Stallard.

Improved kitchens numbered 6,645 and included rearrangement of equipment, remodeling, providing work, rest and planning centers, adding step saving ideas and improving the appearance of the room.

More than 10,000 homemakers said they had put into practice many improved housekeeping practices, such as the use of a lap table, using trays for carrying several articles, making plans of work and sitting while doing certain jobs.

Laundry facilities were improved in 2,229 farm homes through purchase of equipment and convenient arrangement.

Four thousand, six hundred and forty-nine homemakers were assisted with selection or use of electric lights or equipment.

Typical of the increased interest in convenient homes is Hart county, where 60 of 98 rural women reporting said they had running water in their kitchens. During the past four months, they remodeled 11 kitchens, rearranged 18 and provided 22 additional storage spaces. New equipment included 75 pieces for the kitchen, 17 for the laundry and 20 for general cleaning.

That farm women are realizing more fully the importance of management of home problems was indicated when 2,557 homemakers reported that they had improved their management of time, 1,030 kept home accounts and 749 did financial planning. More than 11,000 farm families were helped to do better buying.

RECIPE OF THE WEEK

For a tasty hot bread, Mrs. Pearl Haak, specialist in foods at the College of Agriculture and Home Economics, University of Kentucky, suggests combining whole wheat flour and cornmeal in a muffin recipe.

Whole Wheat-Cornmeal Muffins
1 Cup whole wheat flour, 1 cup cornmeal, 1 tablespoon sugar, 1 teaspoon salt, 1½ teaspoons baking powder, 1 egg, 1¼ cups sour milk, 3 tablespoons melted fat, 1 tablespoon water, ½ teaspoon soda.
(Sift flour and measure, then add all other dry ingredients except soda and resift. Make a well in the dry ingredients. Beat the egg until foamy. Add sour milk and melted fat, then add the soda combined with the water. Pour the liquid mixture into the dry ingredients and stir vigorously. When all the flour is dampened, fill greased muffin pans two-thirds full. Bake in hot oven, 425 degrees, about 20 minutes.
Menu: Baked ham, harvard beets, mustard greens, pineapple and cottage cheese salad, whole wheat cornmeal muffins, butter and baked custard.

CORN DERBY IN CROPS PROGRAM IN 75 COUNTIES

The corn derby is again to be a feature of the crops program of the College of Agriculture and Home Economics, University of Kentucky, in about 75 counties. Producers of 100 bushels an acre will receive certificates of achievement, with special recognition for high producers in the acre and five-acre divisions.

The corn derby has been a factor in increasing yields from an average of 24 bushels to 37 bushels an acre in 10 years, according to W. C. Johnstone of the college. Despite a reduction of around 600,000 acres, the total corn yield of the state has increased.

The corn derby, Johnstone pointed out, stresses growing corn on good land and the proper use of fertilizer. There now are laboratories in about half of the counties where farmers can have soil tested. Growing hybrid corn accounts for a large part of the increased yields.

US 13 and Ky. 103 are the best yellow corns and Ky. 203 is a consistent high-yielding white corn. Ky. 405B is a new white hybrid corn with a strong stalk available for planting this year. Another strong-stalk high-yield white corn which may be available next year is US 523W.

Johnstone said the derby had brought out that more stalks can be grown on good land—at least 10,000. Top land that holds moisture well may support 13,000 stalks. Donald Stout of Jefferson county, who won the five-acre division last year, had an average of 14,246 stalks an acre, and Milford Napier, winner of the acre division, had 25,929 stalks on an acre.

Ky. 41 A continues to be the leading tobacco grown in Anderson county, followed by Ky. 35 and Ky. 16 in equal amounts.

Sales of Ladino clover seed in Madison county this spring are expected to double those of a year ago.

COLLEGE DEVELOPS AN EXPANDABLE FARM HOUSE

A house plan for farm families has been designed by the College of Agriculture and Home Economics, University of Kentucky, in connection with a project in farm housing. The plan, which is called the "Kentucky Expandable House," may be expanded from a four-room, one-story house with or without basement to a six-room, one and a half story house with two bedrooms upstairs.

The overall dimensions of the house are 34 to 30 feet or 32 by 28 feet. The plan includes a living-room, combined kitchen and dining-room, two to four bedrooms, bath and work porch. If the family prefers a one-story house, provisions is made for adding one or two extra bedrooms on the ground floor.

Prof. J. B. Kelley, head of the

agricultural engineering section, said the house provides for all the requirements of good living on the farm, including ample sleeping quarters and adequate storage and work space.

Plans for this house may be ordered from the agricultural engineering section of the college at Lexington. Seventeen other farm house plans may also be ordered from the college.

Navy Helldivers, with a short-lived but brilliant aerial record behind them in World War II, have been retired from service. The new Skyraider supplants the Helldiver.

The USS Norton Sound is the Navy's experimental ship for guided missile tests.

Conservation farming makes use of both vegetation control and mechanical structures.

Walking, So You'll
Realize Just How Much
It Can Do For You

814-816 Madison, Covington
The normal heart, you know beats about seventy-two times a minute and pumps about six ounces of blood with each beat. Now, in fast walking, or at the rate of four miles an hour—which is how fast you should walk to do you some good—you'll find the normal heart will INCREASE its beat ten times to the minute, pumping six ounces of blood at each beat, gives sixty ounces per minute or 3600 an hour, which is 225 pounds. You can easily see that 225 ADDITIONAL pounds of blood pumped DAILY through your veins means just that much more life to your whole body.

There's no use of my telling you to get out and walk if you are having trouble with your feet, because I know you won't do it. BUT—If I tell you how to get rid of those aching, painful feet, first—then there's nothing to keep you from walking every day and benefiting your health by this wonderful exercise.

It has also been found that millions suffer without knowing the reason why—those headaches, those leg pains, and even sleepless nights may be caused by the shoes you are wearing—Adv.

The Farm Demonstration Association in Christian county reported \$33,925 spent last year for ammonium nitrate and triple superphosphate.

W. B. Collins, farm agent in Mason county, says Kentucky 31 fescue furnished pasture every day last winter.

Don't go through another summer with a refrigerator that's too small. Trade it on a new ELECTRIC and have more space for everything.

Most 1950 ELECTRIC refrigerators provide up to one-third more storage space in the same or less floor space than models of just a few years ago. Some are cold clear to the floor.

And, of course, being ELECTRIC, they give you ample reserve power for the hottest summer weather plus low cost of operation that's measured in pennies per day.

Super Highway Petitions Sent Governor Clements

Urges Construction of Highway From Covington To Florence.

A petition asking construction of the superhighway from Covington to the intersection at Florence of U. S. 25 and 42 was sent to Gov. Earle C. Clements and State Highway Commissioner John Keck by the Highway Development Committee of the Erlanger-Elmwood-Florence branch of the Kenton County Chamber of Commerce.

The petition sent Gov. Clements and Highway Commissioner Keck follows:

"In regard to the superhighway from Covington to Florence, here are attached petitions with 166 names of citizens of Erlanger, Elmwood, Florence and Ft. Mitchell, evidencing their support of you and the Highway Commission in selecting and erecting a super highway from Covington to the intersection of U. S. 25 and U. S. 42 at Florence.

"These citizens and many others whom we have not had time to contact urge you to act to bring this road under construction, because the need is so manifest.

"We have no suggestions as to location of the road, this, we trust to you and your very capable Highway Department personnel. We know that whatever location you choose will be chosen in the best interest of all concerned and will thereby serve and preserve the property rights and needs of the area.

"You can be assured that in this you will have the support of the overwhelming majority of the people and all organizations promoting the best interests of Kentucky.

"Northern Kentucky is truly the gateway to the south, through which many thousands of visitors pass on down into central Kentucky, the garden spot of the world. There is definitely a bottleneck at this gateway giving a bad impression to those entering through the state and leaving them confused, frustrated and incensed as they wind up their way back through the maze of traffic on returning to the better accommodations of the north and east.

"The signers of this petition, by their signatures, attest to you and Mr. Keck that they are back of you 100 per cent in whatever route you choose, but want it definitely understood that time is of the essence, since the future of this widely expanding territory is dependent upon this superhighway."

Campbell County and Walton Nines Are Winners.

The Burlington Eagles were defeated in both of their baseball games last week. Campbell County, winners of the NKAC last season, eked out a 5-4 hard fought game at Cold Springs last Tuesday and Walton defeated the locals 6-2 in the loser's park Friday afternoon.

In the Campbell County-Eagle game Ray Deck, Burlington twirler, pitched a four-hit game and fanned nine but two costly errors in the final inning cost him a win. The Eagles had seven hits off Webster and his relief, Jim Ryle led the Burlington offensive with a triple and two singles in three trips.

Walton, behind the five-hit pitching of Cheesman was too much for the Eagles although Bill Cave, Burlington pitcher, did a creditable job as he held the winners to eight hits and fanned seven. Ryle led the Burlington offense with a triple and two singles in three trips.

The Eagles will play host to Gallatin County Wednesday afternoon of this week and will play the Wildcats at Warsaw next Friday.

Saturday League Season Opens In Boone County May 6

Six Teams Will Battle For First Blood In County League.

Opening day of the season for the Boone County Saturday Afternoon League will be this Saturday, May 6th with the following schedule: Burlington at Bellevue, Big Bone at Hebron and San Run vs. Florence at Burlington.

Not too much is known about the strength of the various teams in the league, but all managers seem confident that the league will be much stronger than last season. Burlington and Bellevue tangled in a pre-league practice tilt last Saturday and both teams showed signs of being greatly improved.

Manager Al Seebie and sponsor Sam Ryle of the Burlington team appear to have a well-balanced team composed of a mixture of veterans and youngsters. Some of the players already signed by the local outfit are Charles Benson, Pip Clure, D. Deck, Floyd McArthur, Jim Ryle, Bill McBee, Jimmy Smith, James Guiley, and Seebie.

Dale Williamson, manager of Big Bone, also will be loaded with a combination of seasoned veterans and youngsters with plenty of promise. Roy Brooks of Florence has promised a much improved Florence team this season with the addition of a number of new faces. Other managers seem equally as optimistic, so there is plenty of reason to expect a good season of baseball for county fans.

All team managers have been requested to phone results of games to Burlington 782 before six o'clock on game days. Managers are also requested to send team roster to league secretary prior to opening game.

Frank Lee Dils Makes Formal Bow To Boone Voters

Seeks Office Of Congressman From Fifth District.

Frank Lee Dils, makes his formal bow to the voters of Boone County, in this issue of The Recorder, announced his candidacy for Representative to the United States Congress for the Fifth District of Kentucky.

In making his announcement Mr. Dils issues the following statement:

"In announcing my candidacy as a Democrat for Representative to the United States Congress for the Fifth District of Kentucky, I wish to state this is my first political aspiration. I am a firm believer of the Jeffersonian Democracy in which the ideal of a popular government was based upon faith in the political wisdom of the common people, who could be relied upon to choose those of ability to vote for them.

"God fearing men and women have turned to the Democratic Party for their protection of human rights.

"The protection of human liberty and freedom must be maintained by our Congress with a constant vigilance, lest these great principles shall perish. I am opposed to any hasty or reform legislation that becomes too liberal and too extreme. The doom of Democracy is not at hand. You and I, the average man and woman of today, are the witnesses of American ideal of government by the people, and for the people, as maintained by the long line of our great statesmen.

"Armed with the utmost confidence in my own ability to cope with the perplexing problems of today, I offer my services to the people of the Fifth District of Kentucky to represent them in Congress. I shall be an active Congressman and ever alert for your needs or to lessen your burdens.

"I received my Bachelor of Commercial Science Degree in 1925, and Bachelor of Law in 1937 from the Y. M. C. A. College of Law, Cincinnati, Ohio. Was admitted to practice in 1936 and to practice before the United States Supreme Court in 1939. In addition to my active law practice, I have been Secretary and Treasurer of the Dixie Wholesale Grocery of Covington, since 1932. I have owned and operated the "Dilest Farm" on Louisville Highway, at Florence, Boone County since 1940. My various activities have brought me in constant contact with problems of the farmers, laborers and business men, and to serve you as your Representative when elected. I propose a system of visits to each County seat of the nine Counties for the purpose of meeting you personally and to exchange ideas.

"I have been married twenty-five years to the former Miss Della Bentley and have one daughter Gloria Lee, a commercial artist."

Commercial Minnow Seining Is Illegal; Effective May 1st

Seining of minnows from Kentucky streams for commercial use is illegal, Earl Wallace, Director of the Division of Game and Fish announced, following the filing with the Secretary of State of an emergency regulation to that effect. The new act became law May 1, 1950.

Mr. Wallace points out that studies of stream and minnow conditions in the state have revealed that the streams are rapidly being depleted of various species of minnows by commercial dealers and that depletion of these minnows will cause a crisis, since other types of fish in these streams depend on minnows for their food supplies.

Mr. Wallace emphasized that the regulation does not mean that a resident of the state cannot seine minnows from these streams for his individual use. Only the seining of minnows for commercial use is barred, the Director declared.

The regulation does not apply to the taking of shad minnows from Herrington Lake, Dale Hollow, Kentucky Lake and all streams under lock and dam, but not above the last lock and dam up any stream, Mr. Wallace stated.

**JOHN DEERE
MODEL "M"**

The John Deere Model "M" is a tractor that invites comparison. In usable power, in ease of handling and control for the operator, in day-in, day-out economy, in ease of servicing, it offers you extra value.

In the Model "M" you'll find all the fundamental features which have made John Deere 2-cylinder Tractors so successful down through the years—simple, rugged design, proper weight distribution, extra lugging power, and others. Built-in Touch-a-matic hydraulic control, self starter, adjustable air-cushioned seat, adjustable steering wheel, and standing platform are regular features.

A wide variety of Quik-Tatch working tools, four forward speeds, and power take-off are other "M" features you'll appreciate. Plan to see the "M" at work soon; see us for a demonstration.

BURLINGTON HOMEMAKERS

Mrs. Joe Walton of Elsmere entertained the Burlington Homemakers in April. Eleven members and one visitor enjoyed a delightful meeting in her cozy home.

At the regular meeting, business was dispensed with in the morning. The dates of the County Fair were announced as August 11 and 12th.

The County Health program was discussed and approved. Another item of importance was the donation of \$5.00 to the Cancer Fund.

The meeting adjourned for lunch. The handiwork and the efforts of the leaders were a delight both to look at and taste. Mrs. Alice White having prepared the party sandwiches and cookies before the meeting. After lunch she gave the lesson on same.

Telling by each of "her most embarrassing situation" was a cause for much fun.

The meeting was then adjourned. Next meeting will be first Thursday in May.

There are others that are New, but none so truly Modern!

Before buying a refrigerator, make sure it passes these 4 tests

1 The housekeeping test: Will your new refrigerator burden you with the nuisance of weekly defrosting? Not if it's an Admiral Dual-Temp. Admiral's exclusive moistrol automatically evaporates excess moisture. Foods don't dry out. Flavors don't mingle.

3 The fresh food test: Will fresh foods dry out and lose flavor? Not if you choose the Admiral Dual-Temp where fruits, meats and vegetables thrive in the cool, dewy atmosphere. The Sterilamp helps kill "ice box" odors and retard mold growth.

Admiral Dual-Temp passes with a PERFECT SCORE!

The new Dual-Temp has features others haven't. It does things others can't. Come in—and see for yourself.

WORD OF APPRECIATION

We wish to take this opportunity to thank our customers for their patience and consideration during the coal emergency this past winter. We did our best to keep you in coal, although the supply was very limited.

Our new shipment of lump coal will arrive this month, and it is one of the best grades of coal mined today. We know you will enjoy burning it as it has lots of heat and runs very low in ash.

We also will have a very good grade of oil-treated stoker coal.

So let us lay your coal in early. You will save money and be safe.

earth-gripping
traction

Extra traction
when you need it... auto-
matically. That is how the Model
WD's hydraulic Traction Booster
increases the pulling power of the
tractor.

The 4-cylinder hydraulic pump
automatically shifts weight to the
rear wheels as the load increases.
The WD's quick-mounted plow,
with two 16-inch bottoms at your
control, bites deep and stays deep.
The Traction Booster also works
with other rear-mounted imple-
ments.

And here are additional WD ad-
vantages. Adjusts its own rear
wheel spacing with engine power.
Has new two-clutch system to con-
trol power take-off driven
machines independent of
forward travel.

PAYLOAD LEADERS

Cost less to operate per ton per mile!

Right from the start, you can figure on more payloads
because Chevrolet trucks take less time on the job...
cost less to keep up. They reduce total trip time with
extra high pulling power over a wide range of usable
road speeds. Advance-Design construction saves you
money on repairs. It all boils down to this: You can
depend on Chevrolet trucks to deliver the goods at
low cost per ton per mile. Stop in and see these new P.L.
trucks now on display.

Burlington Girl Making Outstanding Record In Baseball

Recently Hurling Five-Hit Game Against Hollywood Team In Burbank, Calif.

The sports pages last week headlined that Pat Scott hurled a 3 to 1, five-hit victory, for the Covington Belles girls' softball team over the Hollywood Honeys in Burbank, Calif.

In sports circles her feat came as a bit of a surprise. After all, a 20-year-old newcomer to big-time girls baseball defeating such a highly regarded outfit as the Hollywood team isn't a thing which happens every day.

But the news was no surprise to Burlington residents, who have watched young Miss Scott develop into a top-notch all-around athlete. And many of the localities are planning to head for Covington over the week-end when Pat and her teammates play a three-game series at Covington Ball Park against the Atlanta Loreles. The games on Saturday, Sunday and Monday nights will start at 8 p. m.

Pat, who is a graduate of St. Henry High School, Erlanger, and has been working as a secretary in the Extension Department of the Boone County Extension Office, can play virtually any position, but it is on the mound and at the plate where she really stars.

As a hardball pitcher for Burlington in the Boone County League for two years, she compiled a won and lost record of 45 victories against only two defeats, while pitching the ball at a .480 clip. Needless to say, she won the Most Valuable Player Award.

Before joining the Belles, who have been on a road trip through the West playing games in Phoenix, Burbank, Hollywood and Oklahoma City, Pat starred for the Springfield, Ill., Sallies and the Emmert Grains in Cincinnati.

Baseball is her first love and at the rate she is going she undoubtedly will be one of the country's top players within a year or two, but she also finds enjoyment in other sports such as riding, basketball, tennis, volleyball and hunting.

And with a list of activities like that, you can't argue that Pat really is an "All American Girl."

Understanding the meaning of the Poppy and the uses of the poppy funds, can any of us be deaf to the appeal of Poppy Day? Can any of us fail to greet the Auxiliary poppy worker with a welcome smile, fall to put on the poppy of remembrance for the dead and show that we remember the living by contributing as liberally as our means will permit?

Second Poppy Day Sale Will Be Held Saturday, May 27

According To American Legion Auxiliary Boone Unit No. 4.

On May 27, the Saturday before Memorial Day, the American Legion Auxiliary Boone Unit No. 4 will hold their second Poppy Day sale in Boone County. Mrs. Harry Johnson, president, has announced that members of the Auxiliary will be in various communities of the County selling the little red poppies. School children will aid this worthy cause by helping to make the house to house canvass on that day. Also there will be posters calling your attention to Poppy Day in many places of business throughout the County.

This is the one time of the year that the men and women of the American Legion and American Legion Auxiliary ask the public to contribute generously to help the disabled veterans in the many government hospitals. The money which is dropped into the coin boxes in exchange for the poppies goes entirely to welfare activities of the American Legion and American Legion Auxiliary, supporting the work which these two great service organizations do for the disabled veterans, the families of the disabled, and families left in need by death of veterans. Every penny is made to serve because of the close understanding and sympathy existing between the Legion and Auxiliary men and women and those whom they are aiding.

The disabled veterans who make the poppies derive double benefit from the work: It gives them employment, their only chance to help support themselves and families. With strength and health gone they cannot do regular work, but they can make poppies. Even in their hospital beds they can do this work, earning money for each flower made. The work is of real value in aiding their recovery, occupying hands and minds, breaking the tedium of long idleness, and restoring spirits crushed by hopelessness.

The women who distribute the poppies, unlike the disabled veterans who make them, receive nothing for their efforts—nothing tangible, that is, only the satisfaction of having helped brighten the memory of the dead and of having contributed to the welfare of the living.

The poppy comes to us from the fields of France and Belgium where the destruction of war obliterated all touches of beauty except its brave red blooms. It comes to us from the shell-battered battle areas and from among the wooden crosses of war cemeteries. There it was nature's tribute to our heroic dead and here in America it is our tribute to those who made the highest sacrifice in two wars and all over the world.

Understanding the meaning of the Poppy and the uses of the poppy funds, can any of us be deaf to the appeal of Poppy Day? Can any of us fail to greet the Auxiliary poppy worker with a welcome smile, fall to put on the poppy of remembrance for the dead and show that we remember the living by contributing as liberally as our means will permit?

In remembrance of America's heroic dead and in helpfulness to her living disabled and dependents —WEAR A POPPY May 27th.

Horton-Setters

At 3:30 p. m. Saturday afternoon, May 6th, a very simple, but impressive wedding took place in the newly decorated Belview Baptist Church, when Miss Sue Kathryn Horton, daughter of Mr. and Mrs. Walter Horton, of Burlington, and Mr. Benjamin Lee Setters, son of Mr. and Mrs. Ben D. Setters, of Idelwild, Ky., were united in marriage.

The bride was lovely in a blue taffeta and chiffon dress with white accessories and a corsage of white orchids. Her only attendant was Miss Marilyn Reinhart, who wore a pink taffeta and chiffon dress with white accessories and a corsage of pink orchids. The groom and his attendant, Bobby Shinkle, wore identical grey suits with maroon bow ties and white carnation boutonnieres.

Mrs. Betty McNeely sang "Always" and Mrs. Zora Scott played a piano solo "Because."

After the ceremony, the couple, their friends, and the immediate families returned to the home of the bride's parents, where a lovely bridal supper was waiting for them. At a late hour the newlyweds departed for a brief honeymoon.

The happy young couple will be at home to their many friends at Hebron, Ky.

Prominent Boone Farmer Killed in Automobile Accident On U. S. 42 Friday Morning

EXCERPTS FROM REV. PATTON'S SERMON AT HILL SERVICES SUNDAY

The following are excerpts from the sermon of Rev. E. L. Patton at services of William Hill held Sunday at Bullittsburg Baptist Church: "Our dearly beloved brother, William Hill, a deacon, church clerk, of Bullittsburg Baptist Church who served his Lord in faithful attendance, consistent giving and noble living for the last six years.

"At his death he was chairman of the Building Committee, a group leading the church in building the first pastorial of the Church's 115 years' existence (history).

"Mr. Hill was an example of what a progressive Godly farmer can do for the Lord when consecrated to Christian living and noble giving.

"In and around Idelwild and Boone County are many good honest men and women who do not know the joy of Mr. Hill's life—the difference in these good men and this Godly man is an eternal home in heaven, or an eternal home in hell. His constant prayer was that they too might know the delight of being a child of God and heir of an eternal home. His testimony daily was that not only his near relatives, but friends who were many, might seek, find and live for his friend and Lord Jesus."—Rev. E. L. Patton.

Four Boone Teams Chalk Up Victories In KAG Games Sun.

Eddie Deck Tosses Shutout; Jack Gaving Has Two-Hit Record.

Boone County Baseball teams and fans had plenty to be "cheery" about after last Sunday's games in the KAG League. All four of the Boone teams represented in the 13-team league won in the third round of games. Bob and Gene won their third, without a loss, by defeating Charlie's Cafe 4-2 at the Burlington park; Verona shutout Aetna Oil four to nothing at Glencoe; Constance trimmed Falmouth 5-1 at the loser's park, and Boone VFW shellacked the Highway Merchants nine to nothing at Belview.

Boone Pitchers Star

Boone pitchers were the big reasons for the four wins. Ray Mignerey, one of the Bob and Gene aces, gave the Charlie's outfit seven scattered hits, fanned seven and walked one. Hoffer and Baute were the offensive power behind Mignerey's twirling. Hoffer had a home run and single and Baute had a double and single.

Bill Mumm, after a slow start in early games, found the range as he horse-collared the Aetna team with five hits. Verona played superb defensive ball to back up Mumm's brilliant effort.

Eddie Deck tossed a shutout for the Boone VFW team at Belview against Highway. He gave only three hits, fanned a half dozen and walked three. Bob Dennison welded the big bat for the Veterans as he hit three home runs and walked one. Hoffer and Baute were the offensive power behind Mignerey's twirling. Hoffer had a home run and single and Baute had a double and single.

Five Others Are Injured When Three Cars And Truck Collide.

William Hill, 43, prominent Boone county farmer was killed and five other persons were injured Friday, in a crash involving three autos and a milk truck on Highway 42, near Mudlick Creek.

Those injured were Mrs. Mary Hill, wife of the dead man, who suffered a pelvic fracture, bruises and lacerations; Mrs. William Holladay, pelvic fracture and bruises; William Holladay, fractured leg and bruises; and Mrs. Grace Pfalzgraf, slight concussion and bruises; Eugene C. Stephens, 23 driver of the milk truck and William Loehr, Alexandria Pike, Campbell County, also were injured. They were removed to Booth Hospital, Covington for treatment.

State Police reported that Loehr's auto was west bound on U. S. 42 and apparently attempted to pass two other auto and a truck proceeding in the same direction.

A milk truck approaching from the opposite direction caused Loehr to fall in his attempt to pass the west bound traffic. The milk truck collided with Loehr's car knocking the wheels from under the truck. The truck sideswiped a car driven by Doc Black and then plunged head-on into the car of the Hill party.

Those in the Black and Hill cars were enroute to Louisville for graduation exercises of the Baptist Seminary there, where Rev. E. L. Patton pastor of Bullittsburg Baptist Church was a graduate.

Those in the Black car escaped injury, according to reports.

Mr. Hill was an active worker in the current fund drive for Booth Memorial Hospital, Covington. He was active in church affairs, being a deacon of the Bullittsburg Baptist Church, and also took active part in farm organizations. His farm on the Idelwild pike is regarded by many as a model farm for modern agriculture methods.

He is survived by his widow, Mrs. Elizabeth Hill; a son Billy Hill and a daughter, Beverly Hill, both at home; four brothers, Raymond Hill, Burlington; Ernest Hill, Hebron, and Orville and James Hill, both of Cincinnati, and a sister, Mrs. Ralph Steele, Cincinnati.

Funeral services were held at 2:30 p. m. Sunday at the Bullittsburg Baptist Church, with Rev. E. L. Patton, Rev. R. A. Johnson and Rev. Otto Pierson officiating. Burial was in Petersburg Cemetery.

Chambers and Grubbs, Florence funeral directors were in charge of arrangements.

Home Repair In County Expected To Reach Large Sum

Total Is Estimated At \$153,000 During This Year.

Boone County home owners will spend an estimated \$153,000 on repair and modernization of non-farm dwellings during 1950, according to estimates just released by the Title Council of America.

"Lower wholesale prices for building products and growing stress on the use of quality materials should greatly benefit Kentucky home owners planning repairs this year," declared A. T. Wintersgill, chairman of the Council's residential construction committee.

Approximately two of every five homes in this region will be re-decorated, either inside or out, during the year, the report showed. Roofs will be repaired or replaced on one of every six, and six of every 100 are due for carpentry work.

Seven of every 100 homes will have plumbing repaired, bathrooms tiled or showers installed, the report said. Miscellaneous interior repairs will be made in six of every 100 dwellings.

Home repairs will be easier on the 1950 family budget because of a decline of more than five per cent in wholesale costs of building materials, in comparison with prices at the beginning of 1949, the report said. Home owners also will be able to insist on such quality materials as clay tile for repair work, as a result of the present buyers' market, it pointed out.

Expenditures throughout the United States for home repair and modernization this year will total \$2,350,000,000 to \$2,900,000,000 the report estimated.

Fireworks Law Explained By State Marshal W. L. Martin

Duty of Enforcing Law Is Placed Upon Local Officials.

Explanation of the Beatty Fireworks Law, which becomes effective June 15, and suggestions for administering it were sent last week by State Fire Marshal W. L. Martin to all county judges, fire chiefs, and mayors of those communities lacking a fire chief.

Pointing out that the General Assembly has placed the duty of enforcing the law upon local officials, the state official declared the effectiveness of this measure will depend upon proper local administration. He offered his suggestions to assist local officials in an understanding of the law and to try to make its enforcement as uniform as possible.

At the outset, Martin warned against "bootlegging" of fireworks which may be attempted by vendors obtaining fireworks from other states where the sale of fireworks is permitted. He requested that all cases of such bootlegging uncovered be reported to his office.

The state official's memorandum included a copy of the law and a detailed analysis of its various provisions, particularly that pertaining to supervised public displays. Forms for permit application and for permits issued in connection with the displays were included in the instructions.

The fireworks bill, signed March 17 by Governor Clements after similar bills failed of passage at the last two previous regular sessions of the Legislature, forbids the sale or use of fireworks but provides for supervised public displays for which written permit must be obtained from local officials and adequate bond posted.

In dealing with safety precautions at public displays Martin expressed the opinion that where the attendance of a large crowd was expected a bond with limits of \$10,000 for bodily injury plus \$5,000 for property damage would be "a minimum." The minimum amount under the law is \$500. Application for permits must be made in writing at least fifteen days in advance of the day of the display. Several inquiries from would-be applicants have already been received at his office, Martin said.

STORRS REMUS A SUPERIOR SIRE

The registered Jersey bull, Storrs Remus, owned by the Kentucky Artificial Breeding Association has just recently been announced by the American Jersey Cattle Club as having qualified as a Superior Sire.

He qualifies by having 28 tested daughters that average 8,434 pounds of milk, 457 pounds of butterfat and 26 classified daughters averaging 82.5%.

Remus was bred by the University of Connecticut and was one of the first seven star bulls of the breed. This indicates what an outstanding pedigree he has.

Remus was developed and proven by the University of Kentucky and sold to the Kentucky Artificial Association.

Remus has been bred artificially to over 5,000 cows.

Lucian Bradford, President.

Young People's Department Formed By Farm Bureau

Youth Between Ages Of 18 and 28 Are Eligible To Participate.

Young farm folks now have a department in the Kentucky Farm Bureau Federation. This "in-between" group of young people of ages from 18 to 28 have finished their 4-H Club work and Future Farmer work but still feel they should have a group of their own age with whom to work on farm programs, problems, etc.

The Young People's Department of the Farm Bureau in Kentucky now has an organization set up in which young people from Kentucky's 110 Farm Bureau counties can participate in their own recreation, and community service.

The state program for these young farm folks is based on the activities that have been carried on under the direction of the American Farm Bureau Federation Rural Youth Committees for the past four years.

What is the purpose of young people having their own department in Farm Bureau? According to the Rural Youth Department of the American Farm Bureau Federation, the purposes of Rural Youth work are:

1. To promote a more wholesome life and higher standard of living among rural people.
2. To develop a fuller appreciation of farming as a way of life and create a better understanding between rural and urban people.
3. To prepare young people for active participation in Farm Bureau.
4. To develop leadership by providing leadership training activities such as the talk meet and county, district, state, regional, and national rural youth meetings, etc.
5. To cooperate with programs of the Agricultural Extension Service and Vocational Agriculture Department.
6. To provide opportunity for study and discussion of Broad Economic and social issues as they pertain to agriculture.
7. To provide opportunity for the fullest possible self-expression and individual development of rural young people.
8. To establish Rural Youth in Farm Bureau organization policy.

Although Rural Youth work in Kentucky is comparatively new, it is getting off to a fine start. An extensive program already under way down in Union County where sons and daughters of Farm Bureau families have worked together in improving community activities and rural living. They have had such campaigns as safe driving schools and conducted discussions on improved farm production and techniques. Such social activities as square dances, picnics, and other gatherings have been conducted by the group. Last year at the Kentucky Farm Bureau Convention in Louisville, this group gave a square dance demonstration, and previously, at the Kentucky State Fair, they gave an unusual exhibition of square dancing while mounted on horses.

Many other counties now have plans under way to establish a Young People's Department. It goes without saying that in training and developing these young folks, the Farm Bureau will profit in the future with better trained Farm Bureau-minded farm leaders. Most of Farm Bureau's programs are based on the future of agriculture, and certainly our young folks should be considered in planning for the agriculture of tomorrow.

SEILER'S SERVICE SATISFIES

There are three reasons why one out of every three trucks on the road today is a Chevrolet.

- 1st—These trucks are cheaper initial cost.
- 2nd—Chevrolets are lowest in cost of operation.
- 3rd—Chevrolet has a larger resale value.

Owing to our large inventory we can make immediate delivery on new trucks with a small down payment, 24 months on the balance, cheaper than bank rates.

FED CATTLE HAY ONLY THREE DAYS

On three days when sleet covered the grass, 50 cattle owned by Hughes Goodman of Breckinridge county were fed hay. The other 362 days in the year they ate fescue and Ladino clover. The cattle wintered well, County Agent Kenneth A. Brabent said. The mild winter plus the fact that the ground had been heavily fertilized produced a heavy growth on the 175 acres of the fescue and clover.

BULLITTSVILLE HOMEMAKERS

One must know and be able to identify trees common to his neighborhood to appreciate them. Many interesting responses to roll call on known trees proved the fact that most farm women are familiar with the identification of many trees, at the April meeting of Bullittsville Homemakers in the home of Mrs. Ray Hill, Limaburg Road.

The finishing lesson in a series of meal planning was given by Mrs. Ray Hill. These lessons have been much appreciated by the group and many thanks are due the leaders who prepared the food for the lessons.

Miss Nancy McClaskey, H. D. A. requested that reservations for luncheon tickets for the annual meeting in Dry Ridge on Wednesday, May 3 be turned in to her. Mrs. Thomas McCrann reported on finances and on the Advisory Council. Projects for the coming year were discussed.

Plans were made for an etching class next month in the home of Mrs. Sam Roberts.

The club voted to send \$3 to a

Leper Colony and \$3 to the cancer fund.

Those attending were the following: Mesdames Wm. Jones, Nick Mikkelsen, A. Willis, Lee Marshall, B. Roberts, R. Grant, Jr., R. Grant, Sr., C. Grant, N. Lucas, H. Slekmann, A. B. Nichols, T. McCrann, E. Souther, H. Aylor, A. Pfalzgraf, and Miss Nancy McClaskey.

FIELD REPRESENTATIVE OF SOCIAL SECURITY TO BE AT ERLANGER MAY 18

On May 18, Edward J. Bolter, field representative of the Social Security Administration, will be at the Erlanger Post Office from 10:00 a. m. to 11:00 a. m. All persons interested in the old-age and survivors insurance program, or applicants for social security cards should consult this representative.

Each worker upon reaching age 65 should call at the nearest office of the Social Security Administration to determine his status under this program. When a worker dies his survivors should get in touch with the social security office for assistance in filing claim for death benefits.

BOOK CLUB MEETING HELD

The May meeting of the Boone County Book Club was held recently by Mrs. Vernis Williams, Burlington, Ky.

Mrs. Stanley Ransom reviewed "God Had Seven Days" by Henry Mirock, which was enjoyed by all. Members and guests attending were: Miss Nancy McClaskey, Mesdames Roy Lutes, Albert Pfalzgraf, H. Conner, R. C. Garrison, Noel Walton, Joe Hogan, Stanley Ransom, Lee G. Marshall, A. B. Nichols, Albert Rogers, H. C. Steward, M. Chambers, Vernis Williams, Joe Northcutt, John Kyle, F. Berkshire and Thos. McCrann.

The June meeting will be with Mrs. Wm. Davis, Florence.

Seriously eroded, steep or poor soils should be kept in permanent grass or trees.

CARD OF THANKS

We want to thank each and everyone of our many friends neighbors and relatives for their cards, flowers and visits during the ten-weeks illness of our beloved husband and father,

Constance Upsets League Leaders 4-2 In Sunday Game

Bellevue Trounces Falmouth Nine; Verona Suffers Defeat.

Boone County's four representatives in the KAG Semipro League split in games last Sunday with one of the teams figuring in an upset win over the league leaders. The upset game was Constance's 4-2 victory over Bob and Gene at Burlington. In other games featuring Boone teams Boone VFW trimmed Falmouth 15 to 2 and Ghent trounced Verona 13 to 2.

In the Bob and Gene-Constance game poor base running and errors by the losers and good pitching by Graving of the winners accounted for the Constance win. Jack Sahanger started for Bob and Gene and was relieved by Ray Mignerey in the seventh inning. The two gave up only six hits as did Graving for the winners. Gillette was the offensive power for Constance.

Boone VFW had 17 hits for 15 runs as they ran wild over Falmouth at Bellevue. Holmes of the winners had two triples and two singles to lead their onslaught which included seven tallies in the opening inning.

Verona, runners-up in league play last year, had another early season bad game as they lost to Ghent 13-2 at Verona. Check and Mike Ryan did most of the Verona hurling with relief from Bill Mumm. Louderback was the winner for Ghent.

Other league scores were: Newport Stealers 6, Bavaria 2; Hudephol 10, Highway 6 and Grants Lick 6, Charlie's 3.

New York Tech vs. Bob and Gene (at Burlington).

Boone County fans will be treated to three home games in the KAG League this Sunday. The Constance-Verona contest will provide plenty of natural rivalry and another good game is in the making at Bellevue when the revived Ghent nine takes on Boone VFW. Highlight of the play, however, will be an exhibition game between the New York Tech (colored team) and Bob and Gene at the Burlington park. The Tech team possesses one of the strongest semi-pro outfits in the nation, according to reports.

Sand Run Thumps Burlington; Hebron Trims Florence Sat.

Eleven Errors Chalked Up Against Burlington; Sand Run Has Nine.

The Burlington baseball club in the Boone County Saturday Afternoon League has the dubious distinction of one early season record. They committed 11 errors in their 19-3 loss to George Stahl's Sand Run nine Saturday at the local park. Sand Run's 20 hits plus Burlington's varied assortment of errors was good for 19 runs. The contest besides being amusing to the crowd was good throwing exercise for Burlington pitchers and extra good leg exercise for Sand Run batters. Judy and Bloebaum pitched for the winners with Joe and Jimmy Smith toiling for Burlington.

Hebron, behind the six-hit pitching of Gillette, trimmed Florence by a 12-7 count at the Hebron park in a game originally scheduled at the loser's grounds. Both teams were guilty of several costly miscues. Stansel and Roland pitched for Florence. Hogan caught for Hebron with Cahill behind the bat for the losers. Peeno of Hebron had five hits in six trips, including three doubles.

In the other league game Big Bone thumped Bellevue nine to one at Bellevue.

Walton Youth Receives Wall Street Journal Achievement Award

Stanley L. McElroy, son of Mrs. Hazel McElroy of Walton, a senior in the University of Kentucky College of Commerce, has been named winner of the Wall Street Journal's annual student achievement award. The award, a specially designed silver medal, was presented to McElroy last week by Dr. C. C. Carpenter, dean of the College of Commerce. The local student was selected for the honor by a faculty committee on the basis of his scholastic standing.

A graduate of Walton-Verona High School, McElroy was recently elected to membership in Phi Beta Kappa, the nation's leading scholastic honorary society. He is also a member of Beta Gamma Sigma and Phi Eta Sigma honorary societies.

Poppy Day Will Be Observed Here Saturday, May 27

All People In Boone County Will Be Asked To Wear A Poppy.

Where the poppies grow and flourish the dust becomes hallowed and the ashes sacred. Warriors and heroes alike have fallen in battles throughout the ages, but until the Flanders' Poppy marked their resting place, there was no living symbol to be a reminder of the supreme sacrifice for right and country.

On the Saturday before Memorial Day, May 27 all the people of Boone County will be asked by the American Legion Auxiliary to wear a poppy in remembrance of those men who gave their lives so that we might live.

The crepe paper poppy you wear over your heart this day may be ill-fashioned and unsightly made. Treasure it more because it was made by a disabled veteran from materials furnished by the Auxiliary and each finished poppy will carry its banner, stating that it's sale is under the auspices of the American Legion Auxiliary.

This work of making the poppies is one of the most interesting activities that veterans in government hospitals have throughout the long, bleak year—it gives them a sense of creation and usefulness, and not only does it give him something to do, but it pays him for his labor as well; yes, for every poppy. The funds derived from this sale constitute the largest source of revenue of the Rehabilitation and Welfare work of the Legion and Auxiliary and the proceeds from this sale are pledged 100% to welfare for service men and women and their families, thus fulfilling the true meaning of the poppy: an emblem of faith, faith which is being kept with all those who died, through service to the living.

When you buy your poppy Saturday, May 27, think of the disabled veteran in a hospital who has made the little blood-red flower. Think of the fatherless family whose struggles during the coming year will be lightened by the coin you drop into the poppy worker's box. Think of the brave American boys who lie beneath the waving poppies of France, some island of the Pacific, or those who already have been returned to this country for burial—yes, here in Boone County, too. Think of these things and you will understand the true significance of the poppy. Are we so engrossed in the problems of today that we forget the past? Let the little red flower of remembrance be our reminder!

Burlington Seniors Will Sponsor Movie

The Seniors of Burlington High School will sponsor the picture "Two Thoroughbreds," Friday, May 19th at the Burlington High School gym, 8:00 p. m.

No admission is being charged but donations will be received at the door. All donations received will be used toward financing a senior trip.

The love of an abused and ill-treated orphan boy for a thoroughbred colt he has found, forms the simple but highly dramatic theme of this motion picture. How the animal becomes the biggest thing in the boy's life, his discovery that the colt was stolen and that he has no right to it, and his silent battle with his own self-respect and his honesty when the colt's life is endangered, all make for an unusual heart-warming film. Woven through the story is the youthful romance between the boy and the daughter of a wealthy ranch. Simplicity is the keynote of this story and its manner of telling on the screen.

'MOTHERS TO BE' NEED HADACOL

To help bear strong, healthy babies

Expectant mothers may not be aware of it, but they oftentimes have a deficiency of the great health-building elements of the HADACOL formula—which are so necessary if they want to help bear strong, healthy babies. So give your children the right start—take miracle-working HADACOL all through the waiting months. HADACOL supplies deficient systems with extra quantities of the B complex vitamins for which the daily needs have been established—extra iron and helpful amounts of precious calcium and phosphorus. HADACOL helps relieve morning sickness, upset stomachs, heartburn, constipation and a general run-down condition when (as so often) these symptoms are due to deficiencies.

HADACOL helps increase the hemoglobin content of the red blood cells (where there's lack of iron). These in turn carry these wonder-working vitamins and minerals to every organ in your body—even to the eyes, teeth, nails and hair. It helps nourish every cell and body tissue—bringing new strength and energy which you need at this time. Buy HADACOL today! You owe it to yourself, your family and the "little one" coming. Trial size only \$1.25 a bottle. Large family or hospital size, \$3.50.

The FBI's Confidential Files

The question of whether or not the confidential files of the FBI should be opened, in order to affirm or refute current charges that certain men high in the government are communist stooges, has been in the headlines. To many, it may seem a reasonable procedure. But the Bureau's director, J. Edgar Hoover, sees the matter differently. And his twofold reason for opposing opening of the files is of the highest importance.

First, opening the files would gravely damage the Bureau's future efforts in obtaining confidential information, by disclosing the names of informants. Some of the witnesses whose testimony led to the conviction of the 11 Communist leaders in New York had risked their lives as undercover employees of the FBI. In Mr. Hoover's words, "A disclosure of FBI reports would reveal the identity of confidential sources of information and, if it did not place the lives of such persons in actual jeopardy, it would certainly ruin their future value and effectiveness." And, moreover, criminals and subversives would be forewarned and would conduct themselves accordingly.

Second, opening the files could do the most serious and unwarranted injustice to individuals. The files contain complaints and allegations—not only facts—which may or may not be true. Mr. Hoover compared them to the notes of a newspaper reporter before he has culled the printable from the unprintable. Then he said, "I would not want to be a party to any action which would 'smear' innocent individuals for the rest of their lives."

Mr. Hoover makes it plain that opening these files could very well both endanger the national security and commit profound injustices on good citizens.

Coal's Role In The Future

The National Coal Association predicts a bright future for the soft coal industry. This year estimates of production run up to 500,000,000 tons, based on the expectation that business conditions will continue to be good. As time goes by, it is further forecast, use of coal will increase 50 per cent over today's level. Coal provided the bulk of the heat, light and energy for making steel, for manufacturing and for generating electricity.

New applications and uses for coal will have much to do with its future. The industry is developing coal-burning gas turbines that are expected to set new standards for fuel economy and performance. It is developing processes for making gas, gasoline and oil from coal. It is developing new and better coal-using stoves and furnaces, and finding ways of burning the fuel more efficiently. Its purpose is to assure that coal in the future, as in the past, will be the basic fuel for making the nation's light, heat and power, and for new syntheses.

So the forecasts, all in all, are bright. But irreparable damage to coal's future could be done by unwise and short-sighted labor demands which would continue to stop production at frequent intervals, would make it more and more difficult for coal to meet today's price competition with other fuels, and would drive users to seek substitutes. If that happened, labor, along with everyone else, would be one of the heavy losers. Here is an industry in which management and labor must cooperate in the common interest.

Legion Auxiliary Will Hold Annual Poppy Sale Sat.

Proceeds Will Be Used To Aid Disabled Veterans Thruout Coming Year.

"In Flanders fields the poppies blow
Between the crosses, row on row . . ."

Col. John McCrae in these words gave expression to those beautiful little wild red poppies which grew over the graves and around the fox-holes of France and Belgium after World War I. Another World War has now been fought over that same territory. Thousands of our young men made the supreme sacrifice of their lives for their country and their ideals in this second great war; and that little scarlet poppy, now as then, covers the earth where our young Americans lie.

The poppy you will wear is not a natural flower. It is more than that, for it has blossomed in hospitals under the hands of men disabled in war—their petals are paper and their stems are wire, yet into them has been breathed the spirit of patriotic sacrifice, the spirit of those days when life itself was not too much to give for America and you.

It is for these men, our disabled veterans, that the men and women of the American Legion and American Legion Auxiliary hold their annual Poppy Day sale this Saturday, May 27. When you buy a poppy from the women and helpers of Boone Unit No. 4, remember it is your tribute to all who died in service, through a service to the living, for all the proceeds of this sale will be used to aid the disabled and dependent families of veterans throughout the coming year.

Saturday, the members of your own community, the wives, mothers, sisters, daughters of men who served in both wars, who are the American Legion Auxiliary, Boone Unit No. 4, will ask you to "wear a poppy."

JUNE IS DAIRY MONTH

June is the month that all segments of the Dairy Industry coordinate their efforts in promoting the sale of milk products. This is the season of the year that production reaches its peak, creating a temporary surplus, which is necessary in order to have sufficient quantity for the fall and winter months. It is, also, the time of year that dairy products are the most palatable. On a cost per pound basis compared with other foods, dairy products are one of the best buys for the family budget. Every consumer should use dairy products daily in sufficient amounts to assure proper nutrition. Dairying is the second largest source of farm income in Kentucky and has the potentialities of becoming the largest. Milk is the most nearly perfect food known and the industry deserves the support of every citizen in our Commonwealth.

Boone County's Graduates of 1950... Their Plans For The Future

The following article was written by Wilma Easton, Burlington High School senior:

In case you're wondering what the graduates of the four high schools of the county are planning to do, your writer recently compiled an occupational survey designed to inform you of their intentions.

According to this survey, sixty-four seniors are planning to graduate this year. Each was contacted and asked to state his or her plans for the near future after graduation this spring and the result was recorded.

Of course, this is just their temporary plans, but for the most part, I think you'll find for yourself that the larger percentage of the graduates have in mind now what they are going to do. Further training seems quite popular, in fact, about

Covington Group Suggests Control Laws For Drivers

Method of Regulation Becoming Vitrally Necessary, Says Group

Suggested legislation which is pointed toward the uniform national control of automobiles within the various States is being sponsored by the Men's Club of Madison Avenue Christian Church, according to a letter received from R. T. Acra, president of the group.

The suggested automobile responsibility act as outlined by the group is as follows:

During the year 1948 there were 32,300 deaths caused by automobile accidents, 1,150,000 injuries that did not prove fatal.

Since most accidents are caused by habitually careless drivers and the automobile has become an acute inter-state problem, it should be controlled by uniform, national regulations, such laws to be administered under the direct supervision of the various States. Any regulation should be based on the following principles:

Permanent, metallic, serially numbered carrying case for drivers license, billfold size, spaces provided for punching this case for every traffic citation. Two citations, suspension of license for three months; 3 citations, suspension of license for one year; 4 citations, suspension of license for two years; 5 citations, suspension of license for five years; 6 citations, suspension of license permanent; (overtime parking exempt from the above regulations). Suspension of license for driving while intoxicated, term to be based on the accumulated number of violations; prison term for driving while a license is invalid.

Confiscation of license plates of vehicle responsible for an accident, replacement made with standard government plates, a different color used for every accumulated accident; all States to use a standard color scheme (except name of State) these plates non-transferable and used six months into the new license period; a duplicate license certificate to be issued at the time plates are exchanged; punishment by a prison term for both the car owner and the purchaser for traffic in vehicles and final sale without the original license certificates; special records preserved at County registration offices.

Evidence of insurance covering property damage and personal liability before license plates are issued, such insurance to be for a specified minimum amount and to cover the license period. Permanent record at registration office stating the policy number; name of company issuing contract; policy non-cancellable, must be transferred with the ownership of vehicle.

THANKS

There is no greater pleasure than the thanks that we bear, To our friends and relatives And people everywhere. The honor of their loyal hearts In our sad loss of Orville To match the golden tribute Of your good and worthy names, The many deeds you did for him Will never pass away. Our hearts ache and sunset fades Our memories gather rust, Our castles trembled in the dark And crumbled into dust. But virtue lives forever, And the kind deeds you do Are lamps that light our darkest hours, And gleam the whole night through. Mr. and Mrs. Ernest Brown, Sr., and Family

Hadacol is Helpful to Folks of All Age Groups

Countless thousands have proved that HADACOL is beneficial to folks of all ages.

For instance, Miss Ethel Guidry, 822 Montgomery St., Port Neches, Texas, only 17 years old, was "feeling nervous, had little appetite, her face was pale and drawn and she suffered from gas on the stomach." Miss Guidry says she could not eat the kind and type of food she wanted without feeling terrible afterwards.

Miss Guidry, who recently graduated from high school, is already working in a bank. She said that after taking several bottles of HADACOL she is now "feeling wonderful," and has "lots of pep and energy."

Most folks take HADACOL because it has worked such wonders for relatives or friends. Miss Guidry took HADACOL because her mother had taken 12 bottles with excellent results.

In nearby Port Arthur, Texas, Mrs. W. M. Thompson took HADACOL because it had done her husband so much good. That is the reason so many purchase the large economy size bottle so all the family can benefit from nature's Vitamins and Minerals in HADACOL.

Mrs. Thompson's son's normal weight is 135 pounds, but she was down to 110 pounds before taking HADACOL, and after taking a few bottles of HADACOL she regained her normal weight.

"I was bothered with stomach trouble, gastric disturbances, I had lost my appetite and was bloated," said Mrs. Thompson. She had tried several preparations before taking her husband's advice on HADACOL and now she enthusiastically recommends HADACOL to her friends.

She, too, like Miss Guidry and the others, was suffering from the lack of the B Vitamins and Minerals in

her system which HADACOL contains.

A lack of only a small amount of the B Vitamins and certain Minerals will cause digestive disturbances. Your food will not agree with you. . . . You will have an upset stomach. . . . You will suffer from heartburn, gas, pain, and your food will sour on your stomach, and you will not be able to eat the things you like for fear of being in misery afterwards. Many people also suffer from constipation. And while these symptoms may be the results of other causes, they are surely and certainly the symptoms and signs of the lack of the B Vitamins and Minerals contained in HADACOL. And if you suffer from such a disorder, there is no medicine, drug or treatment that will cure you except the administration of the Vitamins and Minerals which your system lacks.

HADACOL contains not only one, but five of the B Vitamins. HADACOL contains not only one, but four of the necessary Minerals. It comes to you in liquid form, easily assimilated in the blood stream so that it can go to work right away. You cannot be satisfied with just temporary relief. HADACOL attacks and cures the source of such deficiency diseases.

It is easy to understand, therefore, why countless thousands have already been benefited by this amazing tonic, HADACOL. Accept no substitute—instant on the genuine HADACOL!

So, it matters not who you are. . . . it matters not where you live. . . . or if you have tried all the medicines under the sun, give this wonderful preparation a trial. Don't go on suffering! Don't continue to lead a miserable life. Many persons who have suffered and waited for 10 to 20 years or even longer, are able now to live happy, comfortable lives again because HADACOL supplied the Vitamins and Minerals which their systems needed. Be fair to yourself. Give HADACOL a trial.

We are so firm in our belief that HADACOL will help you that we sell HADACOL on a money-back guarantee. If you don't feel perfectly satisfied after using HADACOL as directed, just return the empty carton and your money will be cheerfully refunded. Nothing could be fairer.

Trial size only \$1.25, but save money—buy the large family and hospital size—only \$3.50.—Adv.

in the Model C
it Costs Less

The work capacity of an engine is measured by its piston displacement. That means the size and number of pistons and the distance they travel in the cylinders.

The Model C has a 125-cubic inch engine. Compare that with other tractors in the same price range.

Stop in and ask for Model C information—or better yet, ask to see what this tractor will do on your farm.

This is one of the finest subdivisions ever offered for sale in this vicinity... It is located in the very best residential section of Boone County.

Every lot in this subdivision will satisfy the F. H. A. requirements for space, all lots will be restricted and no effort has been spared in planning to make each lot a desirable homesite... These are all large lots, mostly all having 60 feet frontage.

Bob & Gene Move Closer To Top In KAG Semipro League

By Defeating Highway 8-2; Constance and Verona Suffer Defeat

Grants Lick maintained their lead in the KAG Semipro League last Sunday as their game with Boone VFW was rained out, but several other teams—Bob and Gene, Bavarian and Newport Stealers—moved closer to the top. Bob and Gene won their fourth game against a single loss when they trimmed Highway Merchants 8-2, Bavarian trounced Constance 9-2 and Newport shellacked Aetna Oils 14-0. In the only other league contest Charlie's Cafe nosed out Verona 2-1 in a well-played game.

Bob and Gene had 12 hits including a home run by Collins off the pitching of Baute and Schult. Sahner and Rauen tossed the winner and were backed up by some high class defensive play. The winners made four double plays. Bavarian's Bob Menckedick gave Constance only five scratch hits as his team pounded the offerings of Graving and Peno for 16 bingles. Verona lost a heartbreaker to Charlie's 2-1 at the loser's lot. Bill Mumm pitched for Verona and allowed but five hits, but Bishop of the winners, was a little better as he gave only four bingles.

Women's Auxiliary Contribute Much To Civic Betterment

Activities Are Many In City of Florence, According To Reports.

In every community there are individuals and groups of individuals who contribute a great deal more than their share toward the betterment of their community. Such a group is the Women's Auxiliary of the Florence Volunteer Fire Department. This group may be seen almost anytime at the Florence Community Center diligently working on one of their many projects.

Every Monday afternoon they gather to prepare an unexcelled meal for the Florence Rotary Club which meets at the Community Center on Monday nights. At least once a month they arrange some sort of entertainment for the citizens of Florence. They are called upon many times each month to prepare meals or refreshments for special meetings and events. Each year, with the assistance of the Fire Department they hold the Firemen's Picnic. These are but a few of their many activities.

Some revenue is derived from most of the events planned by the group, but the funds are not used for selfish purposes. They are used to furnish light and heat for the Community Center which houses the Fire Department and the office of the State Police; they are used to buy equipment for the Community Center; they are used to buy fire fighting equipment which makes possible the low insurance rates in Florence; and they are used to help pay off the indebtedness on the Community Center.

Every citizen of Florence gains in one way or another by the untiring efforts of these ladies who deserve a unanimous vote of thanks from the entire community.

May all join with us in a great school of Bible teaching and rejoicing in the Lord."

In Ten-Inning Contest; Big Bone Takes First Place In Standing.

Burlington knocked Hebron from the ranks of the undefeated last Saturday in the Boone County Baseball League when they trimmed the visitors by a 5-4 score in ten innings. The game was one of the best of the young season as both pitchers, Don Fund of the winners and Hogan of the losers showed midseason form.

Burlington's first four runs came in the sixth on a home run by James Gayle Smith with the bases loaded. Burlington scored the winning tally in the tenth on a hit, fielder's choice and an error.

Big Bone took first place in league stands with a 12-3 victory over Florence. The winner had 12 hits while Florence got only five. Black, Moore and Stephens pitched for Big Bone with Stansel twirling for the losers.

Noted Speaker Will Be Heard At Union Church June 4

Is President of International Board of Jewish Missions, Atlanta, Ga.

Dr. Jacob Gartenhaus president of the International Board of Jewish Missions, will speak at the Union Baptist Church Sunday evening, June 4th at 8:00, it was announced this week.

He was born in Austria in an orthodox Jewish home, of wealth and culture. He was educated in the strictest Jewish schools of learning, the cherished hopes of his parents being that he might become a Rabbi.

In his youth Dr. Gartenhaus came to this country seeking more wealth but found instead something infinitely more precious, Jesus of Nazareth—Israel's Messiah and the world's only Saviour. So wonderful was that revelation to him that he rushed out into the streets, stopped two of his own people and told them that the Messiah had come. Soon a crowd gathered and he was witnessing to them. Before that meeting was over Jacob Gartenhaus was beaten almost to death. That same night he was ordered out of his uncle's home where he lived and told never to return. The same week he was dismissed from his position. But nothing could swerve him from his purpose. His uncle offered him a fortune if he would give up his faith. However Jacob Gartenhaus was convinced that the only hope of his people lay in Jesus Christ.

From that day until now by word of mouth, by printed page, and by radio his messages have encircled the globe. His writings have been translated in many languages and some of his tracts have been thru twenty-two editions.

Jacob Gartenhaus has had doors slammed in his face, literature torn up and thrown in his face, was imprisoned, had abusive language hurled at him. He has been beaten at the hands of his own people. He has had many trials, tribulations and sufferings, but his cross has never been too heavy to bear in God's service.

Hyman Appleman the World Jewish evangelist says of him: "His mind is as keen as a Damascus sword, scintillating with its intelligence. It is stored with a knowledge of Jewish lore with a thorough Christian training, with an understanding of the Holy Scriptures and an insight into the hearts of many seldom granted to an individual. He has the tongue of a gifted speaker. He holds the largest crowds entranced with his gripping message. His heart is as big as the world."

A cordial invitation is extended everyone regardless of race, color or religious belief to hear this man at Union Baptist Church June 4th at 8:00.

Major Harold C. White, 32, son of Mr. and Mrs. John C. White, of Burlington, is attending the Army's 1950 exercise in logistics now under way at Fort Belvoir, Virginia.

The week-long exercise, which bears the name Logex-50 (short for Logistical Exercise 1950) opened this morning with more than 2300 officers and enlisted personnel of the Army's schools, services and agencies participating in administrative capacities as players, observers and umpires. The Navy and Air Force are represented by observers.

Logex-50 is designed to provide student officers in the schools of the technical and administrative services with practical experience in planning and conducting operations in an active theater of war. In addition to demonstrating the coordination necessary in and between the services, the exercise is exploring methods for the proper employment of the logistical command, a post-war concept for the organization of military movement, supply and evacuation in support of an active theater of operations.

Most aptly described as a map maneuver, the exercise is being conducted under the direction of Major General Lewis A. Pick, Chief of Engineers, with Major General Douglas L. Weart, commanding general of The Engineer Center and Fort Belvoir, serving as Maneuver Director and supervising the actual manipulation of the problem.

Boone Countians Give \$725.32 In March of Dimes Drive

State Contributions Reach Total of \$367,467.99.

Ben F. Zimmer, Jr., chairman of the Boone County March of Dimes, reported a total of \$825.32 raised in the recent campaign. Kentuckians contributed \$367,467.99 during the 1950 March of Dimes Drive.

This represents an increase of almost 25 per cent over the total pledged in any previous campaign and "gives heartening assurance that the fight against polio will be continued," according to Gabe Taylor, State Chairman of the 1950 March of Dimes. The drive was conducted from January 14 through 31.

In her final report, Mrs. Inez K. Ligon, who retired May 31 after five years service as Executive Director of the Kentucky Chapter, National Foundation for Infantile Paralysis, revealed that this represents an average contribution of approximately 12½ cents "for every man, woman and child in the state, or about 2 cents more per person than was contributed during the 1949 drive." Howard C. Orr, Peewee Valley, is Mrs. Ligon's successor as executive director of the Kentucky Chapter.

The report points out that during the polio epidemic in 1949 practically every Kentucky County reported at least one case and that total cases in the state reached the 696 mark. This is added to the already large number of patients requiring care from previous years, Mrs. Ligon said, and "poses a serious financial problem."

Half of the March of Dimes funds remain in Kentucky, while the other 50 percent goes to the National Foundation in New York for research aimed at finding means for eradication of the crippling disease, for professional education to provide necessary personnel for treatment of victims, and for epidemic aid to communities whose funds have been depleted by previous epidemics.

When Kentucky's funds were depleted last fall, \$128,800 was received from the epidemic aid fund for use within the state.

Petition Opposing Sewer System Is Presented Board

Total of 42% of Town's Property Owners Listed On Petition.

The Florence Board of Trustees met in regular session at the Florence Town Hall on Tuesday, May 9, 1950. At this meeting the Florence Citizens and Taxpayers League presented the following petition:

"We the undersigned property owners in the Town of Florence, do hereby petition you not to pass the proposed ordinance whereby a tax burden of \$300,000.00 will be levied against the property owners of this town, for the reason that there are a large number of home owners, the payment of whose mortgage indebtedness is large and any additional payment which they would be required to pay to the said Town would be more than they could pay and that it would cause them undue hardship, and further, the payment of the \$300,000.00 would be in a great many instances a confiscation of the property against which it was levied."

"We, the undersigned, feel that the Town of Florence as a whole is not in a bad sanitary condition and that a few isolated spots could be corrected at a far less expense than the putting in of a sewer system."

"We trust that you will refrain from attempting to place a burden of \$300,000.00 upon the property owners of this town."

A motion was made that Mr. L. W. Kepler, president of the Taxpayers League meet with Mr. Clifford Coyle, Chairman of the Florence Board of Trustees and Mr. Wm. Fitzgerald, City Clerk for the purpose of counting the signatures and determining the percentage of the property holders in the city opposing the sewer project. This meeting was held on May 17. Mr. Wilmer Osborn assisted in the counting.

The signatures were checked against the tax records and it was found that the signers represented 42 percent of the total number of property holders in the city.

Mr. and Mrs. Walter Huey, of Louisville, Mr. and Mrs. Winifred Huey, of Cincinnati, Mr. and Mrs. Franklin Huey and Mrs. Anna Huey were Sunday dinner guests of Mr. and Mrs. Wendell Easton.

Gilbert Crowder, Charles Maynard, Jr., Charles Jones and Homer Jones spent the week-end in Nashville, Tenn.

Vest, the Walton pitcher, also had a home run for the losers.

The local Knotters will be trying for their fifth consecutive win Friday evening when they play Petersburg at Petersburg.

One other knothole game reported this week was a 3-0 win by Hebron over Florence. Garnett was on the hill for the winners.

**ANNOUNCE NEW NAME,
MORE AWARDS IN
4-H DAIRY PROGRAM**

Announcement has been made by the National 4-H Club Committee of changes in the name and awards of the 4-H Dairy Production program. Now named the National 4-H Dairy Achievement program, awards have been increased to a maximum of four sterling silver medals for winning members in each participating county. The State champion's award will be a gold watch.

Sectional awards also have been increased to twelve educational trips to the National 4-H Club Congress in Chicago. The national awards remain the same—six \$300 college scholarships. All awards are provided by Dederle Laboratories division, American Cyanamid Company.

Kentucky has accepted the program for 1950, which will be conducted under the direction of the

Cooperative Extension Service. Among the program's objectives is to help 4-H Club members understand the full meaning of cleanliness, sanitation and animal health

as applied to the production and care of milk and dairy products. The participants are encouraged to practice these principles at home as well as demonstrate them in their community. Also, they learn

to appreciate the contribution of science and its application to the dairy industry. County extension agents will furnish full information regarding this program.

Before buying a
refrigerator, make
sure it passes
these 4 tests

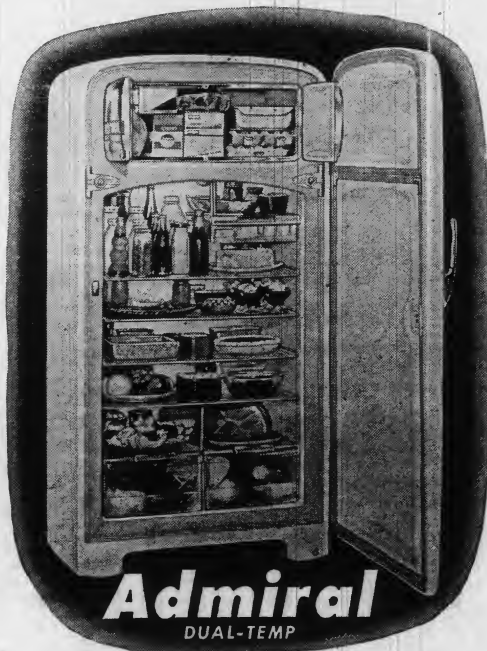

No defrosting!

- 1 The housekeeping test: Will your new refrigerator burden you with the nuisance of weekly defrosting? Not if it's an Admiral Dual-Temp. Admiral's exclusive moistrol automatically evaporates excess moisture. Foods don't dry out. Flavors don't mingle.

- 2 The frozen food test: Are you able to quick-freeze fruit, meat, leftovers at 20° below zero? Yes, if it's an Admiral Dual-Temp. Its separate freezing locker quick-freezes and stores up to 84 pounds of food.

- 3 The fresh food test: Will fresh foods dry out and lose flavor? Not if you choose the Admiral Dual-Temp where fruits, meats and vegetables thrive in the cool, dewy atmosphere. The Sterilamp helps kill "ice box" odors and retard mold growth.

- 4 The storage space test: Want lots of storage space without crowding kitchen? Then you want our new 1950 Dual-Temp. Your choice of 13 1/2 or 10 1/2 cubic feet of storage space, in streamlined, compact cabinets.

New Haven Homemakers Will Stage Party In Cincinnati July 7th

Sound the trumpet and roll the drums, to announce that the New Haven Club of Boone County Homemakers will stage a party at the Party Mart, 127 West Fifth Street, Cincinnati, Friday, July 7, starting at 11:45 a. m.

And what a party! Lunch will be served from the advertised products in The Cincinnati Post. Then will follow cards and games. And look at the prizes for the winners—a fine array of useful items made by the deft hands of the Homemakers.

And that's not all! There will be a half-hour broadcast of the party by Radio Station WSAI, and the following Monday, July 10, at 3:30 p. m. you can hear the party all over again.

And just look at the low price of tickets for all this entertainment—only one dollar. Tickets are on sale at the M. C. Owens Drug Store, Pike and Washington Sts., Covington, or you may call Mrs. Henry Fisher, President of the Club, at Florence 909.

There are only 132 tickets to be sold, so hurry and get yours. "Let's see all the Boone County Homemakers there to have lots of fun," says a spokesman for the New Haven Club.

It takes a number of companies of soldiers to make a regiment, but only one woman to make a home.

CONSTANCE HOMEMAKERS
The regular meeting of the Constance Homemakers was held May 10th at the home of Mrs. Gladys Dolwick. Roll call was answered with "an heirloom we treasure." Twenty-one members, 3 visitors and 7 children were present. No meeting was held in the morning, as members worked on trays.

The meeting was held at 2:00 p. m. with reports by committees. Mrs. Fannie Peeno gave a reading for Mother's Day. A special meeting was held May 24 for those working on trays.

The annual picnic will be held June 7 at 10:00 a. m. at Devou Park. —Club Reporter.

APRON SALES HELP FURNISH CLUBHOUSE

"Liberty Club House" is the sign which hangs over the doorway of a one-time store building in Russell county, now the home of the Liberty Homemakers Club. Wanting a central meeting place, the group rented the vacant building from one of its members. Now it is an attractive room with its new green and white wallpaper, dark-green hard-surfaced floor covering and white curtains at the windows. Funds for renovating the building were raised through apron sales and other means.

Farm Bureau Conference Held May 16 and 17th

The Kentucky Farm Bureau secretaries' conference was held at Louisville on May 16th and 17th at the office of the Farm Bureau. The conference was attended by Mr. and Mrs. John E. Crigler, who are the secretary and treasurer of the Boone County Farm Bureau and the Associated Women respectively.

The conference was attended by sixty-two local officers from all parts of the state, besides about twenty staff members of the Ky. Farm Bureau Federation and Ky. Farm Bureau Mutual Insurance Company.

The two-day conference outlined the work of the secretaries in regard to record keeping, news work, county meetings, membership records and reports, insurance services, including life insurance, auto and truck insurance, fire and wind insurance, comprehensive and liability insurance and blue cross hospitalization insurance.

A tour of the building and all departments was made. The insurance department has been equipped with 1. B. M. office equipment which makes it possible for most of the filing and record keeping to be kept with about one-tenth the help that would be needed if all of it were handled and filed by hand.

Boone County now has the largest membership in its history, having a total of five hundred and seventy-four members. It is believed that the goal of six hundred members set for 1950 will soon be realized, according to John E. Crigler, secretary.

The flood in McLean county did much damage to farm buildings, homes and fences.

Twenty-six 4-H club boys and girls in Pike county set 500 strawberry plants each.

About 50 potato growers in Jefferson county planted Ashworth and Chenango, new varieties in Kentucky.

FLORENCE HOMEMAKERS

The Florence Homemakers held their regular meeting Tuesday, May 23, at the Florence Community Center. New officers were elected as follows:

President, Mrs. B. M. Jones who succeeds Mrs. Victor Benham; vice president, Mrs. George Morith who succeeds, Mrs. Robert Cox; secretary-treasurer, Mrs. James Miner, who succeeds, Mrs. Morith.

The Florence Homemakers would like to congratulate the retiring officers on the splendid and efficient manner in which they performed their duties. It sets a very high standard to be met during the coming club year.

The remainder of the day was spent in etching metal trays. Mrs. John Schram and Mrs. William Gentry did a marvelous job of instructing the members.

Some farmers in Lawrence county started baby chicks two months earlier than they usually do.

Especially do I thank Mr. and Mrs. Bruce Campbell, Mr. and Mrs. Edward Black, Jr., for their courageous action at the scene of the accident; Rev. Johnson and the Burlington choir, Rev. Patton and Rev. Pierson for spiritual comfort; Dr. S. B. Nunneley, and Mrs. Mary Clore for their attentiveness; Chambers and Grubbs for its service; and my mother for caring for my two children. I appreciate the many flowers, cards and prayers which were so consoling both at the funeral service; at the hospital, and during these four weeks of continued confinement in bed at my home. I also desire to thank the pallbearers for their service.

My gratitude would be incomplete without saying that during the hours of intense sorrow God was my "ever present help." Mark 11:22 became very real "and Jesus answering said unto them 'Have faith in God.'" Your continued prayers are appreciated.

seals in the leaves
seals out the rain

The Roto-Baler rolls the windrow into a bale with leaves wrapped inside, protected from the rain.

To feed it simply unroll the bale . . . and you have the hay just as it was in the field — soft, leafy, with the color and protein still there.

Rollled bales shed rain like a thatched roof. They store compactly, will not buckle, may be unrolled, or fed whole in the open feed rack.

The ONE-MAN ROTO-BALER is priced for home ownership. Stop in and talk to us about a Roto-Baler for your farm.

Notes and Comments

From the Editor's Desk

The Importance of The Navy
One of the most compelling essays on the importance of the Navy to the national security appeared in the March issue of U. S. Naval Institute Proceedings. Written by Captain Ernest M. Eller, U. S. N., and titled "Will We Need a Navy to Win?" it has been given the Institute's annual prize award.

Captain Eller deals generally with the influence of seapower on the course of our history. It has as every schoolboy knows, been a decisive influence. And yet, he cogently observes, "Although the sea is the very tide of her life, America has never believed in it." The American roots are in the land. Few of us have any first-hand knowledge of the fighting Navy—in the last war three fourths of all those in the armed services were Army or Air Force uniforms, and their loyalties, like their knowledge, lies with these arms. "Do not talk to them about the Navy winning wars," says Captain Eller. And here, he thinks, is one of the reasons why so many now believe that the Navy's day has come to its twilight, and that other weapons, primarily land-based aircraft, are about all we need.

Captain Eller, of course, does not believe this. He—like so many other experts, both within and without the Naval service—is certain that the role of the Navy in any future conflict will be all-important and that, especially, Naval carrier-based aircraft will carry much of the load. And here he writes: "If we are to suffer another war in the near future, it is in the air that we must defend ourselves first of all, and by the air that we must strike the early blows. Such being true, we must realize that the solid earth belonging to the United States under this air, and therefore assuring us fixed bases for air protection, amounts to no more than two per cent of the area of the world.

"Contrasted to this, consider that if we control the sea we control not two percent but 70 per cent of the surface of the world! On the water we increase our potential air base locations more than 30 fold; provided we deny the oceans to the enemy and maintain sufficient floating fields of our own. We likewise insure that many other land areas otherwise denied us will serve our purposes and not those of the enemy."

Finally, Captain Eller argues, the American public has accepted a progressive reduction of its Navy below a minimum safe level because it does not see the need for it. We have, in other words, actively or passively accepted the idea that a "cheap" war is possible, and that a first-class Navy, with all its vast complexities and costs, is an unnecessary luxury. If Captain Eller is right, this is one of the most dangerous delusions, and it must be jettisoned. For, he writes at the very end of his fine essay, "In this age of winged sea power, even more than in the past, victory or defeat may come out of the sea."

More Oil and Gas

Proved reserves of crude oil and natural gas scored another major increase in 1949, reaching new all-time peaks and enhancing the security and strength of the United States. That is the gist of a report issued jointly by the American Petroleum Institute and the American Gas Association. At the end of the year those reserves were estimated at the huge figure of 28,300,000,000 barrels—an increase of 1,500,000,000 barrels over the preceding year.

Proved reserves are the underground supplies which the oil and gas industry can draw upon at any time. There is no guesswork involved. Their location and extent have been proved and measured by actual drilling.

The fact that these reserves have been increasing, despite our huge consumption of oil and gas, is a measure of the progressive spirit and the high sense of public responsibility of the oil and gas industries. Looking for new supplies is a costly undertaking—four out of five wildcat wells turn out, on the average, to be dry. But this is the only known way to locate oil and gas, and to be sure that it will be ready for production whenever it is needed. So the work goes on, day in and day out over the years.

Incidentally, it used to be freely forecast that our oil resources would be exhausted in practically no time. But the industry has thoroughly confounded the pessimists who anticipated that we'd be soon thirsting for oil. As consumption increased, the proved reserves along with it. And the result is that we have more known oil and gas deposits than ever before.

More than 300 dairymen in In Campbell county belong to the Cooperative Pure Milk Association, selling milk to the Greater Cincinnati area.

Four-H club members in Calloway county have ordered 40,000 trees for setting out in a county-wide tree planting project.

More than 100 soil samples for testing were brought to the Breckinridge county soils laboratory the first week it was in operation.

The average yield of corn per acre in the Pike county Corn Derby contest was 85.5 bushels in 1949 compared to 78.9 bushels in 1948 and 76.4 bushels in 1947.

Bob and Gene Nine In First Place Tie By Defeating Ghent

Constance Trounces Hudephol Nine In League Upset.

Bob and Gene and Bavarian moved into a first-place deadlock in the KAG Baseball League last Sunday by virtue of wins over Ghent and Grants Lick. The B & G team, behind the four-hit pitching of Mignerey and Donowski, had little trouble winning their fifth league contest over Ghent. The B & G big bats produced 13 bingles with Seebree, Mignerey and Arzen leading the assault. Mignerey allowed three hits and fanned five in five innings as he gave only one hit and fanned four in four innings. The defeat was Ghent's fourth in five attempts.

Bavarian knocked Grants Lick from the undefeated list by virtue of their 5-4 win. In this game it was a battle of relief pitchers with Burlington relieving Bavarian's starter Menckedick and Flaughler relieving Grants Lick's usually reliable Allen Nagel. The losers had 12 hits to the winners seven, but tight pitching in the pinches was the margin of victory. A Rhinehard led the winners with the stick while M. Rhinehard and Urlage had four hits each for Grants Lick.

Constance pulled the big upset in KAG circles last week with a 4-3 win over strong Hudephol at Martz Playgrounds. Bill Peeno, considered one of the top young catchers in northern Kentucky, stepped out to the mound for Constance and proved a capable moundman. He allowed 12 hits but kept them well scattered. Gerard and Rizzo pitched for Hudephol and gave up 11 hits. Dittus, Doyle and Peeno led the Constance attack.

Boone VFW Winners
The Boone VFW outfit scored their fourth league win at the expense of Charlie's by a 6-4 count at Bellevue. D. Deck tossed the winner and Bishop worked for the losing cause. Deck was touched for 14 bingles but was effective in the pinches. He fanned seven. Bishop gave only eight hits and fanned ten. Denniston of the winners furnished the big offense with a base-clearing double in the eighth inning. He also had a single. Bishop and Weghaus had three hits each for Charlie's.

In other league contests Aetna Oil defeated Highway 3-0 and Newport Steelers trimmed Falmouth 3-1.

Gayle Rouse Will Attend Bluegrass Boys State, Ft. Knox

Selected by Boone Post No. 4, American Legion; Valuable Training Given.

Gayle Rouse, son of ex-sheriff and Mrs. R. I. Rouse, of Burlington, has been selected by Boone Post No. 4, American Legion of Kentucky, to attend Bluegrass Boys State, Fort Knox, Ky., during the week of June 17-24. It was announced by Francis Souther, Boone Post No. 4 adjutant.

Selection of representatives to Boys State is based on leadership character and scholarship and the selection is made in conjunction with school officials of the county high schools. This is the second consecutive year that the Boone Post has sponsored a representative.

The purpose of Bluegrass Boys State is to train youth the fundamentals of good citizenship and governmental functions. The program is sponsored by the Legion of Kentucky and as an educational project proposing to develop in Kentucky youth a constructive attitude toward the American form of government and to inculcate in them a firm belief that our democratic system is not an old, outmoded idealism, but a workable, efficient system that needs only an intelligent citizenry and honest administration to make it the effective instrument of protection and regulation visualized by our forefathers.

Constitution and statutes of Bluegrass Boys State are patterned after those of the State of Kentucky. In effect, the enrollees constitute a sort of mythical 49th state and so function during their period of training. The boys conduct their own elections, have their own political parties and introduce and pass laws. The whole scope of politics and government function is covered. A complete physical education program is also provided along with complete physical examinations and plenty of entertainment.

Young Rouse is very active in school activities, was a member of the Burlington Eagles State Championship six-man football team, basketball and baseball teams and is at present playing baseball with the Simon-Kenton American Legion Post team and the Burlington Knothole team. FARM BUREAU ANNOUNCES NEW EMERGENCY POLICY

Farm Bureau has just announced a "10 Star Emergency Policy" according to John E. Crigler county insurance agent for the company. The policy provides for treatment and other expenses up to \$5,000 to each insured that might be caused by 10 dread diseases, namely, polio, leukemia, scarlet fever, diphtheria, rabies, smallpox, spinal meningitis, encephalitis, tularemia and tetanus. A family policy which includes all children under 21 years of age cost less than 3c per day. Polio and several of the other diseases are especially bad during the summer

months and Farm Bureau hopes that rural people will take advantage of this protection.

HOW TIMES HAVE CHANGED

100 Years ago, in 1850, banks were usually quartered in unpretentious buildings. They were highly essential to the economic life of a City or Town but generally were open only for a few hours on specified days, depending upon the size of the City or Town and the financial activities and needs of the inhabitants.

Now our bank stays open for business 6 days a week from 9:00 a. m. until 4:00 p. m. except through the months of June, July and August, when we close at noon on Saturdays. Many banks close half a day a week the year round and some close all day Saturdays. Our banking hours are longer than the majority of banks.

easy THRESHES IT

Rubber-against-rubber shelling contacts in the ALL-CROP Harvester give a natural shelling action, just as you rub out a head of grain in the palm of your hand.

The crop falls on a wide, rubberized draper and rides straight to the full-width, spiral-bar cylinder in a thin stream just as it grew in the field. Rubber-cushioned cylinder bars rub out the grain or seeds against rubber concaves.

This same gentle handling of over 100 grains, seeds and beans makes the All-Crop what is . . . truly an ALL-CROP Harvester. Stop in and talk to us about an All-Crop for your farm.

"Covington Days" Announced For Friday and Saturday

Priced Reduced On New Merchandise For Two-Day Event.

This issue of The Recorder carries some of the many special bargains that are being offered by Covington stores on "Covington Days," Friday and Saturday this week.

A great effort is being made by the participating stores to make this semi-annual event surpass previous "Covington Days." New merchandise has been stocked and prices reduced with the expectation of attracting thousands of Northern Kentucky shoppers on these two red letter shopping days.

This event comes right at the time when many will be looking for suitable gifts for Father's Day next Sunday.

Usual store hours will prevail—remaining open until 9 o'clock Friday night, and closing at 6 p. m. on Saturday.

G. P. Nicholson, of Walton, spent Sunday with Mr. and Mrs. C. D. Benson and daughter Charlotte.

Dale Williamson's Big Bone baseball team took over first place in the County League last Saturday as result of their ten to one win over Hebron. Both the winners and losers had perfect two and nothing records until Saturday's contest.

The game, though seemingly lopsided, was well played and close to the final two innings. Check Ryan, one of the league's more consistent pitchers, allowed Hebron only five scattered bingles. Historical Society Will Meet At County Seat June 16th

Paper Will Be Presented On Life of John Pendleton Gaines At Meeting.

The Boone County Historical Society will meet in the courthouse at Burlington Friday, June 16, 1950 at 8:00 p. m.

Lucian Bradford, its president, and vice president of the Christopher Gist Historical Society, will present a paper on the life of John Pendleton Gaines. Mr. Gaines was a resident of Boone County, and the first governor of the Territory of Oregon during President Fillmore's administration.

The public is invited to attend any meetings of the society.

John E. Crigler of Burlington, presented a paper on the "History of the Hebron Community" at the meeting of the society held in the Florence Town Hall on Friday, May 19, 1950.

The first settlement in this community was made in 1760 in the North Bend section and was known as Bullock Bottoms. The Bullock Bottoms Baptist Church was organized about 1794 and was located between the C. G. Crisler and the Ida Bally farms. In 1798 this church divided and the membership formed the Sand Run Baptist Church and the Bullittsville Baptist Church.

In 1792, the year Kentucky was admitted into the Union as a state, George L. Bally settled in North Bottoms. He operated a store for which supplies were brought in by ox-cart. He sold at retail and wholesale and provided whatever was needed by the settlers. There was a flour and grist mill on Sand Run Creek on property which Chas. W. Riley did own and which is now owned by Harold Wainwright.

The Johnson family settled in North Bottoms about 1792. The three brothers, Hiram, Cave, and Richard M. were prominent in public affairs. Cave was the first County Clerk of Boone County. Richard M. made himself famous in the South and the Thomas in which he died. Decoursey, the great Indian chief. He later was the eighth (8th) vice president of the United States under Martin Van Buren.

Hiram Johnson built the home on the C. G. Crisler farm in 1798. With the Johnson family came two baby nieces, who rode in a box similar to a cradle on the side of pack animals, from Virginia. Their father, Rev. Eve, had died shortly before their leaving for Kentucky.

The Terrill, Harrison and Banker families are descendants of one of these nieces. George L. Bally married the other niece. She was Charles L. Riley's great-grandmother.

George L. Bally built the brick house on "Buddy" Cropper's farm later owned by C. G. Crisler and now by Charles L. Hempling.

Boone County was organized in 1798. The first organization meeting was in Federal Hall, which is located between Lawrenceburg Ferry and the large brick Indians living near Chillicothe, Ohio, frequently hunted in Kentucky. They would cross the river at Murdock Bar at the mouth of the Miami River opposite the George Terrill farm. If the river was high they might camp for some time on the Kentucky side. Consequently many Indian relics have been found in this vicinity.

Mitchellville is now a forgotten town. It was located on land now owned by Mrs. Mary V. Gaines, Mrs. Carrie Riley, and Ben Riley. On the latter's land was the town pump. The Mitchellville-Dry Creek turnpike, one of the earliest, was made of sawed timbers eight inches wide and two inches thick.

Hebron Lutheran Church was organized in 1854. The Hebron Church in Virginia donated liberally to its building and it was named after the Virginia Church. The village around it then changed its name to Hebron. Formerly it had been called Briar Thicket and Tailholt. A parsonage was built for the pastor of the Lutheran Churches of Hebron, Hopeful, and Ebenezer in 1854. It is now occupied by Clarence Turner. The Hebron Church was organized on December 3, 1854, by sixteen charter members in the house now owned by Edwin Aylor.

The Rev. Harbaugh, the pastor, helped organize the first Kentucky synod and became its first secretary.

In 1883 Hebron contained 21 homes. In 1942 there were 60 homes and in 1950 the number had increased to 91.

Karen Sue, Nick, and Ellen Benson, children of Mr. and Mrs. Charles Benson, of Florence, spent the week-end with relatives here.

Cress-Aylor

In a candlelight ceremony at 7:30 p. m. Saturday, June 10 at the Burlington Baptist Church, Miss Catherine Cress, youngest daughter of Mr. and Mrs. Calvin Cress, of Burlington, became the bride of Mr. Earl Glenn Aylor, son of Mr. and Mrs. Earl Aylor, of Hebron. Officiating at the double-ring ceremony, was the Rev. B. A. Johnson, pastor of the Burlington Baptist Church.

Early Summer blooms against a background of ferns, complimented by lighted tapers in candelabra, decorated the altar.

Pre-nuptial musical selections included organ renditions by Mrs. Robert Cline and "Ah Sweet Mystery of Life," "O Promise Me," and "Together Life's Pathway We Tread" were beautiful sung by Mrs. George Wohrley, soprano soloist, sister of the groom. Later during the ceremony, Mrs. Wohrley sang "The Wedding Benediction" before the couple exchanged vows.

Attending the bride were Miss Katherine Pettit as maid of honor and Misses Wilma Easton and Cordeia Kelly as bridesmaids. Little Miss Sherry Riddell served as flower girl, while Master Galen Ray State acted as ringbearer.

Mr. Aylor chose as his best man, Mr. Nelson Goodridge. Mr. Herbert Cress, brother of the bride, and Mr. Galen McGlasson, served as attendants for the groom. Ushers were Messrs. Melvin Ray McGlasson, Kenneth Taylor, Leland Walton and Rodney McGlasson.

The maid of honor and bridesmaids wore identically styled gowns of white imported Swiss organdy. Miss Pettit's over a soft shade of green taffeta and Miss Easton's and Miss Kelly's over soft yellow taffeta. Their small open-crowned bonnets of white organdy were smartly designed over hues to match their gowns. They wore white mitts and carried lovely mixed summer blossoms in straw baskets accented by multi-color streamers. The flower girl wore a dainty lace-trimmed gown and carried a small basket of yellow roses in her hair. The ring bearer wore a white suit and dark bow tie.

The groom and his attendants were attired in white dinner jackets, dark bow ties and dark trousers. There was a white carnation boutonniere.

The bride, given in marriage by her father, Harry Cress, wore a gown in a youthfully styled gown of sheer white nylon, fashioned with a tiny Peter Pan collar, self-covered.

Fifteen Hundred Scouts Will Attend Beard Ceremonies

Unveiling of Historical Highway Marker Set For Saturday, June 24.

More than 1500 Boy Scouts from 45 troops representing 15 counties in the Covington, Newport, and Maysville areas served by the Northern Kentucky Council of the Boy Scouts of America are scheduled to attend the program when the Daniel Carter Beard historical highway marker is unveiled on Saturday afternoon, June 24th, in Covington. G. W. Ammerman, Jr., president of the Covington-Kenton County Chamber of Commerce, who is serving as local chairman of the program committee, announced Tuesday.

Daniel Beard, known as "Uncle Dan," was the founder of the "Sons of Daniel Boone," and the first National Commissioner of the Boy Scouts of America. As a youth Dan Beard lived at 322 East Third Street in Covington.

The Centennial of his birth is being celebrated this year in many parts of the country. The bronze highway marker, will be the first of a series to be established by the recently organized Kentucky historical Markers Committee.

The Kentucky Historical Markers Committee is composed of representatives of the Kentucky Historical Society, the State Highway Department, and local civic and historical organizations. The local dedication program committee is composed of representatives of the Covington-Kenton County Chamber of Commerce, the Chamber of Commerce of Campbell County, the Northern Kentucky Council of the Boy Scouts of America, the Christopher Gist Historical Society, the Covington office of the State Highway Department, the City of Covington and the Fiscal Courts of Kenton, Campbell, Boone and Mason counties. This committee has been holding a number of meetings in which the June 24th program has been discussed and planned.

Girl Scouts from the Dixie Area Council subsidiary of the Boy Scouts of America, is interesting in promoting the same principles and will attend the ceremonies, president Ammerman said.

It was explained by Willard A. Friend, Henry F. Hansjergsen and William Muehlenkamp, Jr., representing the Northern Kentucky Council of the Boy Scouts, that the annual Camp-O-Ree of the Northern Ky. Council will be held June 23-24 and 25 in Devou Park. This program unveiling the marker will be part of the Camp-O-Ree program.

The scout executives reported that 25 members of the Executive Committee of the Northern Kentucky Council would take part in the program, which will be in two sections. The marker will be unveiled with a program at 2:30 p. m. Saturday, June 24th at the north-west corner of the old Post Office Building at Third and Scott Streets. After this section of the program is completed the delegation will march to the Third Street address where another program, exclusively in charge of the Boy Scouts, will follow.

Two national leaders of the Boy Scouts will take part in the program. They are E. L. Kuhnle, Dayton, Ohio, chairman of the Fourth Region of the Boy Scouts of America, which includes the Northern Kentucky Council, and E. R. Price, Wheelright, Ky., vice chairman of the Fourth District. John A. Keck, State Highway Commissioner, will give the principal address for the State of Kentucky. Attorney Stephens L. Blakely, president of the Christopher Gist Historical Society will be master of ceremonies.

Livestock Raisers Warned Against Dangers of Blackleg

Caused By Spore-Forming Germ Which Can Live For Years In Soil.

The danger season for blackleg is here now, and cattle losses may be high unless herds are protected, livestock health authorities warned today.

The disease strikes swiftly, with a high death rate, an American Foundation for Animal Health bulletin explains.

Blackleg is caused by a spore-forming germ which can live for years in the soil. It may enter an animal's body through small cuts

and punctures in the skin, or thru grazing.

"Suspect blackleg," the bulletin urges, "if young cattle develop a high fever, lose appetite, become lame and show great depression."

"Typical swellings caused by the disease give off a crinkling, tissue-paper feeling if they are touched."

Since the disease is highly infectious among young cattle, and usually fatal, the Foundation urged owners to have a veterinarian check immediately if they suspect a blackleg outbreak in their herds.

"Prompt treatment may save some of the animals," the bulletin says, "although it is usually best to have calves vaccinated at about three months of age if blackleg losses have occurred before in the locality."

Also of great importance, the Foundation adds, is to burn or bury deeply under lime the carcasses of animals which have died. Otherwise, the carcass may be a potent source of infection.

Local Youth Killed In Auto Collision Saturday Afternoon

Car Hits Bridge Abutment After Crashing Into Car of Dr. Ryle.

George Fellers, Jr., 19-year-old son of Mr. and Mrs. George Fellers, Sr., proprietors of the Beacon Light Inn, six miles south of Florence on U. S. 42 was killed instantly Saturday afternoon when his automobile sideswiped another car on U. S. 42 at Gunpowder bridge, three miles west of Florence, and struck a bridge abutment.

Feller's car struck a car driven by Dr. K. W. Ryle, Burlington, as Dr. Ryle attempted to turn his car onto Gunpowder Road, from U. S. 42, according to Renaker Miller, State Trooper, who investigated the collision. Miller stated that Feller's car, evidently traveling at a high rate of speed hit the front of Dr. Ryle's car, then glanced off striking the bridge abutment.

Dr. Ryle and his son Max escaped serious injury, although both were badly shaken and suffered shock.

The victim was a graduate of Dixie Heights High School, graduating in the class of 1948.

Young Fellers is survived by his parents, Mr. and Mrs. George Fellers, Sr., and a brother Richard Fellers at home.

Funeral services were held at 2:30 p. m. Tuesday at the First Presbyterian Church, Covington, with burial in Highland Cemetery, Fort Mitchell.

Prior to the ceremony Verne Arnold, a brother of the bride sang "Because" and "At Dawning." Miss Carolyn Rouse was piano accompanist and also played "Lohengrin's Wedding March" the bridal party entered the church. After the vows were spoken Miss Beverly Markesbery sang "The Lord's Prayer."

Rev. C. L. Leopold performed the double ring ceremony and the bride was given in marriage by her father. Her white bridal gown created by her mother assisted by Mrs. Chas. Luchte and Mrs. Jeff Edmondson was designed with a high sheer yoke of nylon marquisette off the shoulder with drape of nylon net with a ruffle at the bottom and caught in front and at each shoulder with white forget-me-nots. FHA Members Attend Annual Meeting At Bowling Green June 2-4

Two members of the Burlington Chapter, Future Homemakers of America attended the organization's fifth annual meeting held on the campus of Western State College in Bowling Green on June 2-4.

Local members attending the meeting included Anna Mae Staggs and Helen Horton. They were accompanied by Miss Frances Horlacher, their local F. H. A. advisor and teacher of Home Economics at Burlington High School.

This year's F. H. A. State meeting was the fifth annual affair for Kentucky Future Homemakers of America. The State association was the first in the entire nation to be granted a charter. The Kentucky organization is now composed of 196 chapters with a total membership of 7,730 girls. All F. H. A. members are high school students who are taking or who have taken

home economics as a part of their high school studies.

Local delegates joined approximately 500 other Kentucky Future Homemakers in Bowling Green for State meeting activities. One of the highlights of the meeting was the annual formal banquet at which 41 girls were awarded State Homemaker degrees, the highest attainable in State F. H. A. circles. Winners of four scholarships, awarded by the State association, were also announced at the banquet.

Featured addresses of the meeting were delivered by National F. H. A. president Betty Ruth Etheridge, of Crossett, Ark., and by Miss Mary Belle Vaughan, of the State Department of Education, Frankfort, who serves as State Advisor of the organization. Miss Mary Lois Williamson, State Director of Home Economics of the State Department of Education, Frankfort, serves as chairman of the organization's Advisory Board.

New officers were elected and installed shortly before adjournment of the meeting.

TALKING MULE IN MOVIE AT GAYETY THEATRE
Donald O'Connor's latest starring film, "Francis," which opens tonight at the Gayety Theatre, is the most refreshingly different picture to come out of Hollywood in many moons.

The story deals with an army mule which bears Donald, an army lieutenant, to safety when the young officer gets lost from his command and is wounded in a Burma jungle by Jap shellfire.

Francis the mule takes a liking to Donald and tips him off to Jap plans several times, resulting in Donald becoming a hero. But each time Donald explains that a mule tipped him off, the lieutenant is tossed into the psycho ward. Patricia Medina, in the role of an Axis spy, enters Donald's camp and is trying to learn from him how he has successfully thwarted Jap troop and plane movements when she is exposed and arrested. Donald has almost fallen for the pretty spy when this happens. The story ends with Donald and his mule living happily together after the war.

Because of the excellent work, done by members of the Bethel 4-H Club in Bath county, the Parent-Teachers Association is buying a sewing machine for them.

OBITUARY

Of Mrs. Julia Frances Littrell.

Beautiful hands that nearly five score years have wrought for others, soothed the hurt of tears, rocked children's cradles, eased the fever's smart. Dropped balm of love in many an aching heart. Now folded like wan rose leaves pressed above the silence of her breast. In mute they tell of labor done, and well earned rest at set of sun.

Again death has invaded our midst, and we today pay our last tribute of respect to a mother of four generations.

Julia Frances Morris was born October 29, 1854 near Verona, Ky. She was one of five children born to Mr. and Mrs. Lewis Morris. The others, John, Conner, Maggie, and Eddie have all preceded her in death many years ago. Her father, being a Baptist minister, Julia early in life accepted Christ as her Saviour, and united with the New Bethel Baptist Church near her home at Verona.

On February 6, 1873, she was united in marriage to Andrew Jackson Littrell who was born July 9, 1851, in Wayne Co., Ky. To this union were born ten children. Of these five grew to man and womanhood, Robert, William Conner, Maude, and Claude. Robert passed away, April 18, 1918, and Maude, who became Mrs. Marion Walton passed away July 23, 1937. Mother Littrell lived most of her early life near the place of her birth with exception of three years spent in Kansas.

When old age began to creep, this aged couple moved from the farm to Florence, Ky., where they lived, till their health began failing so they could not care for themselves. Then they were brought to the house of their son, William on August 26, 1938.

Here it was, the husband and father passed away on Dec. 20, 1942 after nearly 70 years of married life. Another bereavement to her was the passing of her oldest grandchild, Thos. J. Littrell on May 17, 1947. The latest 3 years she has been almost a constant sufferer, yet tried very hard to be jovial and cheerful until pain and suffering became so intense, she many times said she was ready to go. At last, too tired, tollown, and weary for further resistance, she bade us adieu, and passed away in the early morning hours of May 13, 1950, at the age of 95 years, 6 months, and 14 days. She leaves 3 sons, William, Conner, and Claude, 23 grandchildren, 46 great-grandchildren, and 5 great-great-grandchildren; also nieces and nephews.

We are lonely, and we miss her, And we mourn her now that she's dead.

But to spare us all our heartaches Would we call her back to our own? Would we want her here to suffer All life's misery in our stead? Would we buy our days of comfort With her hours of endless pain? It was sweet to have her with us, And it's often now we mourn, But would we have her suffer Just to have her for our own? God has called her up to Heaven, That she nood not suffer more And she dwells in perfect splendor On that not far distant shore. We watched her in her anguish, We saw her in her pain, Now to spare ourselves this heart-ach.

Should we call her back again? She is safe in Heaven's keeping. She is free from hurt and pain So to save us from our weeping, We should not call her back again.

So goodbye, Mother, may a loving Father make your life eternal happier, free from all the pain, heartaches, and disappointments that are so common to this life on earth, and we hope to meet you some bright morning.

Funeral services were held at the Clevenger Funeral Home and she was laid to rest in beautiful Maple Grove Cemetery at Brookville, Indiana beside her husband.

—K. F. L.

POWERLINE design

1. Clearance
2. Stability
3. Vision
4. Pulling Power

Here's a different kind of family farm power. Tubular Powerline Design eliminates the tractor frame. You SEE clearly... on both sides. There is less dead weight... more active power... more real pull.

Raised rear axle and offset final drive give you high clearance for tall crops, yet hug-the-ground stability of sturdy, low-set drive wheels. Weight of both the transmission and differential over the rear axle plus non-freezing liquid in rear tires give traction enough to match the big 125-cu. in. engine.

Ask us for a demonstration on your farm.

buttons down the front of the bodice and cap sleeves. The full skirt ended in a long train. Her fingertip veil of imported French illusion, fell from a simple designed headpiece which was encircled by tiny pearls. She carried an artistically designed bouquet of lily-of-the-valley intermingled in rare white, summer flowers.

Mrs. Cress chose for her daughter's wedding, a navy blue dress with white and matching accessories. Her corsage was of white carnations and stephanotis. The groom's mother was attired in an aqua dress with white accessories. She too, wore a corsage of white carnations and stephanotis.

A reception at the church immediately followed the ceremony. The happy couple left Monday for a wedding trip to an undisclosed destination. Upon their return, they will reside in Hebron where they have a newly furnished apartment.

ARNOLD-KIRKPATRICK

(Continued From Page One)

snug fitting bodice pointed in back and front had a row of satin-covered buttons down the back and long sleeves pointed over the hands with net ruffle. The nylon net skirt over satin was trimmed with a ruffle of wide chantilly lace beginning at the waistline on each side of the full skirt and extending around the long circular train. Her three-tiered veil of silk illusion was attached to a half bonnet of illusion dotted with white forget-me-nots. She carried a colonial arrangement of stephanotis and white orchids tinged with purple interspersed with asparagus fern and tulle and streamers of white satin ribbon. She wore a necklace of pearls, a gift from the groom. Attending the bride were Miss Roberta Reynolds maid of honor. Bridesmaids included Miss Francis Kirkpatrick, sister of the groom and Miss Alva M. Tupperman cousin of the bride.

The attendants wore dresses of pastel green, yellow and orchid respectively all of organdy over tulle fashioned off shoulder with bouffant skirts, matching headpieces and carried colonial bouquets of yellow featheredged carnations and larkspurs with streamers of matching ribbon and tulle.

The flower girls, Karen and Kay Ellen Arnold, nieces of the bride wore pink and blue organdy respectively and carried baskets of flowers of rainbow hues.

Kathy Arnold, niece of the bride was trainbearer and was dressed in peach organdy.

Master Norman Goldman, of Detroit, cousin of the bride was ringbearer. Best man for the groom was O. K. Minnick of Lawrenceburg, Ind. Ushers were Lyter Kirkpatrick brother of the groom; Walter (Buddy) Arnold, brother of the bride; Sherman Peeno, Jr. and Robt. Randall.

The groom, his attendants and Mr. Arnold were all in formal attire and wore yellow featheredged carnations. Mrs. Arnold, mother of the bride was attired in a gown of cream lace accented with a purple orchid corsage and black accessories.

Following the ceremony a reception was held at the Florence Community Center, where members of the bride's graduating class assisted in dispensing hospitalities to over 200 guests. The bride cake was a large three-tiered creation, beautiful and delicious. The gifts were numerous and beautiful.

Following the reception the happy couple left for a motor trip thru the Smoky Mountains. Following the trip the bride donned a two-piece suit of navy blue gabardine with blue and white accessories. The bride graduated from Florence high school in the class of '49 while the groom was a graduate of Hebron high class of '47.

Mr. and Mrs. Kirkpatrick will reside near Rising Sun, Ind., where they have purchased a home.

Out of town guests attending the wedding were: Mr. and Mrs. Keith Lemmon and daughter Susan, Mrs. Jos. Goldman and son Norman and Don Lowe, all of Detroit; Clarence Craddock (a great uncle of the bride) and wife, Miss Phyllis Craddock and Wm. Brown, all Dayton, Ohio; and Misses Frances and Pauline Kirkpatrick, of Midway, Ky.

Hebron Defeats Florence While Sand Run Trims Burlington Nine.

Big Bone continued to be the class of the Boone County Saturday Afternoon Baseball League after last week's games. The league leaders who are undefeated added another win to their list of victories. They trimmed the Grant boys by a 19-5 count at Big Bone. Ryan, Black and Stephens divided the pitching chores for the winners with Ryle, Cason and Roland serving them up for Bellevue.

Mid-Valley Pipeline Project Nearing Completion, Is Word

Entire System Is Expected To Be Completed In October.

A 120-mile section from Cincinnati to Lima, Ohio, most northern part of the 1,000-mile Mid-Valley crude oil pipeline which will stretch from Longview, Texas, to Lima, Ohio, will be completed this month and in operation the first week in July, according to E. F. Morrill, vice president of Mid-Valley Pipeline Company.

The entire system, on which 1900 men are now laying pipe, is expected to be completed in October. It is owned jointly by Sun Oil Company and The Standard Oil Company (Ohio), and approximately 50% of the pipe has been laid. Two construction crews of the Mahoney Contracting Company are pushing north from Cincinnati and south from Lima, and the section will short move crude oil to Sohio's refinery in Lima.

The 120-mile section from Haynesville, La., to Mayersville, Miss., is now in operation, carrying crude oil from the producing fields to fill the eight new 81,000-barrel Mid-Valley tanks at Mayersville and to provide crude oil for loading on Sohio towboats for river transportation up the Mississippi and Ohio rivers to Mt. Vernon, Ind., and Bromley, Ky.

Eighty-nine per cent of the pipe for the 22-inch and 20-inch Mid-Valley line, one of the largest and longest interstate common carrier crude lines in the country, has already been delivered and the remaining pipe is being rolled for early delivery.

More than 2,000,000 barrels of oil will be required to fill the line, and an additional 1,000,000 barrels will be needed for minimum working stock in storage tanks, before through traffic in the big carrier can be started. Oil for this purpose is presently being accumulated and stored by Sun and Sohio.

Sixteen contractors are engaged in the work of completing the pipeline. There are eight major contractors on the pipeline itself, operating 12 "spreads" from construction points along the line. Five contractors are building the seven major pump stations and two substations, together with the houses for personnel.

Dedication Services Set For New Booth Wing June 25th

Program Will Be Held On Steps Leading To New Wing.

An invitation has been extended to residents of Boone County to take part in the ceremonies surrounding the dedication of The William Booth Memorial Hospital's new wing, to be held Sunday, June 25, at 2 p. m.

The program, which will be held on the imposing colonial steps leading to the new wing, will be broadcast over the hospital's loud speaker. The street in front of the hospital will be roped off and lined with chairs for the hundreds of guests expected to attend. There will be inspirational addresses, music and escorted tours of the wing. Senior Major Alvena Wood, Superintendent of the hospital; Senior Major Paul Seiler, Divisional Commander of the Salvation Army; R. D. Martin, Director of Public Relations; and officials of the institution will head the large and impressive hospitality committee which will greet arriving guests.

The hope has been expressed that all volunteer workers in the institution's Building and Annual Maintenance Campaigns will be present. Representing a happy departure from the regular "sterile white" institutional pattern, the furnishings and decorations of the new 3-story wing combine cool color tones, beauty and symmetry of design, to produce an atmosphere commonly associated with gracious living that might well prove an incentive to speedy convalescence.

Ninety-two feet long and forty feet wide, the new wing, which was erected at a cost of \$300,000, incorporates a spacious reception room, Office of the Superintendent and other administrative offices, Doctors' Consultation Room, Medical Records Library, 18 private rooms, two-bed rooms, four four-bed rooms, janitor's supply rooms, and stretchers and wheelchairs closets. Terrazzo floors, two-toned mica tiles in rich shades of tan and rose and blue and grey, acoustical ceilings, and fluorescent lights are featured in the corridors and in the administrative offices. Aluminum framed windows are throughout.

Washable fabric walls in soft pastel shades of blue, yellow, rose and green accented with lovely floral designs and sycamore furnishings are in the patients' rooms. The beds will be equipped with "safety steps" to facilitate patients getting in and out of bed. All rooms will also feature night lights and two-way ceiling lights; lavatories and ample closets.

Boone County Masons Plan Countywide Picnic and Get-Together At 4-H and Utopia Fair Grounds, Saturday, July 1

All-Day Affair Expected To Attract 1000 Persons; Program Starts At 10:00.

The six Boone County Masonic lodges are sponsoring an old-fashioned family basket picnic at the 4-H and Utopia Club Fair Grounds, Burlington, on Saturday, July 1. The program starts officially at 10 a. m. and will continue until 4:00 p. m.

Robert Ellis, general chairman of the picnic stated that a splendid program has been arranged. There will be games and stunts for young and old alike, a softball game, a parade around the grounds, with a prize going to the lodge having the largest percentage of its members present. The parade will be led by the Boone County Consolidated School Band under the direction of Bro. Dean Bloss.

Ice cream, soft drinks, tea, and coffee will be served throughout the day by members of the various lodges who will operate the stands.

At the noon hour an old-fashioned picnic dinner will be served on the tables which will be set up on the beautifully shaded grounds. By an old-fashioned picnic table it is meant that the food is placed on a long table (this one will be a half mile long) and the celebrants start down the line and fill up their plates again and again until that extra taut feeling around the middle eventually arrives. Arrangement of the food will be under the direction of Robert Orr, past master of Verona Lodge No. 876 and fifty assistants from the six lodges.

An estimated crowd of 1,000 is expected to attend this event and from advance information, it is believed that this figure will be reached. Each family attending is urged to pack a picnic basket, containing a sufficient amount of food to take care of the needs of the family, plus one visitor. Drinks will be furnished by the lodges.

Containers used in bringing food to the picnic should be labeled by writing your name on adhesive tape and sticking on the bottom of your dish or pan.

At 1:00 p. m. a concert will be enjoyed by the Boone County Band, followed with presentation of Masters of the six Boone County Masonic lodges, presentation of the Masters of the four Eastern Star Chapters and instruction of all the Boone County Masonic preachers.

Grand Lodge officers will be introduced at 2:00 p. m. along with other distinguished guests.

A softball game will be enjoyed at 2:45 p. m., followed by awarding of prizes at 3:30.

During the day twenty-five year members will be awarded lapel pins and recognized from the platform. All members to receive such pins are requested to be present for the picnic and get-together.

Guests of honor who will attend the picnic are as follows: Edwin E. Freshney, Dep. Grand Master and Mrs. Freshney, Park Hills, Ky.; J. Heber Lewis, Grand Senior Warden, Burnside, Ky.; Alpheus E. Orton, Grand Secretary, Louisville, Ky.; Arthur W. Riggs, Grand Junior Deacon, Covington, Ky., and Mrs. Riggs; Edgar B. Hawes, Grand Tyler and Mrs. Hawes, Louisville, Ky.; D. P. Jones, Secretary, Excelsior Lodge No. 3, Jonesboro, Louisville, W. O. Rouse, District Deputy Grand Master, Walton, Ky.; Luther F. Morgan, Supdt. Old Masters' Home, and Mrs. Morgan, Shelbyville, Ky.

Band To Furnish Music
The Boone County School Band will furnish music at the picnic, giving a concert, solos and music selections throughout the day. Members will report at 9:45 dressed in white. Food and drinks will be free to all band members.

The band concert, introduction of speakers, stunts and games and grand parade will be in the arena, which will be used throughout the day by the group.

Plans were completed Monday night at the final meeting of the committee, and all Masons and their families in this section are urged to take advantage of this first picnic and get-together in Boone County.

Spence Announces Candidacy For Congressman

Believes Continuous Service More Effective; Heads Currency Group.

Brent Spence makes his formal bow to the voters of Boone County and the Fifth District in this issue of the Recorder announcing his candidacy for Representative from the Fifth District of Kentucky in the Congress of the United States, subject to action of Democratic primary, Saturday, August 5, 1950.

In making his announcement Mr. Spence makes the following statement:

"I announce my candidacy for nomination in the primary election on August 5 as Representative from the Fifth District of Kentucky in the Congress of the United States. "Because of my continuous service I have attained a position that makes my representation of the people very much more effective than it would otherwise be. There are only sixteen Committees in the House of Representatives, and I am Chairman of the Bank and Currency Committee, one of the most powerful and busiest in the Congress.

"It would be absolutely impossible for me to state in a short announcement all the great constructive and remedial legislative measures covering a wide field of important subjects that have been reported by the Banking and Currency Committee and enacted into law by the Congress. We reported the housing bills which have given an opportunity to many citizens to build or purchase homes which,

they otherwise could not have obtained. We housed the Federal Deposit Insurance Corporation which insures the deposits of each depositor in the banks up to \$5000 and has given a greater stability to and confidence in our banking institutions. We created the Commodity Credit Corporation, the Federal agency which has made money available to provide support prices and adequate grading for tobacco and to enable the Burley Growers Cooperative Association to purchase it as agent of the Commodity Credit Corporation. This I consider one of our most important measures to all the country, recognizing the fact that steady employment of labor, the stability of business and a balanced economy all depend on the prosperity of the farmer and that he must be able to dispose of his crops at a fair price to keep labor employed and business maintained on a high level.

"As a member of Congress and Chairman of my Committee my experience and knowledge of the problems of the people are qualifications which can and will be used in the future as in the past for the benefit of our citizens.

"The following statement appeared in an article in the Kentucky Post on June 17, 1950:

"Congressman Spence is responsible largely for the Great Cincinnati Airport, for numerous post office buildings, for floodwalls and for the Ft. Thomas Veterans Hospital. As chairman of the House Banking Committee, Mr. Spence also has fought for housing legislation. Thousands throughout the country and several hundred in our own area have homes to shelter them because of his work."

"My duties in the Congress have demanded my constant presence, and I have not been able to return home as often as I wished. However, before the Primary I expect to return and give an accounting of my stewardship and discuss the issues of the campaign.

"I am deeply grateful to the people of the Fifth District for the confidence they have reposed in me and for many kind wishes to me through the year. If re-elected to Congress, I shall devote my constant energy and ability to meriting the best interests and the happiness and prosperity of all our people."

Good Pitching Features KAG Play In Sunday Games

Bob And Gene Marks Up Eighth Victory Of Season, Trimming Ghent.

Good pitching was the feature of KAG baseball play last Sunday and as a result there were three shut-out performances and several other low scores posted.

Bob and Gene hung up their eighth win of the season as they whitewashed Ghent 12 to nothing at Florence. Raue and Mignerey hurled for the winner and between them gave only four hits. The Bob and Gene team clubbed Louderback for 12 hits including a two-run homer by Hoffer.

Boone County VFW was the victim of some classy pitching by Bill Bishop of Charlie's Cafe team and thus lost a one to nothing decision to the Cafemen. Bill McBee of the losers got two singles and that was all of the VFW offense as Bishop fanned eight and issued but two walks. Holmes was on the mound for VFW and gave six hits.

Constance Wins
Constance won their fifth game of the campaign when they defeated the defending champion Hudephol team five to two at Ross. Graving hurled for the winners with Rizzo working for the Huddies. Schmidt, Doyle, Gillett, Dittus and Graving led the 12-hit Constance attack.

Verona's pitching of Mike Ryan and Elmo Steffen held Highway Merchants to one hit, but it was a home run with two men on in the fifth and the Veronians were pressed to win four to three. Bob Baute was the loser, but it was his home team that almost defeated the home team. Brown, with three hits, led the winners' offensive.

Other Scores
In other league contests Newport Stealers took Falmouth five to one, and the team of Roland and H. Ryle pitched for Bellevue and gave up 14 bingles. Roland, Scudder, Williamson and H. Ryle, paced the winner's attack while D. Ernst, Peeno and Marshall collected nine of the loser's fourteen hits.

Burlington defeated Florence in the only other league game played.

Game Next Saturday
Hebron at Burlington
Sand Run at Bellevue
Florence at Big Bone.

All-Star Contest
The second all-star game between players of the Boone County League will be played at Big Bone Tuesday afternoon, July 4. Outstanding players from the Big Bone, Bellevue and Burlington teams will lineup against a select team from Florence, Hebron and Sand Run. Game time will be three thirty o'clock.

Sunday School League
Big Bone trounced the Sand Run nine in the Boone County Sunday School League Saturday at the losers field by a score of 6-2. Gullion was on the hill for Big Bone allowing only three hits. While Hodges was on the mound for the losers.

Burlington snapped out of losing streak in a free hitting game with Bullittsburg at the Burlington park Saturday by taking a 12-3 decision from the visitors.

Burlington had 12 runs, and 21 hits, while Bullittsburg had 3 runs and 14 hits. H. Holliday was on the mound for Bullittsburg, while H. McFarland hurled for the Burlington team.

Petersburg took a 7-1 decision from the Hebron team Saturday afternoon. The winners collected 14 hits from the offerings of Walton, Hogan and Tanner, while Campbell held the losers to 4 hits.

Ted Stephens led the winner's attack with three hits, while Jim Tanner led the offensive for the losers with two bingles.

Saturday Games
Hebron at Bullittsburg
Petersburg at Sand Run
Burlington at Big Bone.

Constable Must Be Elected For Boone County
John B. Browning, assistant attorney general ruled last week that Boone County should hold an election for the office of constable this year, to fill a vacancy.

Browning issued this information following a query from Judge L. C. Cropper. The assistant attorney general ruled that the post should be filled by appointment by the judge until an election could be held.

It was cited that ordinarily a constable or local officer could not be elected this year because this is a federal election year in Kentucky. But because an appellate judge will be elected this year in the Sixth District, which includes Boone County, the ballot will have a district election "flavor" and a constable's race is in order, according to the opinion.

Entry Blanks Mailed For Lawrenceburg Horse Show Set July 23

Entry blanks were mailed this week to more than 300 horsemen in Indiana, Ohio and Kentucky for the Phi Beta Psi Charity Horse Show at the Dearborn County Fairgrounds, Lawrenceburg, Ind., on Sunday, July 23, Miss Suzanne Ohler, chairman, announced.

The big show will be divided into two sessions this year with the preliminary in the afternoon starting at 1 p. m. and the stake events to start at 7 p. m. that evening.

Proceeds of the event will be spent for charitable purposes by the sorority. This will be the fourth annual show.

The show will include 21 different classes with liberal cash awards, ribbons and trophies for the winners. The event which is sponsored by the Phi Beta Psi sorority of Lawrenceburg, will make a fitting "opener" for the big Dearborn County Fair on July 24-29th.

The judge of the show will be Homer Murray of Bowling Green, Ky. Bruce Miller of Lawrenceburg, will be ringmaster and Earl Huffman of Aurora, will be the announcer.

Lizer-McArthur

The marriage of Miss Martha Lois Lizer, daughter of Mr. and Mrs. Howard Lizer, and Floyd E. McArthur, son of Mr. and Mrs. Hugh McArthur, was impressively solemnized at 8:00 o'clock on Friday evening, June 23, at the Burlington Baptist Church. Rev. R. A. Johnson, pastor of the Burlington Baptist Church, officiated at the double-ring ceremony.

The altar was beautifully decorated with bouquets of white gladiolus against a background of fern and lighted with massive candleabra. Large white satin bows on fern decorated the church pews.

Mrs. Allen White, sister of the groom, softly played a piano solo, "Clair de Lune," as the wedding began. Appropriate organ music was furnished by Mrs. Robert Clore.

Mrs. William Jarrell, cousin of the bride, sang "I Love You Truly," "Always" and "Because." As the bride and groom took their places at the altar she sang "The Lord's Prayer."

Mrs. J. D. Jarrell, sister of the bride, was matron of honor and John Carroll Rogers, close friend of the groom, was best man. J. D. Jarrell and Wayne Kelly served as ushers.

The bride, given in marriage by her father, was lovely in a gown of imported chintilly lace over slipper satin. Her gown was fashioned with a high neck line, cap sleeves, tiny round collar, small pearl buttons down the front to the waist, and a gathered street length skirt. Her shoulder-length veil was of white French tulle, held in graceful folds by a head piece of white satin with strands of pearls adorning the front. The bride's bouquet was the traditional white orchid on a white ribbon with satin streamers.

The matron of honor wore green tulle marquisette with white ruffled flowers over taffeta. Her gown was styled with a low round neck and large collar, puffed sleeves and a full skirt. Her hat was green nylon tulle over taffeta. She carried orchids on a Bible with matching streamers.

Mrs. Lizer chose a navy blue sheath dress for her daughter's wedding. Mrs. McArthur wore a green linen suit. Both had corsages of pink roses.

A reception was held in the church basement following the ceremony. After the reception, the happy couple left for a brief honeymoon. The bride wore a blue gingham suit with a white orchid.

The bride is a graduate of Burlington High School and has been employed by the Union Central Life Insurance Co., Cincinnati. The groom, also a graduate of Burlington High School, served three years in the Navy Signal Corps, and is now employed by the Cincinnati Gas and Electric Co.

The young couple are now residing in their newly furnished apartment in Burlington. Their many friends join in wishing them a long and happy life together.

Bicycle Race Will Be Feature of Program, According To Officials.

A new feature to the Boone County Utopia Club Horse Show will be a bicycle race, sponsored by Carl Foltz, Dudley Pike. Seven trophies have also been added to the list of prizes and will be donated in addition to the regular prizes offered by the club.

The horse show will be on Monday night, July 3, Tuesday afternoon and evening of July 4. The evening shows are scheduled for 8:00 p. m. and the afternoon show at 2:00 p. m. at the Boone County 4-H and Utopia Fair Grounds, Burlington. An exceptionally fine interest has been shown by horsemen, sponsors and the general public, in this coming event.

There will be no entry fees and only a very minor stall charge and this will include one bale of straw.

The main events at the show are to include Western Parade, Musical Chair, Shetland Ponies, and other ponies, three and five-gaited horses, walking horses, road horses, fine harness horses, boy and girl riders, pleasure horses, saddle colts, junior stake and single or double pony fancy turnout. The prizes are very liberal and it is believed that there will be a larger group of horses than last year.

It is hoped to make this second annual horse show a yearly event. You are urged to come and help the Utopia Club make this show a success.

Operators' License Will Be On Sale During Month of July
Renewals of Motor Vehicle Operator's License for 1950-1951, commonly referred to as "operator's licenses," will be on sale at the circuit court clerk's office in each county during July, Paul Boyd, Operator's License Section, Department of Revenue, announced.

Boyd called attention to two important changes in the law. Kentucky Military Extension Permits become void on July 1, 1950. Operator's Permits from the United States are good only while operating official vehicles in the course of service. Military personnel must have a regular State Motor Vehicle Operator's License the same as a civilian, when operating any privately owned vehicle on the highway.

On and after July 1, the holder of a Military Extension can surrender this and obtain an original operator's license without an examination.

The other important change is that no operator's license of any type can be issued to anyone under 16 years of age. Licenses issued for operating a 5 HU Motor vehicle or a motorcycle will be identified as such on the face of the license and cannot be used for the operation of a regular automobile.

Applicants for any type of operator's license between 16 and 18 years of age must have the father or legal guardian sign that he assumes responsibility under the Operator's License Law, Boyd said.

Occupational Licenses Must Be Obtained By July 1

Robert A. Thompson, Director of the Local Relations Division, Department of Revenue, announced that state occupational licenses for the license year 1950-51 must be obtained by July 1.

A \$10 license is required for each restaurant serving hot food, hot drinks or both, to the general pub-

lic and a \$5 license for each retail outlet of soft drinks or ice cream. For each billiard or pool table or bowling alley, regardless of size, where a fee is charged directly or indirectly, the license is \$30 for the first table or alley plus \$5 for each additional table or alley. Each retail outlet for tobacco products must pay a \$10 license fee and a cigarette wholesale license is \$25. Theaters must pay 20c per seat

occupational license, and this means any building in which moving pictures, vaudeville, musical entertainment or plays are regularly given. Drive-in or open air theaters are calculated on a basis of two seats for each parking space for a motor vehicle.

Occupational licenses are issued by the county court clerk in each county and run from July 1 to June 30 each year. It is the responsibility of the operators to obtain the proper license. There is a 20% penalty on operators who fail to obtain them by July 1. The above fees are state fees and do not include clerk's fees.

HISTORY OF JOHN P. GAINES

Text of the paper presented by Mr. Bradford follows:

During the year 1795 there was born at Augusta, Virginia, (now West Virginia) a boy who not only helped to make history of Kentucky, but national history. This boy was John Pendleton Gaines, who came to Boone County about 1808 and at the age of seventeen enlisted as a soldier under William Henry Harrison during the war of 1812, and endured many hardships in the Michigan forests and around Lake Erie. At the close of the war he returned to his farm at Richmond, and became one of Boone County's early pioneer farmers and allied himself in a political way with the Whig Party and in 1825 he was elected to represent Boone County in the lower house of the General Assembly and so well did he perform his duties that the people continued to elect him to this office until 1836.

From 1836 to 1845 Mr. Gaines, in addition to farming, took an active part in politics and in 1845 made the race for Congress against John W. Tibbatts who was a resident of Campbell County. Mr. Tibbatts was a congressman at this time, he

having in 1842 defeated William K. Wall, a very prominent politician from Harrison County by 343 votes in the whole congressional district. We have the old poll sheets at hand in the Florence precinct and find that Mr. Gaines, on August 4th, 5th, and 6th, 1845, received (in those days elections were held three days) 156 votes against Mr. Tibbatts' 137 votes, but in the whole district Mr. Tibbatts was reelected congressman.

Mr. Gaines having been defeated as a member for Congress and war with Mexico having been declared, on the 11th day of May, 1846 Mr. Gaines volunteered his services and was chosen major of the first regiment of Kentucky Cavalry and was stationed along the Rio Grande River, taking part in the famous battles of Buena Vista and Palo Alto, but was captured by General Minon at the battle of Encarnacion.

Mr. Gaines did not remain in prison very long but escaped and joined the forces of General Scott which were marching toward the Mexican capitol and had the honor of being the only volunteer from Kentucky who helped in the famous charge at Chapultepec, Churubusco, and the Walls of Mexico.

On March the first, 1848, the Legislature put the following on record: "Resolved: That Major John P. Gaines, Captain Cassius M. Clay, Lieutenant Geo. Davidson, and their thirty companions in arms, who were taken prisoners by a force of 30,000 Mexicans under the command of General Minon at Encarnacion, deserve the thanks of the people of Kentucky for their bravery and their cool determination to maintain the reputation of Kentucky."

When escape was impossible and destruction inevitable, that Major John P. Gaines has won the admiration of the people of Kentucky by honorably withdrawing his parole as a prisoner of war, when ordered by General Lombard to go to Tabasco, by his escape through the lines of the enemy and his successful junction with the American army and his gallant bearing before the Walls of Mexico."

One June 8, 1847, while Mr. Gaines was a prisoner of war in Mexico, he was nominated for Congress by a Whig Convention at Covington, Kentucky, and elected over General Lucius B. Desha, a Democratic candidate.

While in Washington as a Congressman he became acquainted with President Fillmore who became President at the death of President Taylor, July 9, 1850. One of the first appointments that President Fillmore gave was to John P. Gaines as Governor of the Oregon territory. When Mr. Gaines received this appointment he owned a large farm at Richmond on the Ridge Road and he had a son, while as he was well located and financially well-to-do, President Fillmore finally got him to accept the appointment and he sold his farm and all his personal property, intending to make Oregon his future home and had all his money (\$75,000.00) in silver when he started.

His family consisted of wife, son, and two daughters; all of which he took with him and set out on a journey to New York City where he took the store ship supply as he proceeded to his destination in 1850. Yellow fever became prevalent on the ship as they were near the Brazilian coast. The two daughters were attacked by this deadly pestilence and one of them died when near the coast line of the island of St. Catherine's.

This island, which is about thirty miles long and ten miles wide, lies about four miles from the Brazilian coast and in 1850 had a population of 30,000. The capital of the island is Doctero and it had a population of 8,000. Very few of the people at that time could read or write, in fact their island was a wilderness of coffee and orange trees, shrubs, and foliage that never felt the frost.

During that period our consular agent was Robert S. Cathcart, a native of Massachusetts, once the captain of a whaler. Misfortune in early life drove him into exile and here he had married a Brazilian woman and reared a large family and became very wealthy.

Mr. Gaines had the ship to anchor here and he got in contact with Mr. Cathcart (our agent) and Mr. Cathcart made arrangements for her grave on the back of his estate. While this procedure was taking place the other daughter died, following her sister to her last home in a land of strangers. Mr. Gaines was deeply affected and seemed to sink into a state of deep depression, encountering such a blow before reaching the scene of his future labors and life. He did not mark the graves with a fence or a tombstone, expecting soon to have the remains removed to his new home in Oregon, but they still remain there. After the two daughters had been laid at rest, the ship supply proceeded around Cape Horn to Oregon and no sooner did Mr. Gaines get located than his son took sick and died of that dreaded disease, consumption. A very short time thereafter his wife, while riding a horse, was thrown to the ground and killed and at last Governor Gaines himself, crushed by blow after blow and bereft of all held dear, sunk to the grave in what was almost as much a land of strangers to him as St. Catherine's to his lovely daughter.

About 1857 the U. S. Steamer Metacommet, on her way to Paraguay, called at this island of St. Catherine's and the officers, hearing of the sad affair, ordered a wooden

tablet to be erected to perpetuate the memory of this solitary spot, but did not erect any permanent monument or clear away the brush, or put up a fence; probably from want of material or time. There was no stone-cutter on the ship or on shore or marble slabs to be had. The officers were content with what was humble.

During 1859 and 1860 the officers of the Metacommet and the Powhattan, making another trip to Paraguay, anchored here and found the spot, cleaned the grass and shrubs away, and let the sunlight in of ten years' repose upon these fair young sleepers.

A nice slat fence was erected around the graves and painted, and a thick, well-carved plank, which would endure for many years, was erected between the graves of the two sisters whose Christian names were not known. The following is the inscription that was placed upon this plank: "Sacred to the memory of two daughters of Governor Gaines of Oregon, who died of yellow fever on board the United States Ship Supply in 1850, while on their passage to Oregon. Ground cleared up and enclosed by officers of the United States steamers Metacommet and Powhattan in 1859 and 1860."

One of the officers of the ship had this to say, "A spot of greater natural beauty can hardly be conceived, one of such utter loneliness I never saw. I walked around this cemetery and looked upon the graves again and again, calling up the history of these fair sleepers in this distant land, and the fate of the unhappy family till the luxury of sorrow became painful, and I gathered up some memorials of the sad spot and returned to the ship."

Mr. Gaines held the position of Governor of this Oregon Territory until 1853 when he came into serious conflict with the Territorial Legislature, notably over the location of the capitol.

NEW SUBDIVISION

ABSOLUTE AUCTION

70 LOTS - BLUE GRASS SUBDIVISION

FLORENCE, KY.

Mrs. Fanny Scott of Florence, Kentucky has contracted with me to sell at absolute auction her 70 lots located on Highway 42, at the city limits of Florence, Kentucky, on

SAT., JULY 8 - 1 P. M. Sharp

(Cinti. Time)

It is hard to find words to describe these beautiful building lots. Blue Grass Subdivision has been laid out by a registered engineer. Natural drainage makes it an ideal piece of property for a subdivision. It's located in one of the best residential sections in this community.

There will be lots fronting on U. S. Highway 42, as large as 70x200, also 60x200, and some of the back lots facing the street running down to 50x150. Blue Grass Subdivision will be restricted. Inquire about restrictions—sure they will be satisfactory to any prospective buyer.

THIS IS A RARE OPPORTUNITY TO BUY LOTS IN A COMMUNITY OF THIS KIND. A CLEAN AND HEALTHY PLACE TO LIVE, JUST A FEW MINUTES DRIVE TO CINCINNATI FROM FLORENCE, WHERE YOU HAVE BUS SERVICE EVERY 10 OR 15 MINUTES, SCHOOLS AND CHURCHES OF ALL DENOMINATIONS. A PERFECT PLACE TO BUILD.

This would be a good investment even though you are not planning on building. It's in a growing community where property will be sure to increase in value.

Notes and Comments

From the Editor's Desk

Point of No Return
Free markets must be kept clear of bureaucratic controls if the United States is to continue to progress, said J. Howard Pew, of the Sun Oil Company, in an address before a group of distinguished scientists. He then added: "There are men in our own country today clothed with political power who are diligently striving to socialize industry, medicine, education, labor and security. This is a totalitarian program and cannot be reconciled with the economy of the free market. . . I warn you that we are rapidly approaching the point-of-No-Return on Freedom's Highway."
Does anyone believe that American industry would have progressed to its present development had government controlled it in the past? In answering that, think of the oil industry as a typical example. It is less than a hundred years old. Its pioneers were laughed at as hopeless visionaries who'd lose their shirts. Enormous sums of money had to be spent and no one knew if they would ever be recovered. Great obstacles had to be taken, great obstacles overcome. All of this was done because the men who believed in the oil industry worked in an air of freedom where individual enterprise and ability could take the risks—and reap the rewards, if any. What socialized country has such blessings as the United States?

What is true of the past is true of the present. It will be true of the future. The free economy is the only kind that brings out the best in people. It is the only kind which makes certain—through the irresistible force of competition—that the people will be given what they want at the lowest possible price. And, most important of all, it is the only kind which is compatible with human freedom.

Save Our Woodlands
Wildlife Management Institute states that about 30,000,000 acres of woodlands probably will be burned this year. But, it goes on, if some simple rules recommended by the U. S. Forest Service are followed, farmers and other landowners may have their acreage from being added to that tragic total.

These precautions are all basic, and all are relatively easy and inexpensive to put into effect. Fire lanes of from four to six feet wide should be ploughed between your woodlands and adjoining woodlots. Firebreaks should be hoed around any sawmills, cottages and other structures in the woods, along with picnic spots, to prevent the spread of fire. Tree tops and limbs left by loggers should be broken into small pieces and scattered to hasten decay. Debris and trash should be cleaned up around buildings. Firefighting tools should be available, and wells kept clean and in good repair. Each owner should work out a mutual fire prevention program with his neighbors. Dry weeds and grasses on open strips around forest edges and on roads adjoining or crossing the property should be cut.

A little time, and a very small amount of money, will do the job. And if it is done, a very high degree of fire security for the property involved will be attained. After all most fires—whether in woodlots or anywhere else—are the result of human failure to take simple precautions.

Sound "Public Ownership"
Would you like to hire the head of General Motors, U. S. Steel, or the head of any other successful corporation to work for you? You can do that by investing a few dollars in a share of stock in the company of your choice.
This is a privilege which has been exercised by many millions of Americans, most of whom are people of moderate means. They have put a part of their savings in what they consider sound stocks of various companies. And the result is a form of "public ownership" of industry which is the direct antithesis of government ownership and socialism.
However, ownership of industrial shares is not nearly so widespread as it should be. One recent survey indicates that farmers, for example, know very little about stocks—70 per cent said they wouldn't even know where to go to buy them. And when asked to name their idea of a good investment, aside from their own farms, but six per cent mentioned stocks of industries, while 30 per cent mentioned government bonds. Yet, as a matter of fact, in an inflationary period such as we are going through, stocks in good companies are much more likely to hold their purchasing power than bonds, whose value is fixed in terms of dollars.
There is risk in industrial stocks,

there is risk in government bonds, there is risk when a farmer plants a crop, there is risk in the price of land—but there is also income and the opportunity for profit. That is what makes business.

Stock markets do not exist for the convenience of a handful of plutocrats. Their purpose is to provide buying and selling centers for American enterprise and the millions of men and women who want a share in this country's economy.

Bob & Gene Nine Maintain Lead in KAG Baseball League

By Defeating Newport Steelers; Constance Takes VFW Team.

Bob and Gene, leaders of the KAG baseball league for the past several weeks maintain that lead at least for one more week as a result of their one to nothing win last Sunday over Newport Steelers at Florence. The charges of Manager Bob Eades, behind the brilliant pitching of Ray Mignerey who allowed the Newporters only five scattered hits in the final inning on a double, an infield out and a single. Burlington and Big Bone Will Meet At Burlington Saturday

Big Bone, Burlington and Sand Run Chalk Up Victories Saturday.

Boone County Saturday Afternoon Baseball League fans will see what is probably considered the two best teams in action Saturday when league leading Big Bone plays Burlington at the latter's park. Burlington will be at top strength Saturday and will be gunning to hand Manager Dale Williamson's outfit their first loss. For the home team it will be either Deck or Pund on the hill with J. Guley or Smith catching and for Big Bone Check Ryan will pitch with Overberg or Vest behind the bat.

Both Burlington and Big Bone won last week. The locals won a close 5-4 nod over Myron Garnett's Hebron team. D. Deck pitched the winner and allowed six hits fanned 11 and walked five. E. Ernst was the loser as he gave up 10 hits, fanned two and walked four.

Sebree, McBee, and G. Clore had two hits each for Burlington and Goodridge had two of Hebron's bingles.

Big Bone had an easy time as they ran roughshod over winless Florence 21 to 6. The winners banged out 18 hits off three Florence pitchers while Ryan and Stephens divided over the winning-side pitching and gave nine hits. Ryan was the big offensive noise for Big Bone with five hits. Rouse had three of the loser's hits. Bauman of Big Bone and Presnell and Utz, of Florence hit home runs.

Sand Run, behind a 16-hit barrage, clipped Bellevue eight to three at Bellevue. Judy and McNeely formed the winning battery with Ryle and Denniston handling the chores for the losers. Williamson and Denniston of Bellevue and Sprague and Judy of Sand Run did the game's big stick work.

Games Saturday

Big Bone at Burlington. Bellevue at Florence. Sand Run at Hebron.

Bill Passed Authorizing Expenditures of \$275,000 For Kentucky Hatchery

The Senate last week passed and sent to the House a bill to authorize the expenditure of up to \$275,000 for a new federal fish hatchery and rearing ponds in Kentucky.

Senator Virgil M. Chapman, (D., Ky.), co-sponsor of the bill with Senator Garrett L. Withers, said there are 19,000 miles of spring-fed flowing stream and 120,000 ponds and small lakes in Kentucky that require stocking.

"In recent years," Senator Chapman added, "interest in sport fishing has grown until a large percentage of the citizens of our State engage actively in the sport. We have in Kentucky a large number of active sportsmen's club whose large membership devote themselves zealously to the cause of better fishing and hunting. Healthy sentiment exists for the observance and enforcement of conservation laws and regulations. Our streams are well protected and there is avid interest in continuing restocking."

Plans Made To Hold Gathering Annually, According To Reports.

Approximately 600 persons attended the Masonic picnic held at the Boone County 4-H and Utopia fair grounds, Saturday, July 1st, according to reports from committee-men in charge of the picnic.

The picnic opened officially at 10:00 a. m. with a grand parade of members of the various lodges participating, led by the Boone County School Band, with Dean Bloss as director. Verona won the prize for having the largest number in the parade.

Grand lodge officers, pastors of Boone County churches and Masters of the six Boone County lodges were introduced, and made brief talks. Burlington lodge presented several 25-year pins to members.

Wheat Allotments Will Be In Effect For 1951 Crop

According to Joseph A. Huey, County PMA Chairman.

Wheat acreage allotments will be in effect for the 1951 wheat crop, according to word received by Jos. A. Huey, County PMA Chairman from the Department of Agriculture as Washington, D. C. The legislation under which wheat acreage allotments are established requires that they be proclaimed each year by the Secretary of Agriculture, unless a national emergency exists.

The chairman explains that each year the national allotment is based on the estimated needs for the coming year after making allowance for the supply of wheat on hand on July 1, 1950.

Farms on which no wheat was seeded for harvest in any of the years 1948, 1949, or 1951, may apply for a 1951 wheat acreage allotment, according to Mr. Huey. To be considered for an allotment on a new farm the farmer must apply in writing to his county PMA Committee by July 14, 1950.

BIG BONE W. M. S.

The Woman's Missionary Society of Big Bone Baptist Church met at the home of Mrs. Lloyd Marsh on June 8th for an all-day meeting.

Mrs. Bruce Ryle gave a wonderful program on the subject of "On The Rock, or On The Rocks?"

We learned from our lesson our responsibility as Christian parents. Our children depend upon us for Christian leadership. What kind of leaders are we? Can our children look upon us as good leaders?

Churches know they must have a busy, worthy program for her young people. Youth's response to Christian leadership is a tonic to our faith. A happy peaceful world depends upon Christian homes. "I Am What I Am Because of the Way I Was Brought Up," is the testimony of a multitude of people. Men and women who have accomplished great things for Christ testify to the influence of Christian homes.

What kind of influence does your home give your children?

We as parents have a great responsibility. Are we fulfilling that responsibility?

We enjoyed a bountiful covered dish luncheon.

All members who failed to attend missed a wonderful inspiring meeting.

The next meeting will be July 13 at the home of Mrs. Joseph Black. All members are urged to attend.

—Publicity Chairman.

ALFALFA GOES DOWN DEEP FOR MOISTURE

"Deep-rooted alfalfa may be able to get water rather efficiently to a depth of 5 feet and crops like corn and wheat have root systems that feed to a depth of 4 feet," says Dr. W. A. Seay of the Experiment Station of the University of Kentucky.

"These crops are able to go for considerable lengths of time be-

tween rains because of large 'soil reservoir' from which they feed, although corn may suffer at certain stages because of its very rapid growth and need for much water.

"Bluegrass and white clover and many other pasture plants have nearly all of their roots in the top 4 inches of soil and very few roots extend below one-half foot. Due to a much smaller volume of soil from which to extract water, unless we supply 'artificial rain' or irrigation water the pasture suffers from drouth, while corn, wheat and alfalfa may be able to get along fairly well until rain does fall."

Where there is no ground cover rain drops come in direct contact with the soil causing it to splash and wash much faster.

Most soils begin to wash when the run-off gains a speed of five feet per second.

Four Local KAG Teams Victorious In Sunday Games

Bob and Gene Continue To Lead League With Ten Victories.

Boone County's four representatives in the KAG Baseball League emerged victorious in their games Sunday, making the second time this season that they have made a clean sweep. The league-leading Bob and Gene outfit won their tenth game of the season against a lone defeat as they trimmed Charlie's Cafe, six to five at the Florence park. Ray Mignerey went the route for Bob and Gene. He gave seven hits, fanned seven and issued a single base on balls. Bill Bishop worked for the losers and gave nine hits, fanned five and walked three. Hoffer, Arzen and Sebre led the attack for the winners with two hits each.

Boone VFW, Verona Win
Boone VFW edged the Highway Merchants five to two at the winner's park. They took advantage of their nine hits and five Highway errors to ice the game. Guiley and Murphy had two bingles each for Boone VFW.

Verona, behind the five-hit pitching of Steffen, downed the strong Bavarian team seven to one at Melbourne Country Club. Hartig and Guy, Daines pitched for the losers. Williamson, Alexander and Brown were the offensive noise for Verona.

Constance Over Falmouth
Constance poked out 24 hits good for 17 runs as they defeated Falmouth at the loser's lot. Falmouth had nine runs on 14 hits in the loosely played contest. Jack Graving pitched the winner with Wolf, Waddell, Schwartz and Turner working for the losers. Aynes of the Constance team had five hits and Graving aided his own cause with four more.

Next Week
In other league contests second place Grants Lick won a ten to two decision over Ghent and Newport Stealers won a close three to two victory over Aetna Oils.

Next Week
Next week's schedule calls for Constance at Bob and Gene. This will undoubtedly be one of the top games of the season since the Eadsman will attempt to get revenge for an early season loss to the Constance nine. Both teams have strengthened considerably since that time so anything can happen. Ray Mignerey will pitch for Bob and Gene with Jack Graving working for Constance.

In other Sunday games Hadespohl will play at Verona. Highway at Falmouth, Charlie's at Aetna Oils, Newport at Grants Lick and Ghent at Bavarian. Boone VFW baseball team will play the New York Tech, colored team Sunday afternoon, July 16, at 2:30 p. m. at Bellevue park.

Total of \$49,752 Reported In Booth Hospital Drive

"Over Top" Chairman R. C. McNay Announces In Final Report.

The Annual Maintenance Campaign kick-off April 25th with a goal of \$9,300.00 to reach. The last report meeting for workers was held on May 18th at which time workers reported \$47,073.97 leaving \$2,226.03 to be reached. The campaign was extended to give time to bring in late reports. The campaign was declared closed on July 3rd with a total on hand of \$49,752.57.

Booth Hospital has never failed to reach their goal. The reason for such success is found in the 700 workers who will never give up until victory is won. The second victory factor is found in the great number of people, in the seven-county area served by Booth, who are generous friends of Booth.

R. D. Martin, Public Relations Director for Booth says, "The tireless enthusiasm of the workers and the warm hearted response of the public commands my deep gratitude and thanks."

Senior Major Alvena Wood, Hospital Superintendent said, "To the faithful workers and the thousands of generous contributors we extend our sincere appreciation and gratitude. The hospital is indispensable to the health needs of people, and the many workers and the many contributors are indispensable to us. I am happy and proud over the success of the campaign."

Mr. R. C. McNay, president of the Advisory Board and General Chairman of the campaign, expresses his joy by saying, "Add the never-failing efforts of our hundreds of workers and the good-will of the public and the great service of Booth Hospital and you have the answer—success."

Mr. Kirtley Cropper, campaign chairman for Boone County is jubilant over the victory and said, "The workers and worthy service, have always brought achievements of value to the public. Booth Hospital will always win. All of our workers are to be congratulated and commended for a job well done."

FOOD

It takes about 25 bushels of corn or equivalent in other feed grains to produce the meat for every man, woman and child in this country during the year. This is in addition to the feed required to produce milk, eggs, and other live stock products for our people.

The average civilian consumes 380 eggs, 25 to 30 pounds of poultry, 150 pounds of beef, pork, veal and lamb and 750 pounds of milk each year.

This bank has a part in helping to produce this food. May we help you?

NO HEARING AID need sell for more than \$75

I BELIEVE NO HEARING AID NEED SELL FOR MORE THAN \$75.00. HERE IS WHY:

EVEN WITH PRESENT HIGH COSTS OF LABOR AND MATERIALS, IF ZENITH WISHED TO SELL A HEARING AID AT \$200 (WHICH WE DON'T) WE WOULD NOT, EVEN WITH OUR ENORMOUS FACILITIES AND THE MILLIONS OF DOLLARS WE SPEND IN OUR RADIO LABORATORIES ON RESEARCH, KNOW HOW TO BUILD IT BETTER THAN OUR SENSATIONAL NEW MINIATURE \$75.00 INSTRUMENT, NOR DO WE KNOW WHERE TO OBTAIN OR HOW TO USE MORE EFFICIENT MATERIALS.

THE BETTER HEARING AID HAS BEEN BUILT—AND ZENITH HAS BUILT IT.

4-H and Utopia Fair Scheduled August 11 and 12

Many New Classes Added To Show and Premiums Raised on 4-H Exhibits.

The eighteenth annual 4-H and Utopia Fair will be held at the fairgrounds in Burlington, August 11 and 12, according to John E. Crigler, Council President.

Many new classes of exhibits have been added to the show and premiums on all 4-H exhibits have been raised. In many cases premiums now offered are as great or greater than those offered at the State Fair. Premiums in the 4-H Home Economics classes have been changed from blue and red ribbon groups to the regular first, second and third place awards.

All dairy and beef animals that are to be exhibited must be tested for Bang's disease within 30 days preceding the show or furnish proof of calfhood vaccination.

Four-H members who have animals to be tested should contact Bill Davis, County Agent, immediately and arrangements will be made for testing by a licensed veterinarian. One test on 4-H animals will enable them to be entered in both the County Fair August 11 and 12th and the district dairy show, August 21st.

Classes have been arranged for all 4-H and Utopia projects and all members are urged to exhibit.

Homecoming And Dedication Services Held At East Bend

Record Breaking Crowd In Attendance, According To Pastor.

East Bend Baptist Church had the most outstanding day in the history of the church on Sunday, July 16, when the church held its annual homecoming and at the same time had its dedication ceremony for six new Sunday School rooms which have recently been completed.

The day was off to a good start with a record-breaking attendance in Sunday School. The classes were filled to overflowing and in some instances chairs were placed in the halls adjacent to the Sunday School rooms.

At the morning worship service a former pastor, Rev. Carl J. Wainwright brought an evangelistic message. His subject was "Face to Face With God."

At the dedication service in the afternoon another former pastor, Rev. Elmer Cunningham, brought the dedicatory address on the subject "Except the Lord Build the House the Labor Shall Be in Vain." Some two hundred and fifty people crowded the auditorium for this great occasion which had been anticipated for several years. Special music for the day was supplied by the East Bend Church choir in the morning service and by the Burlington Baptist Church choir under the direction of Mr. Griesler in the afternoon service.

The history of the church was read by Raymond Ashcraft, a deacon of the church. The record showed, among other things that the East Bend Baptist Church was constituted in 1842 and that it was the third oldest Baptist Church in Boone County.

At noon an old-fashioned dinner on the ground was served. People from many points throughout the state and elsewhere returned to their old home church to participate in the feast. Rev. Roy Johnson pronounced the grace for the food.

The East Bend Church is launching a revival meeting beginning Monday night, July 17, 1950, at 8:30 p. m. and continuing through Friday night, July 28. Everyone is cordially invited to these services. Rev. Donald White, the pastor will be the speaker for the meeting.

Local Airport Will Be Equipped With New Safety Devices

Will Enable Air Traffic Controllers To Identify Aircraft.

New safety devices will be installed this summer at the Greater Cincinnati Airport in Boone County, it was announced by the Civil Aeronautics Authority last week.

The new device will enable air traffic controllers to identify aircraft within range to their surveillance radar screen during communication with that aircraft and permits them to give the pilot directions for entering the landing pattern with assurance.

The Boone County airport is one of forty-four to be equipped with CAA's first civilian-type aircraft direction finders.

The airport will also be equipped with surveillance radar at a cost of approximately \$100,000, it was reported.

John Crigler Attends Training School At Oklahoma City

President From Each State Farm Bureau In Southern Region Present.

The Southern Farm Bureau Training School at Oklahoma City, Okla., on July 9-12, was attended by Mr. and Mrs. John E. Crigler, Secretary-Treasurer of the Boone County Farm Bureau and Associated Women, respectively. The states comprising the Southern Region are Kentucky, Tennessee, Arkansas, Texas, Louisiana, Mississippi, Alabama, Florida, Georgia, South Carolina, North Carolina, Virginia and Oklahoma. All but two of these states were traveled by Mr. and Mrs. Crigler and sons, John Lloyd and Louis Allen, and in addition they went thru Illinois, Missouri and Kansas.

The Farm Bureau Training School was composed of classes each morning including Farm Bureau membership, organization work, history, philosophy and rural youth. At the afternoon and evening sessions all of the State Presidents brought the message outlining the things that Farm Bureau is doing over the Southern Region. National speakers on the program included Allan B. Kline, president, American Farm Bureau Federation; Roger Fleming, director Legislative office, American Farm Bureau Federation; Mrs. Charles W. Sewell, Administration Woman, American Farm Bureau Federation; Hon. Roy J. Turner, Governor of Oklahoma; Dr. Henry G. Bennett, president Oklahoma A. & M. College and Romeo B. Short, vice-president American Farm Bureau Federation.

One of the most interesting talks was that of Dr. Henry G. Bennett, president Oklahoma A. & M. College who has traveled over most of Europe, Asia and Africa since World War II and he told of his experiences and travels and showed how the rural people of the United States are still in a most favorable position compared to the rest of the world. The solid South is just that when it comes to the number of state and county Farm Bureau organizations, and all that is needed now is 100% of its rural people enrolled as members.

Dove Season Open September 1 Thru September 30th

Division of Game and Fish Announces; Bag Limit Set At Ten.

The dove hunting season for Kentucky has been announced by the U. S. Fish and Wildlife Service and the Kentucky Division of Game and Fish as the same as for last year, the dates being September 1 through September 30. Recommendations offered by the Fish and Wildlife Service were approved by Earl Wallace, Director of the Division of Game and Fish. Daily bag limits again will be 10 with the possession limit also 10. The hunting hours will be from 12 o'clock noon to sunset. The open season and bag limits for waterfowl have not yet been determined by the Department of Interior due to the late nesting season of ducks and geese. The shooting period for rails and gallinules is September 1 through October 30 with a bag and possession limit of 15 and a bag and possession limit of 25 for sora. Shooting hours are from one-half hour before sunrise until sunset.

The dove hunting regulations point out that this species may not be taken directly or indirectly by means, aid or use of shells, hooked or unhooked corn, or of wheat, salt or other feed that has been deposited, distributed or scattered so as to constitute for such birds a lure, attraction or enticement to on or over areas where the hunters are attempting to take them. However, the regulations continue, such birds may be taken over properly shocked corn or standing crops of corn, wheat or other grain or feed, and grains found scattered solely as a result of agricultural harvesting.

Kentucky nildmors may take to the fields on August 20 this year in quest of the wily squirrel, the Division and the Kentucky Game and Fish Commission have decided. The season for this year will be the same as for 1949, opening on August 20 and extending through November 5. The bag limit also remains unchanged with the daily limit being six and possession limit 12.

The Commission also has fixed other dates for hunting this season and with the exception of the grouse or native pheasant they remain the same as for the preceding year. The grouse season has been extended 10 days, with the season opening on November 20 and extending December 15. The daily bag limit will remain two with possession limit at four and a season limit of 10.

A training period for coon dogs was eliminated by action of the Commission. Last year coon hunters were given from October 1 until midnight November 19 in which to train their dogs. During that period coon dogs were to be taken in any manner by the hunters, the Commission points out, but due to flagrant violations of this order many coons were killed and for this reason the training period has been eliminated for 1950. However, the coon hunter may take coons by dog only during the month of November. During this month he is not permitted to carry a gun or kill a coon in any way other than with his dog. The season in which the coons may be killed by gun or dog or trapped opens on December 1 and continues through January 31. Other hunting seasons as announced by the Commission follow: Quail and Rabbit—November 20 through January 31. Coons, mink, skunk, muskrats and red foxes may be taken with traps, guns and dogs, December 1 through January 31. Either a county or statewide hunting license is required of the hunter while the trapper must have a trapping license.

Record of 11-1 Gives Bob and Gene Edge In KAG Title Race

Leaders Defeat Constance Sunday By Score of 3-1; Verona Wins.

It appears almost a "sure thing" that the Bob and Gene baseball team will take the regular season title in the Kentucky Athletic Goods League although there are three games left on the schedule before elimination series time. The Bob and Gene outfit leads the league with a 11-1 record, a full game over Grants Lick (9-1), and the Redskins have twelfth-place in the league.

Highway Merchants (3-10) this week, a bye next week and last place Falmouth (0-11) for their final game. The second place Grants Lick team who have been in second place most of the season and the only team with a chance to overhaul the leaders must face the strong Charlie's team this week, Constance next Sunday and Highway Merchants in their last fray.

Leaders Take Constance
Bob and Gene defeated Constance 3-1 Sunday behind the effective five-hit pitching of Ray Mignerey. The winners got to the bottom of the inning, three by Alessandro and two each by Mahan and Kilmer.

Verona kept their third place position in the standings by trouncing Hudephol six to four at Verona. The game was marred by loose fielding on both sides with the winners gaining the advantage in the sloppy play. Bill Mumm pitched for the winners and gave seven hits while Kinney worked the losing cause, although he allowed only four hits.

In other league games Grants Lick won a 11-inning 8-7 nod over Newport, Bavarian murdered Ghent 28-0, Charlie's took Aetna 3-1 and Highway defeated Falmouth 10 to 7.

Spence Comments On Banking Bill Number S. 2822

Congressman Brent Spence (Dem. Kentucky), Chairman of the Committee on Banking and Currency of the House of Representatives yesterday commented on Bill S. 2822 now before his committee. The bill would amend the Federal Deposit Insurance Law. Principal advantage of the legislation to depositors, according to Chairman Spence, is the provision raising individual insurance coverage from \$5,000 to \$10,000.

"The present provisions of law protect completely more than 99,000,000 deposit accounts in insured banks throughout the Nation," the Congressman said. "Upping the coverage to \$10,000 would give complete protection to an additional 3,000,000 deposit accounts, meanwhile raising the Corporation's potential liability by \$12,000,000,000."

"In my own State of Kentucky, enactment of the bill would bring to another 26,000 depositors the benefits of complete coverage. As one of the original advocates of Federal deposit insurance, I recommend this extension of coverage."

"This additional protection to depositors is provided at no cost to them," Chairman Spence continued. "During the 16 years that it has been in existence it has not cost the depositors, the Government or the taxpayers a single cent."

"The banks pay the bill through the medium of assessments upon their deposits, and, under terms of the bill they, too, will benefit through provision for assessment credit in good years."

Maple T. Harl, Chairman of the Board of Directors of Federal Deposit Insurance Corporation, paid high tribute to Congressman Spence.

"To Congressman Spence, the illustrious Chairman of the House Committee on Banking and Currency, everyone owes a debt of gratitude for his painstaking interest in their financial welfare. From its very beginnings, Federal Deposit Insurance Corporation has

benefitted from the profound knowledge and the helpful advice of the Congressman. It is significant that the distinguished gentleman from Kentucky was among those who created the Corporation in 1933 and who has fostered its efforts to broaden protection for depositors since that time.

"His contributions to the stability of our economy in all its financial aspects are outstanding, and his grasp of the problems that face us is unique. He is a statesman who is not afraid to tackle a job and who invariably does it well."

FRANK LEE DILS

DEMOCRATIC CANDIDATE FOR CONGRESS

Frank Lee Dils, candidate for the Democratic nomination for Fifth District Representative, in his address to a group of farmers at Glencoe, Ky., in Gallatin County, stressed individual freedom and non-regimentation as its concerns Government control and the farmer.

After the speech, a Dils-for-Congress Club was formed by supporters. The following was the text of his address:

"Now, when agriculture is facing special problems," Dils said, "And when you learn of the moves being planned in Washington that will affect farm income, production, price support, disposing of surpluses and exports, you will want a Congressman who is versed in farm activities, a man who will have the farmer interest at heart to represent you."

"Farmers should be alert to watch the changes that are coming, and register their protest to legislation that affects their livelihood. The farmers that I have talked with want the prosperity and high standard of living that they have enjoyed to continue, at this time I see no way or reason to scrap our present system of government aid to farmers, that is the program we now have, the Agricultural Act of 1949. A few amendments are necessary and would satisfy most farmers."

"We must begin now to adjust as fast as possible to a near self-supporting basis, thus moving away from the emergency support, traveling the channels of supply and demand, with the least possible price support, a method to succeed in the 'American way.' At no time should we permit agriculture to be plunged into a post war depression."

"There are two important moves that will help accomplish a basic economy in agriculture: (1) A farmer supervision of production control, fixed by legislation on basic crops, produce and fiber, to cut out unmanageable, costly surpluses. (2) Legislation that will eliminate the unjustified spreads between producer and consumer."

"The accumulation of surpluses are costing taxpayers from four to seven billion dollars annually, thus a foregone conclusion that this must be cut. The surpluses cannot be dumped on the open market without causing a slump in price of

the current year's crop carried by the individual through added taxes, direct or hidden. Under point 2, the profits should be more equally distributed between the farmer and the processor at a lesser cost to the consumer."

"There are many plans proposed and one is the 'Brannan Plan,' introduced as Senate Bill No. 1971. This plan moves away from Government pegging of farm prices and the producer is to sell his produce in the open market at whatever price he can get. A confusing price formula for produce would be fixed by the Government. The Government would pay the difference between the price at which the farmer sells, and the price which the Government guarantees under the price formula. For example, the guarantee price could be fixed at \$100.00 and the crop sold in the open market for \$60.00, the Government would then pay him the \$40.00 difference, provided Congress appropriated the money."

"The farmer's income dollar would come partly from the open sale and the balance from the taxpayer through Government channels, the consumer paying it all, carrying out of this plan would run high because of the complexity of the scheme. There is no telling how high the cost would run, some estimates being as high as \$8 to \$12 billion per year. Unmanageable surpluses are certain to appear."

"The Brannan Bill contains 86 pages, of which 15 pages relate to penalties upon farmers. Example, for failure to keep accurate books and records and making reports, a maximum fine of \$500.00. If found guilty of making false reports of records, the farmers could be subject to \$100.00 fine and sent to jail for one year."

"Farmers do not want doles. This Bill would place farming under regimentation of Government supervision, the farmer losing his freedom of opportunity and eliminating efficiency in production. I will not support such unsound and confusing legislation."

"I pledge my support to farm credit programs and agencies such as the Farmer's Home Administration, soil conservation, limited purchases and storage, programs to aid in national emergencies, and rural electrification."

CARD OF THANKS

We extend our deepest appreciation and sincere thanks for the help and sympathy given to us by our relatives and friends on the occasion of the departing of our beloved husband and father,
Chester Aylor

Until such an experience occurs a person can not know how greatly the help of others is needed. The message delivered by Rev. Roy Johnson, means so much to our spiritual comfort at this time and confirms our faith in the eternal truth. Thoughts expressed in song by Mrs. George Wohrley were beautifully sung. Prompt transmission of messages to Chicago by Mr. and Mrs. J. Gettys were of untold value. The services provided by Mr. Ralph

Stith were so efficiently administered in such a kind and helpful manner he will ever be remembered. The many beautiful flowers donated remind us of the beauty and peace beyond the curtain for we are taught that beauty here can never approach that in the Eternal Heaven.

Mrs. Chester Aylor and
Elmo E. Aylor

CARD OF THANKS

I wish to thank my relatives and friends for their prayers, get well cards and lovely gifts; also the Brethren Church for their special prayers during my recent illness. Long will they be remembered.

**NO HEARING AID
need sell for more than \$75**

I BELIEVE NO HEARING AID NEED SELL FOR MORE THAN \$75.00.
HERE IS WHY:

EVEN WITH PRESENT HIGH COSTS OF LABOR AND MATERIALS,
IF ZENITH WISHED TO SELL A HEARING AID AT \$200 (WHICH
WE DON'T) WE WOULD NOT, EVEN WITH OUR ENORMOUS
FACILITIES AND THE MILLIONS OF DOLLARS WE SPEND IN OUR
RADIO LABORATORIES ON RESEARCH, KNOW HOW TO BUILD
IT BETTER THAN OUR SENSATIONAL NEW MINIATURE \$75.00
INSTRUMENT, NOR DO WE KNOW WHERE TO OBTAIN OR HOW
TO USE MORE EFFICIENT MATERIALS.

THE BETTER HEARING AID HAS BEEN BUILT—AND ZENITH
HAS BUILT IT.

**A PROMISE
To Our New Electric Customers**

As you know, The Union Light, Heat and Power Com-
pany has acquired the business of the Community
Public Service Company. In joining that company's
service area to the territory which our Company has
served for nearly fifty years, we give you our promise
to provide you with the same high quality electric
service that your neighboring communities in north-
ern Kentucky enjoy.

Today, electricity is doing more than twice as much
housework, farm work, and factory work as it did ten
years ago. And yet the magic electric age is still just
beginning. In the years ahead there will be many new
uses for electricity in homes, farms, factories, and stores.

Your new electric company has boundless faith in the
future of the communities it serves. It will be con-
stantly planning ahead and building ahead to insure
dependable electric service, as greater requirements
for electricity develop.

We welcome you as new customers. And if at any time
we can help you use electricity to greater advantage,
we cordially invite you to visit our offices at Walton and
Covington to consult us on any of your service needs.

Kentucky Exceeds Quota

Final reports from the two Federal Reserve District Banks show that a total of \$3,504,274.74 worth of E Bonds were sold since the last report was received. This represents 42.7 per cent of the quota.

This sum, added to the last reported amount of \$4,732,657.64 gives a total of \$8,236,932.38 which is 100.6 per cent of quota.

Needless to say, the success of the Independence Drive was due to the splendid efforts of volunteers.

In addition to the above amount, Kentucky's share of the unallocated sales is \$343,000, which gives a total of \$8,579,932.38 and a percent of 104.8.

Unallocated sales mean sales made to civilian federal employees and the military personnel of the Army and Navy installations in the state.

BULLITTSBURG CHURCH, BOONE COUNTY, COMPLETES FIRST PARSONAGE

The picture shows the realization of a long-time dream for a parsonage at the old Bullittsburg Baptist Church near Burlington, called the mother church of Northern Kentucky.

During its 155 years of faithful service unto the Lord, Bullittsburg Church has needed a home for its

pastor. The parsonage is near completion now, despite many difficulties and discouragements, one of which was losing by death the chairman of the building committee, Mr. William Hill, in an automobile accident May 5. Mr. Hill was also church clerk and a leading deacon. The other two members

of the committee, Mr. Wallace Rice and Mr. Emmett Elliott, have carried on in a noble way. The pastor expects to be in the parsonage by the middle of August. Anyone wishing to contribute to this worthy cause may send their contributions to Mr. Wallace Rice, Burlington, Ky., R. 1.

Big Bone Pitcher Holds Opponents To One Hit Saturday

Burlington and Florence Chalk Up Victories In Saturday League.

League leading Big Bone stole the show in the Boone County Saturday Afternoon League last Saturday as they won a 3-0 decision over fourth place Hebron at the loser's park. Feature of the game was the masterful pitching of Check Ryan who held Hebron to one hit, a double by Peeno in the eighth inning. Ryan added to his stingy hitting by fanning ten men and not issuing a pass. Hogan pitched for Hebron and did a good job as he scattered eight hits, fanned three and walked two.

Williamson and Hubbard of the winners each had two hits in four swings.

Florence Wins Again
Florence won their third consecutive game as they took a forfeit decision over Sand Run. In an exhibition game between the two teams Florence again won this time to no nothing in five innings. Presnell and Markesberry pitched for the winners and Judy and Martin pitched for Sand Run.

Burlington defeated Bellevue by a 4-3 count at Burlington Saturday. Eddie Deck pitched for Burlington and scattered six hits. Hoots Ryle worked for the losers and gave eight bingles. Bill McBee led the Burlington stick work with a double and two singles.

School Entrance Age Limit Explained By County Board

Children Entering School For First Time Must Have Health Examination.

All children will be eligible to enter school this year who become 6 years old on or before October 11, 1950, according to Boone County Board of Education.

If a child becomes 6 years old between October 12 and December 31, 1950, send name of child, date of birth and school he would attend to Mrs. Sibila Reimer at the Superintendent's office at Burlington not later than September 1. If the teacher in any district at the end of the first week has an enrollment of less than 35 in her room, she may accept this age group until her enrollment of 35 is reached. The acceptance of this age group will be determined by their birthdays.

The first child in that district who becomes six years old after October 11, 1950 will be selected first and so until the enrollment of 35 is reached.

All children expecting to enter school this fall must have a health examination. Forms may be secured at the Superintendent's office or local doctor's office. This is a state regulation and no child will be permitted to enter school for the first time unless he has a health card properly filled out.

Phone Committee Meeting Held July 17 To Discuss Service

Camera Club Take Pictures of Lines and Other Equipment.

Due to the many complaints of the subscribers served by the Consolidated Telephone Company, a meeting of the subscribers telephone committee was held on July 17, 1950.

More than one year ago the management of the Consolidated Telephone Company advised this committee that improved service would be made and requested the cooperation of this committee and time to improve the telephone service. From the many complaints and upon the inspection of many of the telephone lines, this promised improvement has not been made by the company.

Some lines and conditions have been improved but as a whole, the system has not shown too much improvement, and so many applicants are unable to obtain telephones.

The Dixie Camera Club has cooperated in this matter and the members of this club have taken many pictures of the very poor conditions of many of the telephone lines and some of these pictures were carried in daily newspapers last week.

If necessary to improve the services in Boone County, the citizens telephone committee will call a mass meeting of all the subscribers of this company and request the members of the Kentucky Public Service Commission to attend and hear the protests.

Bob and Gene Win Close One Sunday Over Highway Nine

No Change Made In Standings of First Four Teams.

There was no change in the standings of the top four teams in the KAG baseball league as results of last week's play. The leading four teams—Bob and Gene, Grants Lick, Verona and Bavarian—won their games and Constance slipped past Boone VFW in the standings as the former won and the Boone outfit lost. Hudephol, who held ninth spot last week, moved up past Newport Steelers and Charlie's as the Hudes won and Newport and the Cafemen lost. Ghent, Aetna, Highway and Falmouth held the last four slots in the standings as the first three lost in Sunday's games and winless Falmouth drew a bye.

Bob and Gene Win Close One
Bob and Gene had their hands full in winning a 3-2 thirteen inning decision over Highway Merchants at Florence. The inspired Highway team held a one-to-nothing lead going into the last half of the ninth, only to see the league leaders tie it up. Both teams scored a run in the twelfth and the Eadsman added the winning tally in the thirteenth on an error, single, walk and a field's choice. Boyd Mahan led the winner's attack with four hits.

Verona Wins Shutout
Verona, behind the brilliant pitching of Steffen, trimmed Ghent 3-0 at Verona Sunday. Steffen fanned 14 of the Gallatin team. Brown and Bowman paced the winners at bat.

Boone VFW took a 14 to 2 drubbing at the hands of Hudephol. The winners had 19 hits and the Boone team had nine.

Constance handed Aetna Oils a 11-7 lacing at the loser's park. Graving and Peeno did the winning pitching and were touched for 13 safeties. Constance got 21 hits off Teats and Waldrope.

In the other two league contests second place Grants Lick whitewashed Charlie's 5-0 and Bavarian won a 7-5 nod over Newport Steelers.

Games Next Sunday

Next Sunday Grants Lick will attempt to gain a half game on idle Bob and Gene. The Lick team will entertain Constance. In other games for Sunday Newport will play at Verona, Falmouth at Boone VFW, Charlie's at Bavarian, Ghent at Hudephol and Highway at Aetna Oils.

Bob and Gene will play the New York Tech (colored) team in an exhibition game at the Florence Park, Sunday afternoon.

Erlanger Cruiser Wrecked In Wild Dash By Woman

Takes Wheel of Cruiser After Being Arrest By Police Chief.

The cruiser of Erlanger Police Chief Thompson was wrecked early Thursday by a 26-year-old woman who went berserk, drove recklessly along the Dixie Highway through Erlanger, Elsmere and Florence, and struck four autos before crashing against a milk truck in Florence.

Thompson who was called to the Erlanger trailer court was told that Mrs. Bettie Miller began wrecking the interior of the trailer of her estranged husband, Lawrence, at the Dixie Trailer Court, 314 Dixie Highway. In creating the disturbance she allegedly had threatened to kill several residents of the court, including the wife of the owner, Mrs. William Points, who summoned Chief Thompson.

After being placed in the cruiser by Chief Thompson and Bud Schneider, a resident of the court, they stepped back momentarily and she jumped under the wheel and drove off. Swinging wildly down the road the police vehicle sideswiped three autos, hit the rear of a fourth one and plowed against the milk truck. The cruiser was demolished.

Mrs. Miller, the only person in the cruiser, suffered a pelvis fracture and multiple lacerations of the face, scalp and right elbow. She was charged with auto larceny, destruction of property and resisting arrest. She had been drinking, Chief Thompson said.

Erlanger Man Fined In Judge Cropper's Court

Dedication Services Announced For Aug. 6th Of Parsonage

All Day Services Planned With Special Speaker For Afternoon Service.

Dedication services of the Burlington Baptist parsonage have been scheduled for Sunday, August 6th, it was announced this week by the pastor, Rev. R. A. Johnson.

The new parsonage, recently completed, is a beautiful building, modern in every detail, and is now being occupied by the pastor and his wife.

Plans are being made for a large number at the Bible School hour, 10:00. The goal has been set for three hundred. The homecoming service at 11:00 a. m. will be a special hour of the day, with a guest speaker filling the pulpit. At this service everyone will be asked to sign a card so that a check can be made of members present as well as visitors.

Immediately following this service lunch will be served by the church. Following lunch, the doors of the parsonage will be open to all who care to visit and inspect this beautiful building, which has been made possible by the members and the services of the efficient building committee.

A special song service by the choir will be featured at 2:30, followed by the dedicatory service.

The pastor urges all members to attend this special service of re-joicing in this great victory for the Lord. You are urged to come early for the Bible School hour and enjoy the entire day.

Benefit Auction Will Offer Various Items

An article in last week's issue of this paper told about the building fund auction for the Bullittsville Christian Church, sponsored by the Women's class. Since that article appeared many other pieces to be auctioned have been offered. One woman is caning two chairs. Your reporter saw a man from another church hand the chairman of the committee a folded bill to help a little.

The spirit of service has caught the imagination of the whole community. The tiny snow flake of an idea has snowballed into a great big piece of action.

Ma can buy the carpet sweeper, Pa the lawn mower. There will be more than enough furniture to set up house keeping even to new feather pillows.

Perhaps you need a sausage grinder, come hog killing. We'll have it and the hogs to go with it. There will be plenty of parking space. Afterwards, no one need to go home for supper because at the church nearby the Young Peoples Class will have sandwiches and ice cream and cake.

A complete advertisement appears on another page of this issue.

Brent Spence Praised By Head Of Agriculture Dept.

**For Efforts In Passing
1950 Price Supports On
Farm Products.**

Congressman Brent Spence, Chairman of the Committee on Banking and Currency of the House of Representatives, has received the following letter from Honorable Ralph S. Trigg, President of the Commodity Credit Corporation.

The Commodity Credit Corporation is the agency by which the support prices of tobacco, dairy products and other agricultural commodities are established and maintained.

The letter follows:
"Hon. Brent Spence, Chairman Banking and Currency Committee House of Representatives Washington, D. C.

"Dear Mr. Spence:
"Now that the Commodity Credit Corporation has been given increased borrowing authority, I want to express our appreciation for your help in seeing that the necessary legislation was enacted.

"This was very important legislation. As you know, we were not in position to announce 1950 price supports, even for the basic commodities, until the question of available funds was settled. Action to clear the way for the continuance of price support operations was in the interests not only of all farmers but also of the entire national economy. Your leadership was a key factor in securing passage of the legislation.

"You also, of course, did a great deal of constructive work when the charter of the Commodity Credit Corporation was being revised. As a result of the efforts of you and your associates, the corporation now has the necessary flexibility of operation to meet emergencies and changing conditions.

"As Chairman of the vitally important Banking and Currency Committee, your legislative interests are necessarily very broad, but you have never lost sight of the importance of the fundamental agricultural programs. I just wanted you to know that we in the Department of Agriculture recognize and appreciate that fact.

"Sincerely
(Signed) Ralph S. Trigg,
President

U. S. A. Will Go Forward In American Way, Says Frank Dils

**Urges Sharpening of Laws
To Fight and Uncover
Un-American Activities.**

Frank Lee Dils, candidate for the Democratic nomination for Fifth District Representative, in his address to the voters of Oldham and Trimble Counties, stressed that, as long as the power of Government remains in the people and the control of legislation is dictated by their voting power and voice of petition, the United States will continue to go forward in the American way. Arresting the threat of Socialism and the eradication of all un-American activities lies in the man whom the people select as their representative in Congress.

"I urge," Dils said, "in the interest of national security, that Congress enact stricter and more sharpened laws to fight and uncover un-American activities. Much of this subversive activity is protected under our right to freedom of speech under the Constitution. But this type of subversive activity undermines the very foundation of our free democratic system of government, the same foundation that supports this freedom of speech.

"We have come some 174 years since the signing of the Declaration of Independence by our great leaders, which act was approved by the people at that time. They disregard the old-world autocracy. Our leaders, with the sanction of the people, made the declaration that, 'All men are created equal, and endowed by their Creator with certain unalienable rights'. During this long period we have enjoyed the greatest freedom, and made our country a wonderland.

"Much of the legislation in the past 25 years has been classed as 'creeping socialism' by many. I say that as long as the power remains in the people, through the channel of their representative, to extend services to the people, and without draw them when necessary or dangerous, that is not Socialism. Just giving service in the American way. The people must keep control of Congress because Congress is the representative of the people, the people's power.

"I class as leading to complete socialism, the Brannan Bill for agriculture, and H. R. 2756, which legislation is now pending. H. R. 2756 is the Economic Stability Act of 1949, a planned economy act giving power to the President whereby he would be the sole judge as to whether he could take over industrial enterprises, decide how much

of essential commodities could be produced, and put production under Government plans and compulsions. This amounts to the power of life and death over industrial enterprises, the beginning of the end of the price system without which a private-enterprise economy cannot possibly exist, it is the power of seizure and search upon a hitherto unimagined scale.

"In the past, our people have been loyal and faithful to our Government and have rallied to its needs, by giving their services, toll-

ing long hours in the factories and the fields, accepted tax burdens and furnishing funds through loans to the Government. Now, in the present crisis, Congress should proceed with caution, relying upon the people to respond in a free manner, not under planned regimentation. "Good government comes from well debated legislation, supported by well-founded public opinion. Our leaders must not move ahead of the people in their theories and plans until they feel the pulse of the people they represent. Thus,

a cautious Congress is important at all times, except, of course, in immediate emergencies."

—Frank Lee Dils

Control of Tomato Blight Given By Garden Specialist

Will Kill Foliage and Rot Fruit, Says John S. Gardner.

Tomato blight is caused by spores ("germs") blowing about in the air, which if they alight on any part of the tomato plant or the fruit, dig in, causing a spot which grows and grows until the foliage is killed and the fruits completely rot.

The spores multiply most rapidly in hot, "muggy" weather, as when rains are more plentiful than usual in June and July. The remedy is keeping the plants covered during this time with copper, and the more complete the covering, the better.

Bordeaux mixture, 4-4-50 is a splendid spray to use, but many find the newer "coppers" more convenient. These generally found last summer, and used with success, include Copper-A Compound, Kopfer King, Cuprodeol, Hydro-K, Tri-Basic Copper Sulfate, Dithane Z-78, and Tennessee 26, but there are many more.

They come usually in about 45% strength (except the "26", 26%) metallic copper, for use in making a "wet spray." The recipe for using them is two level tablespoons per gallon of water; but Tennessee 26, three tablespoons.

They come also in ready-to-use dust, carrying approximately 5% metallic copper, but it is well to read the label to make sure whether the material is for dusting or spraying. The "low-powered" kind is not suited for use as a wet spray.

Wet spraying is much to be preferred, as more complete covering can be given than by dusting, especially with the "pop-guns" so generally in use. Merely "puffing" the dust on cannot reach within the plants after they have made any size, and it is usually there that the trouble starts, where the shade is dense and leaves remain wet, and the soil, too. A good crank duster that can force the dust does better, but only when enough dust is used. For 25 plants at least 1/4 pound of dust should be used, first dusting; 1/2-pound at the second and one pound for the third.

The time for the first "copper" application is when the first fruits have reached the size of a pea. At least two more should follow, ten days apart, and two more, ten days apart, will pay. Even though no actual Late Blight comes, the gardener will be repaid many-fold for his spraying because of having held Early Blight in check. This is the disease that knocks off the leaves one by one, causing the later fruit to lose size and sweetness. It is a matter of record that even the earliest-set tomato plants, faithfully sprayed, have been kept in good production of full-sized and sweet-flavored fruit until frost.

William Loehr Held For Action Of Grand Jury

After Being Arraigned On Charge of Voluntary Manslaughter.

William Loehr, arraigned in Judge C. L. Cropper's Court Friday, on a charge of voluntary manslaughter, was held for action of the Boone County grand jury which will be in session August 14th.

Loehr was charged with voluntary manslaughter, when the car he was driving figured in a collision which caused the death of William Hill, prominent Boone County farmer.

The crash involved three autos and a milk truck on U. S. Highway 42 near Mudlick. Other Boone countians injured in the crash were Mrs. Mary Hill, wife of the victim, Mrs. William Holladay, William Holladay, Mrs. Grace Pfalzgraf and Eugene C. Stephens.

State Police reported that Loehr's auto was west bound on U. S. 42 and apparently attempted to pass two other autos and a truck proceeding in the same direction.

A milk truck approaching from the opposite direction caused Loehr to fail in his attempt to pass the west bound traffic. The milk truck collided with Loehr's car knocking the wheels from under the truck. The truck sideswiped a car driven by Dock Black and then plunged head-on into the car of the Hill party.

The collision occurred May 3rd this year, when Hill and a party of Boone Countians were enroute to Louisville to attend graduation exercises of Rev. E. L. Patton, pastor of Bullittsburg Baptist Church.

Loehr was placed under \$1000 bond which he posted, following the examining trial Friday.

Blight Causing Serious Damage To Tomato Crop

Copper Spray Is Only Treatment For Blight Attack.

Late blight is causing serious damage to local tomato crops, according to Bill Davis, County Agent. Control of the disease with "fixed copper" sprays should have begun earlier but spraying now will help control the disease and lessen the damage to the crop.

Tomato crops should be sprayed once a week with one of the copper sprays such as copper A or Copper King. Then the entire plant must be covered with a protective coat of copper to withstand the blight attack. Spraying should be continued until warmer, dry weather prevails. Late tomatoes as well as early crops should be sprayed.

Grain Pests Cause Damage To Local Grain Crop

Corn Stored In Bins Already Damaged, Says County Agent.

Pests of stored grains, particularly corn, caused extensive damage in Boone County each year, according to Bill Davis, County Agent. Damage was already started in corn stored in bins.

The Angoumois grain moth is one of the pests common in this section of the county, and it attacks all cereal grains. The moth is small, buff or yellowish brown with a wing expanse of about one-half inch. Infestation may begin in the field when the moth lays eggs on the tips of corn ears. When the egg hatches then the damage begins. These moths are also laying eggs that will hatch into the damaging larvae. The moth is unable to penetrate very deep into stored wheat or corn, therefore the damage from the late infestation will be in only the top 10 to 12 inches of the grain.

Grain stored in tight bins can be easily fumigated with carbon disulphide. Carbon disulphide is applied by sprinkling over the top of the grain. The heavy vapor penetrates through deep bins of grain and is highly toxic to the insects. Carbon disulphide is highly inflammable and extreme care should be taken to keep lanterns, cigarettes or sparks of any kind away from places where it is being used. Apply 3 pounds of carbon disulphide for each 100 cubic feet of space.

The grain will quickly absorb the fumes of the gas and the damage from fire is not prolonged. The vapors should not be breathed for prolonged periods. Small quantities of carbon disulphide can be handled safely by the ordinary person, but persons having any heart trouble should take no part in its use.

Ear corn stored in ordinary granaries is difficult and often practical to fumigate unless the granary can be made almost air tight. Infestation under such conditions can be reduced by removing all old corn and thoroughly clean the granary before storing new corn. Since grain kernels and dust accumulate in cracks and are not easily removed by sweeping, the use of commercial fly spray containing pyrethrum is helpful in preparing a granary for the storing of new corn.

\$628,924 Worth Of Food Distributed Under School Lunch Program Set-up.

Frankfort, Ky., Aug. 3.—Commissioner of Agriculture Harry F. Walters today reported that more than \$2,072,000 of surplus commodities were distributed through the Department's Division of Surplus Commodities to public schools, charitable institutions and orphanages with more than 450,000 students, orphans and patients as beneficiaries. In addition, food was distributed to forty-seven summer camps attended by more than 25,000 pupils.

The Division was set up last year to replace four independent agencies which previously handled distribution of federal surplus agricultural commodities. Under the new setup a more equitable distribution of supplies was effected with some groups participating in the program that formerly were omitted.

Thomas A. Lewis, director of Commodity Distribution, explained that under the co-ordinated setup that \$628,924 worth of food was distributed under terms of the national school lunch program or eighty-six carloads. Commodities distributed under this program were:

Foods distributed to institutions, bought by the Secretary of Agriculture to support parity prices of farm products, with freight paid were:

Potatoes, 180 cars, \$199,449.50; apples, 156, \$239,187; prunes, 2, \$3,464; pear, 71, \$187,866; honey, 8, \$54,720; dried milk, 9, \$69,120; dried eggs, 3, \$117,150.30; butter, 28, \$280,000; cabbage, 22, \$16,500; turkey, 13, \$122,200; raisins, 1, \$9,600; total \$1,299,256.80.

Spence Explains Reason For Not Visiting District

Was Obligated To Stay In Washington And Direct Committee Work.

Legislation brought about by the Korean situation has prevented Congressman Brent Spence from returning to the Fifth District until the latter part of this week to engage in his campaign for re-election in the Democratic primary Saturday.

Important legislation has been referred to the House Committee on Banking and Currency, of which Rep. Brent Spence is chairman. Rep. Spence said in notifying his friends that he was unable to be with them as early as he had planned: "An obligation to stay here and direct the work of my Committee forced me to delay until the latter part of this week my visit to the Fifth District. I believe the people of Northern Kentucky would rather have me here doing that than back home campaigning for votes. The farmers of my District are well aware of the work I have done in behalf of higher support prices for tobacco, and other farm legislation. My record speaks for itself, and it is upon that record that I seek re-election in the August 5th Democratic Primary and urge all of my friends to go to the polls and vote for me."

During the last session of Congress, Representative Spence was one of the few who scored a 100 per cent voting record by casting a vote on every issue brought before the House.

A Statement to The Voters of The Fifth District

As a candidate for the Democratic nomination for Fifth District Representative in Congress, I have conducted a forthright and courageous campaign based upon my experience and knowledge, my sincerity to offer my service to my country in an honorable and trustworthy manner. If elected, I pledge myself to be alert and active in supporting the Democratic Administration to carry out the Jefferson, Jackson, and F. D. Roosevelt doctrines which have made the Democratic Party outstanding, the Party that serves the needs of the average man, woman, and child.

In the past 81 sessions of Congress, there has been a continuing change of membership. Older men have been replaced by younger men, others have retired to provide a place for those more active and energetic, all this without any interruption whatever to the functioning of Congress. No one member controls the entire functioning of Congress, regardless of seniority or the state he retains. Since the new, as well as the old member, is only one of 435, why not select the more active as well as capable man?

My promise to make periodic visits to each sector of the Fifth District to discuss with you the problems of the times assures you of active participation in your Government.

The reservoir of knowledge which I have gained in the fields of Agriculture, Law, and Business places me in a position to fit into the various capacities in which the Administration may call upon me to serve.

America has enjoyed and prospered through 174 years of continued good government and this I shall protect in my qualified way from un-American theories and doctrines, ever in mind not to assist in leading us to a Socialistic system of government as my opponent has done by introducing H. R. 2756, "Economic Stability Act of 1949," (commonly referred to as the Spence Act). In my opinion and in the analysis of many others, the Spence Act is a planned economy on an unimagined scale, giving dictatorial power to one man and leading us far down the road to a complete Socialistic and totalitarian system of government. (Ref. Fed. Reader's Digest, Page 15.)

It has been my pleasure to meet and talk to many of the people of the Fifth District, and to convey my ideas and theories of good government through the medium of the newspapers. I shall ever be grateful to you for your support in the Democratic Primary election August 5, 1950.

RESOLUTIONS OF RESPECT

In memory of Brother William L. Greenup, who died June 29th, 1950.
Once again a Brother Mason, having completed the designs written for him on life's trestle board, has passed through the portals of Eternity and entered the Grand Lodge of the New Jerusalem and hath received as his reward, the white stone with the new name written thereon.
And whereas, the all-wise and merciful Master of the universe has called from labor to refreshments our beloved and respected brother, And whereas, he having been a true and faithful brother of our Order, therefore be it
Resolved, that the Charter of Boone Union Lodge No. 304 F. & A. M. Union, Kentucky, in testimony of his loss, be draped in mourning for thirty days and that we tender to the family of our deceased brother our sincere condolence in their deep affliction, and that a copy of these resolutions be sent to the family.

MIDWESTERN HAYRIDE WILL BE FEATURED AT STATE FAIR

Ernie Lee, easy going Master of Ceremonies of the "Midwestern Hayride," the WLW Radio Show that will originate from in front of the grandstand at the Kentucky State Fair on Saturday, September 15, is a native Kentuckian, Berea, being his home town. Ernie is married to a girl from Berea, and has two children.

Ernie has been with WLW since the beginning of 1947, and his rise

to a prominent place in the folk music field is nothing short of phenomenal. The key to Ernie's popularity might be his tall, blonde friendly appearance. Then, again, maybe it's his versatility with both folk tunes and popular ballads. Some fans may be attracted by his sincere personality or by his rendition of classic hymns. But, for whatever reasons, the radio listeners have built Ernie into a star, and Ernie himself likes radio and people in the same easy, friendly,

fashion that distinguishes his singing.

Ernie asserts that Pocahontas was his grandmother, "nine times removed," which is no doubt the case, since Ernie's family, like many of the songs he sings, have roots deep in Kentucky and Virginia history.

Ernie Lee will bring with him, to the State Fair, all of the other personalities that make up the famous "Midwestern Hayride."

COLLEGE SUGGESTS METHODS TO REDUCE WORK IN DAIRYING

Dairymen could reduce by half the time and work required in operating their dairies, if they would plan their work better and make changes in buildings and equipment, says the College of Agriculture and Home Economics, University of Kentucky.

Using spot watches, the college's economists found that under ordinary methods used in dairies, feeding, milking, cleaning stables, washing utensils and caring for milk required 120 to 150 man-hours a cow a year. Then they worked out a system whereby this time was reduced to 50 to 70 hours.

One plan includes letting cows run in "rest sheds." Instead of holding them in stanchions. Milking is done in a "walk-through" milking room. The cows eat their grain while being milked, and receive roughage and silage in their loafing and sleeping quarters. While there are several kinds of "walk-through" milking arrangements, one that handles four cows abreast is recommended.

An advantage of the rest shed or loafing area idea, over stanchions, is that the same loafing space can

be used for sheep and beef cattle as well as for milk cows, where the so beef or sheep. Building costs can be reduced by attaching the milking and milking area to the tobacco barn.

The college's investigators found it possible to reduce the time, work and walking necessary in all operations of a dairy. In some instances, walking could be reduced from 25 miles a cow a year to 15 miles or even less, they declared.

Hopkins county has 55,000 acres of forest land.

Three Escape Injury Sunday In River Mishap

Boat Jumps Dam Taking Passengers And Skier With It.

Two persons riding in a speedboat and another person being towed on water skis escaped injury when the boat hurtled over Dam No. 37 at Fernbank, Sunday.

Occupants of the boat were Sam Gottleb, Newport, and Miss Mary Lou Smith, while Jack O'Connor rode the skis.

The boat traveling at a high rate of speed plunged over the top of the dam and dropped four or five feet into the water, taking the skier with it.

O'Connor was wearing a rubber life jacket and the 20-foot craft landed right side up. Mr. O'Connor held to the tow rope until the trio was pulled to safety by Martin Aylor, Taylorsport, and George Popp, Constance, lockmen and John H. Sprague, engineer, who lives at the dam.

Gottleb told the lockmaster he didn't see the dam.

E. Y. Chapin Bust Is Unveiled; Gift Of Petersburg Body

Has Played Prominent Part In Chattanooga Library Program.

The following article was taken from the Chattanooga Times, Chattanooga, Tenn., issue of July 29, 1950:

A bronze bust of E. Y. Chapin, gift of the Chapin Memorial Library at Petersburg, Ky., was unveiled yesterday afternoon at the Chattanooga Public Library in recognition of the many years of fine service Chapin has given the community and the library.

The bust is one of the best works of Harold Cash, world-nobel Chattanooga sculptor, and art connoisseurs say it would be a magnificent acquisition for the library even if it had no further significance. Cash was among those present for the presentation ceremonies, attended by Mr. and Mrs. Chapin, members of their family, the library board and staff, and a large number of friends.

Walter C. Johnson of the library board presided. Charles Coleman made the presentation, Dr. W. G. West offered prayer, and simple sincere tributes to Mr. Chapin were spoken by Miss Adelaide Rowell, city librarian when Mr. Chapin was board chairman (and when the library acquired the present beautiful building); John Gilbreath, Dr. David A. Lockmiller of the University of Chattanooga, which shares in the library building and services; Bartow Strang and Mrs. Harrison Gill, new members of the board, and by a number of others.

When library friends saw the bust of Mr. Chapin which Cash had been commissioned to make for the library in Petersburg, birthplace of Mr. Chapin, they wrote for permission to have a replica for the local library. The letter they received in reply from Harry Jarboe board chairman then, was read at this unveiling yesterday. It follows:

"We were glad to know Mr. Chapin has played such a prominent part in the Chattanooga library. He has meant so much to this one in Petersburg. I think that anyone who could see either your institution or this one here would get a vision of the wonderful person Mr. Chapin is."

"So in furtherance of the great knowledge he has made possible here and in memory of his part in your city, we, the entire library board of the Chapin Memorial Library, want to thank you for giving us an opportunity to assist in the fine work there. If you will permit us, we are writing to Mr. Harold Cash requesting him to make a replica of the Chapin bust and deliver it to your institution as a gift from the Chapin Memorial Library."

Thomas R. Thompson, 14-year-old son of Mr. and Mrs. Norman Thompson, Taylorsport, was fatally injured when he fell from a truck near his home on the Taylorsport-Constance Road, Thursday afternoon.

According to reports, the youth was riding in a truck driven by Everett Edgington. It is believed that the youth dozed and fell from the truck. The driver noticed the youth as he slipped from the seat and swerved the truck to avoid running over him. The victims head struck the road, causing a skull fracture it was reported.

He was removed to Booth Hospital, but was dead upon arrival.

Besides his parents, he is survived by seven sisters, Mrs. Helen Carnes, Cincinnati; Mrs. Norman Wilson, Covington; Mrs. Rebecca Snelling, Burlington; Mrs. Ruth Fanning, Norwood; Mrs. Mary E. Delph and Misses Phyllis and Marjorie, all of Taylorsport, and one brother, Louis, North Bend, O.

Funeral services were held Sunday at 2:00 p. m. from the Taylorsport Methodist Church, with burial in Hebron Cemetery.

The Catherman funeral home, Ludlow, was in charge of arrangements.

Mr. and Mrs. William Clifton and daughter and Mr. and Mrs. Boss Clifton attended the Owen County Fair at Owenton, Saturday.

Consolidated Telephone Co. Files Request With Kentucky Public Service Commission To Increase Rates On Service In County

Increased Cost of Material and Labor Given As Cause For Increase, According To G. B. Foscoe, General Manager.

Increased costs of equipment and labor during the past several years have made it necessary for the Consolidated Telephone Company to file notice with the Kentucky Public Service Commission that it proposes to make a modest emergency increase in all the rates of its exchanges, G. B. Foscoe, Jr., general manager of the company, announced.

He stated that the present management of the company has delayed the decision to increase its charges to its customers as long as it can, but that it now must take steps to improve its financial and operating position. While annual gross revenues have increased 42.7 percent, operating expenses have increased 58.7%, reducing the ratio of income to outgo to an alarming low level and making an immediate rate increase imperative.

Since the present management assumed control of the company, three years ago, the annual payroll has increased 71.7%. The enactment by Congress of the 75-cent minimum wage law, became effective January 25, has materially increased the payroll and will continue to do so, Mr. Foscoe stated.

Also he pointed out that prices of equipment and materials which go into the expansion, replacement, and maintenance of the company's plant have continually increased during the past three years, and

that there is every indication that they will continue to go still higher.

If the company continues to operate on its present thin margin, it will result in placing it in a precarious financial position, both as to day-to-day operations in rendering service to its patrons, and also in earning an adequate return, so necessary to attract new capital with which to finance the continuation of expansion and improvement of its service, Mr. Foscoe stated. He pointed out that during the past four years, through additions and betterments to its plant, the cost of the physical property of the company has increased \$140,377.09, and that the company's earnings on the fair-cost value of its property have decreased to the rate of 14%, as of May, 1950. Mr. Foscoe stated that with such a low earning, the credit of the company, and its ability to raise new capital for the purpose of further improvements and betterments, are seriously jeopardized.

Mr. Foscoe said that during the past three years dividends paid by the company to its stockholders averaged 1.5% per year on the net value of its plant.

The notice that is filed with the Kentucky Public Service Commission calls for an increase for magneto business and residence telephone of 25 cents a month, for common battery and dial business and residence telephones of 50 cents a month.

Mr. Foscoe states, regarding rural rates, that the base rate of rural residence subscribers with magneto and dial service was being increased 50 cents, and that those served by common battery service were being increased by 75 cents. Further, he pointed out that the rural base rate would include all subscribers within 2 miles of the central office, and that for each additional 2 miles thereafter the rate would be 25 cents above the base rate.

Commenting upon the rate increase and the company's effort to improve its service, Mr. Foscoe issued the following statement:

"When the present management took over the operation of the company in 1947, its employees were poorly paid and its physical plant was in bad condition. The company has increased the number of its employees in Kentucky, has rebuilt considerable of its cable plant, has made additions to three of its switchboards, has divided and rebuilt a number of its rural lines, and contemplates the installation of new central-office equipment in three of its Boone County exchanges, as soon as it is in financial position to do so. It is for the purpose of more quickly enabling these improvements that the present minimum emergency rate increase is sought.

"As for the increased rates which will go into effect, we have spread them over all classes of service, so that they will not result in a financial burden to anyone or to any group of subscribers.

"A telephone company has only one source of income with which to operate its facilities and to provide fair earnings, and that is from its customers."

Telephone Company To Replace Cable Early In September

Will Have Twice Capacity Of Old Equipment; Improved Service Seen.

G. B. Foscoe, Jr., general manager of the Consolidated Telephone Company has announced that three miles of telephone cable has been ordered and is scheduled for shipment early in September to be used to replace the present cable running from Florence to Gunpowder Creek along U. S. Highway 40.

Mr. Foscoe states that, although the present cable normally would be expected to provide good service for at least ten more years, it has developed trouble that causes ringing which cannot be corrected sufficiently to provide a high grade of service.

The new cable will have twice the capacity of the old cable in order to provide growth in this fast-developing area. When the new cable is installed improved service will result to subscribers along U. S. 42 and in the vicinity of Union.

Big Bone Remains Undeclared In Local Saturday League

Burlington Holds Second Spot In League Standing With Sand Run Third.

Big Bone continued its mastery over Boone County Baseball League opposition last Saturday as they pounded out a 11 to 1 win over second place Burlington at the loser's park. It marked the 12th consecutive win for the Big Bones. Behind the effective six-hit pitching of Check Ryan and the heavy bats of Hayes and Miller the winners took an early lead and were never threatened. Ryan fanned seven Burlington hitters and issued only two passes. E. Deck pitched for Burlington and was touched for ten hits, including a double and two singles by Miller and three singles by Hayes. Bowman also added a lusty triple to the winner's cause. Jimmy Smith had three of the loser's six hits.

Hebron Over Sand Run
Hebron won a well-played three to one decision over Sand Run Saturday. The winners had three runs, eight hits and no errors and Sand Run had one run, seven hits and two miscues. Ernst and Garnett composed the winning battery with Judy and McWethy working for the losers. Ernst fanned two and walked five while Judy fanned two and issued one free ticket.

Hebron scored two of their runs in the fifth inning and added another in the seventh. Sand Run picked up their lone tally in the eighth.

In the other league contest Florence defeated Bellevue. Score and details of the contest were not reported.

IN MEMORY

Of the late Harry Lee Coppage.
Be Seeing You
Be seeing you is what he'd say
As he went out the door
Be seeing you . . .
I've heard it o'er and o'er.

He would visit with you awhile
Then come to tell us the news
He'd only stay long enough
To cheer us of our blues.

He was so full of life and fun,
That it hardly seems true,
We no longer hear him say,
I'll be seeing you.

We can't express our loneliness
Since you've gone beyond the blue,
But I know that someday
We'll be seeing you.

Sadly missed by Children and Grandchildren

Burlington Defeats Florence In Knottish Elimination Series

If you didn't see the recent Burlington-Florence Knottish baseball game in which the Burlington boys won 5-1 for their 12th consecutive victory, you missed one of the highlights of the present baseball season. The feature action was a beautifully executed triple play by the Burlington infield. With Bresser on second base and Luck on first, the Florence pitcher hit to Eddie Brown, Burlington second baseman. Brown tossed to Gerry Ryle, shortstop covering second base to force Luck. Ryle then played to first base to Jack Patterson to get Bethel for the second out. Bresser attempting to score from second was nipped at the plate—Patterson to Rouse.

Ray Deck pitched for Burlington and allowed only two hits while fanning nine men. The winners got six hits off the pitching of Bethel.

NO HEARING AID need sell for more than \$75

I BELIEVE NO HEARING AID NEED SELL FOR MORE THAN \$75.00. HERE IS WHY:

EVEN WITH PRESENT HIGH COSTS OF LABOR AND MATERIALS, IF ZENITH WISHED TO SELL A HEARING AID AT \$200 (WHICH WE DON'T) WE WOULD NOT, EVEN WITH OUR ENORMOUS FACILITIES AND THE MILLIONS OF DOLLARS WE SPEND IN OUR RADIO LABORATORIES ON RESEARCH, KNOW HOW TO BUILD IT BETTER THAN OUR SENSATIONAL NEW MINIATURE \$75.00 INSTRUMENT, NOR DO WE KNOW WHERE TO OBTAIN OR HOW TO USE MORE EFFICIENT MATERIALS.

THE BETTER HEARING AID HAS BEEN BUILT—AND ZENITH HAS BUILT IT.

HERE'S WHY!

This whopping big "direct loss" figure will explain why we have asked the Kentucky Railroad Commission to authorize promptly the discontinuance of passenger trains Nos. 15 and 16 between Ludlow and Somerset, Ky.

We are certain that even a quick examination of the facts will convince you and all other fair-minded persons that this is the only proper and business-like course for us to take.

DIRECT LOSS \$169,000 ANNUALLY

We have been losing money steadily—to the tune of over \$14,000 a month — on the operation of these trains. In fact, for every gross dollar they bring in, we are now actually paying out more than \$2.50 in direct expenses alone!

Note that total gross revenues for the 12-month period were only \$112,047.55. But direct expenses alone were \$281,436.92! This means that we had a direct loss of \$169,389.37 last year. And that has been going on year after year and will continue — and increase — unless we are given permission to "stop the leak."

Please note also that we have not included in "direct expenses" such properly chargeable items as supervision, dispatching, maintenance of way and structures, station or agency expense, interest, depreciation, and taxes other than payroll taxes.

**REVENUES \$112,047.55—
WAGES AND FUEL ALONE \$100,486.92**

What we took in and what we paid out for two items of direct expense alone — train fuel and wages of the train crew, including payroll taxes — prove that it's impossible to make these trains pay their way. Wage and fuel costs alone just about wiped out total gross revenues last year.

PLENTY OF OTHER SERVICE

Our line over which these trains operate is paralleled by fine U. S. and state highways over which now moves by choice — in buses, private automobiles and trucks — the traffic that formerly enabled these trains to "pay their way."

Nearly everyone has an automobile nowadays. This fact, plus the abundant common carrier highway bus and truck service available, means that the discontinuance of trains Nos. 15 and 16 will result in no inconvenience.

As to the express now handled on these trains, when the Commission authorizes the discontinuance which we are earnestly requesting, the express will be handled by the Railway Express Agency in highway trucks, or on other trains. The bulk U. S. mail now handled on these trains for local offices will be transported in highway trucks operated by Railway Express Agency. We feel certain that this arrangement will work to your entire satisfaction.

PLEASE HELP

Today the people don't want, and won't buy, local passenger train service. And losses such as shown above are a serious matter to us, and to you. They cannot be justified and should not be permitted to continue: Shippers are vigorously protesting that their freight rates are now required to pay for the losses from unused and unneeded passenger operations.

Viewed from any angle it is definitely not in your best interest — or in the best interest of the public generally — to require railroads to continue passenger service that cannot be made to pay its way. Everybody benefits when railroads are encouraged and helped to eliminate such burdens that unnecessarily increase costs and undermine the railroad services that you do need and want.

Won't you please give us your sympathetic understanding? Leason L. Waters, Superintendent, Somerset, Ky., will be glad to answer any inquiries concerning the above.

Votemobile Visits County

The Ky. Farm Bureau "Votemobile" was in Burlington and other points of Boone County on Wednesday, August 2, 1950. It was decorated in patriotic colors and carried the slogan "Your Voice Is Your Vote—Let It Be Heard."

The "Votemobile" is a non-political and has the endorsement of both political parties. This program passed, according to John E. Crigler, secretary with the approval of 8000 farmers at the last American Farm Bureau Federation, and Boone County was probably the first county in the state to interest the Ky. Farm Bureau in the idea of getting out the vote. County officials and Farm Bureau leaders were on hand to greet the "Votemobile" and were asked to sign the "Votemobile" guest book. Frank Milburn was present to take a picture of the "Votemobile" and a group of local citizens.

It still is apparent after the election held Saturday that there is a lot of work still to be done along this line as only 1010 votes were cast in Boone County out of a possible 6530 votes, which is only about 15%. If this trend continues and citizens continue to show indifference toward voting—minuties will control elections. You must vote in order that majorities may rule. That's the American way. Kentucky Farm Bureau urges you to preserve it.

Mass Meeting Of Telephone Subscribers Called Friday Night To Discuss Proposed Rate Hike

Subscribers of Estill and Boone Counties Will Meet At Burlington Courthouse, According To Committee; Support of Public Is Urged.

Plans for a mass meeting of subscribers from Estill and Boone Counties were announced at a meeting of prominent citizens and businessmen of Boone and Estill Counties held Monday night in Burlington. The date for the mass meeting was set for Friday, August 18 at 8:00 p. m. at the Burlington courthouse. The meeting will be for the purpose of arranging ways in which to fight a proposed rate increase asked by the Consolidated Telephone Co. of Florence.

Frank Milburn, Chairman of the group, asserted that telephone service in Boone County had reached such a pitch of scandalous disorganization as to be "perhaps the principal drawback" to the development of the county. The sentiment was echoed by his fellow committeemen and by many citizens who attended the meeting.

Members of the committee, besides Mr. Milburn were Judge C. L. Cropper, J. C. Acree, Liston Hempfing, Walter King, Wilford Scott, A. B. Renaker and Powers Conrad.

The mass meeting is being called for two reasons: First, to set up a permanent organization, such as a nonprofit corporation to carry on the fight and, second, to contribute a dollar or two for each subscriber to finance any future moves.

Speakers emphasized the necessity of the support of the public, which would strengthen the hands of the committee in opposing the rate increase and demanding an immediate betterment of service.

Many were bitter in their comments concerning the company's former promises of improved service. Several told of service being cut off for one, two or three weeks without improvement or refund.

A discussion of the Poage bill, which, it was said, would allow any utility company needing funds to borrow Federal money to improve its equipment, providing it made the improvements within a year after the loan. If it failed to do

so, then the subscribers were empowered to form a cooperative organization to provide their own service.

One speaker at the meeting said, "We've got to fight now. Twenty-six years of promises are enough. If we don't fight now, we may never have any improvement in service in the next 20 years."

"It's either fight now," another said, "or else go back to carrier pigeons or smoke signals. The service is a disgrace."

Election Planned For Walton-Verona School District Sat.

School Patrons To Vote On Special School Building Tax Levy.

At the request of the Walton-Verona School Board, the Boone County Fiscal Court has called an election for Saturday, August 26th for the purpose of determining the will of the Walton-Verona school district property owners on a special school building fund tax. The proposed levy is fifty cents on each \$100 assessment, and will be used to build a new school building in Walton on the present site. Cost of the proposed new structure is estimated at \$225,000.

If the proposed tax levy meets with the approval of the voters of the district the school board will have the authority to issue bonds and start the new building as soon as bids and materials are available. Plans call for the removal of all the old building with the exception of the gymnasium, which will be used.

The election will be held in the three precincts of the Walton-Verona school district, with regular election officers in charge. The ballot to vote is as follows:

"Are you for or against the levy of a special school building tax rate of fifty cents on each one hundred dollars of property subject to local taxation within the Walton-Verona Independent Graded School District for a period not to exceed thirty years, the income from said tax to be used for the purchase or lease of school sites or buildings, for the erection and complete equipping of new school buildings, for the major alteration, enlargement and complete equipping of existing buildings, for the purpose of retiring, directly or through rental payments, school revenue bonds issued for such school building improvements, and/or for the purpose of financing any program for the acquisition, improvement or building of schools?"

FOR
AGAINST

Opening date of the Walton-Verona School has been set for Monday, September 11, according to J. O. Ward, superintendent. Transportation to both the schools and also to the Catholic school in Walton will be available to every child in the district.

Approximately 467 children will be enrolled this year in the Walton-Verona School system, quite an increase over former years.

Florence Girl Dies In Automobile Crash Monday Evening

Car Rolls 100 Feet After Failing To Make Turn On Burlington Pike.

A Florence girl was killed and an Elsmere boy suffered severe injuries when the car in which they were riding failed to make a turn on Burlington-Florence Road, 1 1/2 miles west of Florence. The girl, Miss Elizabeth Ann Clark, 18, of Price Pike, was pronounced dead on arrival at St. Elizabeth Hospital, Covington.

Richard A. Harms, Lytle Avenue, Elsmere, driver of the car suffered a possible skull fracture, internal injuries and multiple cuts and bruises. His condition was reported as serious.

W. H. Easton, Sheriff of Boone County stated the car, after failing to make the turn, hit a ditch and rolled 100 feet into a field. The driver was thrown 100 feet from the car. The girl was found beside the automobile.

The car was completely demolished in the accident. Both doors were torn off and the top was mashed in.

According to reports, the car apparently was driven at a high rate of speed, which probably caused the driver to lose control and run off the road.

Miss Clark suffered a basal skull fracture and possible internal injuries, it was reported.

Smith-Kelly

Miss Helen Smith, daughter of Mr. and Mrs. Virgil Smith, of Hopeful Road, Florence and Mr. Calvin G. Kelly, son of Mr. and Mrs. Courtney Kelly, of Burlington were united in marriage in an impressive ceremony Saturday evening, August 12, at 7:30 o'clock in the Burlington Baptist Church with Rev. Roy A. Johnson, pastor, officiating.

The altar was banked with palms and baskets of white gladiol and seven candelabra, standards of many prongs each, tied with white ribbon and holding lighted tapers, softly lighted the occasion.

Before the entrance of the bride party, Mrs. Mary Belle Porter sang "Because" and "At Dawning" with Mrs. Robert Clore at the organ with musical interludes of "Indian Love Call" and "Oh, Promise Me."

At the appointed hour the attendants Miss Wilma Lynn, maid of honor and the Misses Cordella and Peggy Kelly, bridesmaids and sisters of the groom and little Miss Sharon Meyers, flower girl, followed by the bride on the arm of her father, entered the left aisle and proceeded with measured steps to the altar, taking their places with Mr. Sam Neace, the best man, Mr. William Smith, brother of the bride and Mr. Robert Clore, the ushers and the groom.

After the vows were repeated, the bride party stood with bowed heads as Mrs. Mary Belle Porter sang "The Lord's Prayer."

The maid of honor was gowned in orchid marquisette styled in princess lines with a neckline yoke edged with ruffles, short sleeves and a bouffant skirt, her mitts extended to the elbows. Covering her head was a picture hat of matching net. She carried a semi-colonial bouquet of yellow roses, interspersed with tufts of orchid net and long knotted streamers of orchid ribbon.

Miss Cordella Kelly, wore a yellow marquisette gown, made the same as the maid of honor, with matching hat and mitts, her flowers, a duplicate in style, were red roses with yellow net and yellow knotted ribbon streamers.

Miss Peggy Kelly wore a blue marquisette in the same style, also with matching hat and mitts, her bouquet, beaded roses with blue net and blue knotted ribbon streamers.

Four-H and Utopia Fair Attracts Crowd of Approximately 7,000 Saturday According To Fair Officials

Most Exhibits Well Filled; Horse Show Held Saturday Afternoon and Evening Proves Best Drawing Card.

The eighteen annual Boone County 4-H and Utopia Fair held on August 11 and 12 was declared by all to have been the best attended fair on record. It is believed that at least seven thousand people attended the fair on Saturday and approximately one-half that number on Friday.

Most exhibits were well filled, especially the 4-H classes. There were about eight hundred exhibits. The horse show, which was held Saturday afternoon and evening

proved to be the big drawing card for the fair, as it was estimated that over three thousand people watched the show on Saturday night and many others were unable to get standing room to see the show.

All stock barns were filled to capacity and a large number of cattle were taken home on Friday night to make room for the large number of horses and ponies which were exhibited on Saturday.

There were also more commercial exhibits and concessions on the grounds than there were before and all concessions reported an exceptionally good volume of business.

Winners in the special events are as follows:

Rolling Pin Throwing Contest—1st Audrey Massey, Burlington.

Wet Penny Contest—1st Carroll McFarland, Independence.

Hog Calling Contest—1st Mary Rector, Petersburg.

Penny Race (Children)—1st Larry Joe Crigger, Burlington.

Oldest Person at the Fair (Friday)—Mrs. Sam Barnes, Burlington.

Slipper Kicking Contest (Girls and Women)—Marilyn Feldhaus, Union.

Bubble Blowing Contest—1st (boys) Stanley Smith, Burlington; 1st (girls) Jo Ann Sturgeon, Walton.

Hog Calling—Charles Hon, Union.

Best Animal Imitator—(boys) 1st Charles Hon, Union R. 1; (girls) 1st, Betty Ann Coppage, Walton R. 2.

Novelty Musical Number—Tie for first, Patsy Afterkirk and Joyce Afterkirk.

Oldest Person at the Fair (Saturday)—1st Eliza Guiley.

Baby Show—(Boys) 1st Harry Dale Moore, Union; 2nd Charles Ray McWethy, Union; 3rd, Benny Lou Stevens, Union. (Girls), 1st, Judith Ann Shields, Walton; 2nd Daria Gail Beagle, Florence; 3rd Carleen Bodie, Union.

The balance of the winners not printed this week will appear in next week's paper.

Local Man Takes Carp Weighing 14 1/2 Pounds

Sterling Rouse reported catching a 14 1/2 lb. carp measuring 31 inches on day last week from the waters of Gunpowder Creek. He reported that it took more than one hour to land the fish after he was hooked. Bait used by Mr. Rouse was doughballs.

This is the largest fish to be taken from local water in sometime.

Kentucky-Indiana Bridge Practically Assured, Is Word

Boone County Approaches All That Is Needed To Get Work Under Way.

Construction of the Kentucky-Indiana bridge which will span the Ohio River from Lawrenceburg to a point near Petersburg on Kentucky Highway 20, apparently is assured, after Gov. Henry Schricker, of Indiana reported that all is required to start work on the span is agreement by Kentucky to construct an approach from the Kentucky side.

The new proposed structure, a \$4,000,000 toll bridge, would be very beneficial in relieving much traffic in the thickly populated Greater Cincinnati area.

The new proposed bridge would connect Lawrenceburg with Kentucky 20 near Petersburg. Highway 20 leads from Petersburg to Ludlow and Covington. It also connects with highway at Idlewild and Hebron, which would be short cuts to U. S. 25 and 42 at Florence.

Conferences were expected to be opened with Kentucky officials concerning the proposed project in the near future.

The new proposed bridge is cited as an essential and no wartime material restrictions would prevent actual construction.

Miss Betty Jean Feldhaus has returned home from North Carolina, after spending several months with friends there.
